

**The Carl D. Perkins
Career and Technical Education Improvement Act of 2006
Public Law 109-270 (Perkins IV)**

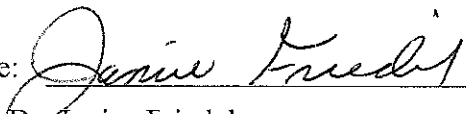

IOWA PERKINS IV FIVE-YEAR STATE PLAN

State Name: IOWA

Eligible Agency Submitting Plan on Behalf of State:

Iowa State Board of Education

Person at, or representing, the eligible agency responsible for answering questions on this plan:

Signature: 
Name: Dr. Janice Friedel
Position: Administrator
Telephone: (515) 281-8260
Email: Janice.Friedel@iowa.gov

Type of State Plan Submission (check only one):

 X 5-Year Plan – FY 2008 – FY 2013

Special Features of State Plan Submission (check all that apply):

 Unified – Secondary and Postsecondary
 Unified – Postsecondary Only
 Title I only (*All Title II funds have been consolidated under Title I*)
 X Title I and Title II

M. Assurances	309

PART A: STATE PLAN NARRATIVE

The Iowa State Board of Education is the eligible agency that administers the use of Carl D. Perkins IV Career and Technical Act of 2006 grant funds. The State Board is appointed by the State's governor and has governance responsibilities for PK-12 local education agencies and community colleges. Career and technical education (CTE) is offered at both instructional levels in comprehensive settings. The State Board has assigned the responsibility for planning and administering the State's Perkins grant funds to the Iowa Department of Education (IDE), more specifically, the Bureau of Community Colleges and Career and Technical Education within the Division of Community Colleges and Workforce Preparation. The administrator for the Division of Community colleges and Workforce Preparation serves as the lead administrator responsible for the development and implementation of the plan and its administration.

I. PLANNING, COORDINATION, AND COLLABORATION PRIOR TO PLAN SUBMISSION

I.A. Statutory Requirements

I.A.1

Requirement:

The IDE must conduct public hearings in the State, after appropriate and sufficient notice, for the purpose of affording all segments of the public and interested organizations and groups (including charter school authorizers and organizers consistent with State law, employers, labor organizations, parents, students, and community organizations), an opportunity to present their views and make recommendations regarding the State plan. [Sec. 122(a)(3)]

Response:

In response to the reauthorization of the Carl D. Perkins Career and Technical Education Improvement Act of 2006, the Iowa State Board of Education was required to approve a new state plan following a federally-mandated process to address four significant changes that would impact state and local recipients of Perkins funds: Career and Technical Education (CTE) Programs of Study, Accountability, Tech Prep, and Competitiveness. The Iowa State Board of Education met on Wednesday, February 6, 2008, and approved the draft state plan for release for notice of public hearing. The draft plan was made accessible at the following website: <http://www.iowaperkinsstateplan.org>. Notice of the public hearing was e-mailed to stakeholders and constituent groups across the State.

The public hearing was held on Thursday, February 28, 2008, 7:00 – 9:00 p.m. Fifteen Iowa Communication Network (ICN) sites were provided and staffed by DE Consultants in regions around the State with the Presentation by the DE originating out of Des Moines. In addition to taking verbal comments, written comments were accepted. Comments and concerns from the Public Hearing were addressed by the DE in the presentation of the final plan to the State Board of Education.

I.A.2

Requirement:

Include a summary of the above recommendations and the eligible agency's response to such recommendations in the State plan. [Sec. 122(a)(3)]

Response:

Public Hearings

As required by law, the State of Iowa held a public hearing to obtain comments on the Iowa State Plan for Implementation of the Carl D. Perkins Career and Technical Act of 2006 on February 28, 2008. The two hour hearing was held over the Iowa Communications Network (ICN), an interactive audio-visual system available across the State of Iowa. Staff of the Iowa Department of Education, with local assistance, facilitated meetings in the fifteen education regions of the State at 16 sites. More than 30 individuals attended the hearing. Three individuals gave testimony and eight had submitted written comments in advance of the hearing.

Appropriate notice of the hearing, including date, time, and locations of the hearing sites, were provided to the public through e-mailed correspondence.

The purpose of the hearing was to gain input from the public and interested organizations and groups regarding the Perkins Plan. A draft copy of the plan was made available on the Department's Web Page. E-mail was utilized to forward a draft of the plan to individuals who requested the information prior to the hearing. Draft copies of the plan were also made available at each of the 16 public hearing sites.

Public Hearing Recommendations and State Responses

Summaries of the comments from the public hearing and the written correspondence regarding the State Plan are included in Appendix L. Following are the key concerns and the State's response to those concerns. Written correspondence was received from eight individuals. Correspondents included agencies, teachers, and secondary and postsecondary administrators.

Administration (Allocation of Funds)

Concern: The formula for determining how the funds are divided between secondary and post-secondary institutions should take into consideration two additional factors: the number of students who enroll in CTE programs; research that shows students who take CTE in secondary programs are more likely to enroll in CTE programs at the post-secondary level.

Response: The committee was committed to a determination of the split that is data-driven. The committee recommended using the same formula as developed and utilized in the determination of the split in the Perkins III plan. It has long been recognized that comparison of secondary and postsecondary headcount enrollments is not a fair measure due to the nature of the program structures at each sector; three sequential units in secondary and up to 86 college credit hours in post-secondary.

Concern: By giving more of the "split" to the postsecondary institutions, high school CTE programs will have even less monies from one of the few funding options which the schools have.

Response: There are three factors influencing the allocations to secondary schools: 1) the steady decline in the federal allocation of Perkins funds to Iowa; 2) the shift in the split between secondary and postsecondary due to the trends in programming, enrollments, and expenditures; and 3) the federal method for determining allocations to local education agencies.

Concern: With the focus on math, reading and expanded “rigorous” courses, the message appears to be that CTE is pretty far down the list of instructional priorities.

Response: A critical component of career and technical programs is the integration of math and reading in rigorous CTE courses. This emphasis is complementary to the improvement of career and technical students’ learning in both the academic and technical areas.

Concern: Consider the option to write a one-year plan or a five-year plan for the grant application.

Response: The basic grant application will allow recipients to submit either a one or a five-year application. The tech prep grant application will also allow recipients to submit either a one or five-year application. Within the tech prep five year application, recipients will submit a five-year plan for implementation of programs.

Concern: How was the allocation split between secondary and postsecondary determined?

Response: The split determination was a data-driven decision based on the formula utilized for Perkins III. Though other options were explored, the decision was made to continue use of the formula. The formula for the funds received through Perkins IV was based on input from a taskforce composed of administrators of secondary school districts and community colleges. Three factors were utilized to determine the distribution of funds received through Section 112 (1)(a) to the two sectors. The factors gave consideration to the enrollments (contact hours) in career and technical education programs in each of the sectors, the costs incurred by each sector to operate the programs, and the factors (population data) utilized by the U.S. Department of Education to distribute Career and Technical Education Assistance to the States. These factors were selected because together they provided a means to give full consideration to the comprehensive nature of career and technical educational programs and the needed investment of additional resources in both sectors to enable the achievement of the state's vision for its Career and Technical Education system.

The distribution of funds between the two sectors was based on the following formula using State Fiscal Year 2006 data:

- One-third (1/3) of the funds to be distributed based upon the proportional share of the total contact hours generated by the career and technical education programs in each sector.
- One-third (1/3) of the funds to be distributed based upon the proportional share of the total operation costs incurred by each sector to conduct career and technical education programs.
- One-third (1/3) of the funds to be distributed based upon the federal method of calculating each state's share of the total federal appropriation. The federal method is shown below:

- (A) an amount that bears the same ratio to 50 percent of the sum being allotted as the product of the population aged 15 to 19 inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;
- (B) an amount that bears the same ratio to 20 percent of the sum being allotted as the product of the population aged 20 to 24, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;
- (C) an amount that bears the same ratio to 15 percent of the sum being allotted as the product of the population aged 25 to 65, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States; and
- (D) an amount that bears the same ratio to 15 percent of the sum being allotted as the amounts allotted to the State under subparagraphs (A), (B), and (C) for such years bears to the sum of the amounts allotted to all the States under subparagraphs (A), (B), and (C) for such year.[Sec. 111(a)(2)]

The portion of funds that have been awarded to state for the population group for ages 15-19 will be awarded to the secondary sector, and the balance of the funds will be awarded to the post-secondary sector.

Based on the formula described above, 50.6 percent of the funds received in Section 112(1)(a) has been distributed to the secondary sector and 49.4 percent of the funds has been distributed to the postsecondary sector.

Concern: The proposal to allocate 50.6% of Perkins to postsecondary and 49.4% to secondary calculates to about a 6% decrease for the high schools. There are already insufficient funds in the secondary programs to prepare CTE students adequately. Students will not be prepared to enter the CTE program s waiting for them at the college level.

Response: The formula for the split factored where contracts are written and dollars are spent for career and technical education. The change in the split indicates postsecondary institutions providing more career and technical education than secondary institutions. Additionally, each community college will designate up to 5.4% of its annual allocation to linked secondary-postsecondary CTE programs.

Concern: Tech Prep Coordinators would like to be part of the conversation in deciding the use of the State Perkins Reserve Funds.

Response: Input will be sought from the Tech Prep Coordinators in order that they may provide advice regarding the use of the State Perkins Reserve Funds.

Accountability

Concern: Community colleges may be asked to develop assessments for high schools and minimally shall approve the assessments to be utilized by the high school for which they have articulated programs. This will be a heavy burden for the community colleges.

Response: Based on the input received through the public hearing, we modified the measurement approach for Secondary Technical Skill Attainment (2S1) so that secondary recipients will only have to gain approval of the technical skills to be assessed, the instrument utilized to assess those skills, and proficiently level to be attained for secondary career and technical education programs when they are linked with a post-secondary program through a “program of study.” This issue will be one of the items addressed when the secondary and post-secondary jointly develop “programs of study” per the requirements of Perkins Act. This approach will reduce the burden for community colleges in that they will be able to address the issue while they are developing “programs of study” with their secondary partners and limit the requirement to only those programs where they have jointly developed a “program of study.”

Concern: In addition to the ITED (Iowa Test of Educational Development) evaluation, support the use of Work Keys in reading and math for the workplace or the COMPASS (course level placement test) exam being used by the community colleges.

Response: The guidance provided by the U.S. Department of Education’s Office of Vocational and Adult Education requires the states to utilize the state assessment approach that it utilizes to address the requirements of Section 1111(b)(3) of the Elementary and Secondary Education Act (ESEA) as amended by the No Child Left Behind Act. Iowa elected to utilize the Iowa Test of Educational Development assessment instruments to evaluate high school students’ proficiency in the areas of math and reading, thus it is required to utilize these same assessment instruments to evaluate career and technical education concentrators’ attainment in math and reading.

Concern: 1p1 How are “technical skills” and “employability skills” defined? How can the baseline year be FY07 if we have not disaggregated these two types of “Skills” for analysis and reporting purposes prior to this point in time?

Response: Each recipient is required to assess its students’ attainment of challenging career and technical skill proficiencies that are aligned with industry-recognized standards, if available and appropriate. The skills to be assessed, the technical assessment instrument to be utilized to assess those skills, and the proficiently level to be attained must be approved by a third party. The third party may be a nationally or state recognized industry organization, a provider of reliable and valid third party assessment instruments, or a regional or local advisory committee for the career and technical education program. The skills to be assessed should include both technical and general employability skills. Recipients will not be required to disaggregate the data between the two types of skills.

Concern: Define “certificate” more precisely. How many “credits” will a certificate need to contain to qualify as an “industry recognized credential?”

Response: Per Chapter 281-21.2(10)e of the Administrative Code of Iowa a certificate may issued by a community college to certify that a student has satisfactorily completed a course of instruction other than what is required to complete a program of study that leads to a diploma, an associate degree in general studies, an associate degree in applied arts or applied sciences, or an associate degree in arts or sciences. Community college credit certificate programs may be a part of a “ladder” CTE diploma or degree program that is approved by the Director, or a standalone credit certificate program approved by the Director. The requirements to qualify for an “industry-recognized credential” are established by the “industry-based” organization offering the credential.

Concern: 2P1 Retention vs. Transfer. Please define. 5P1, 5P2 Nontraditional participation and completion. Small programs have a difficult time meeting performance indicators due to the small number of nontraditional students available. 6P1, 6P2 Same concern as in 5P1 & 5P2.

Response: The performance level targets are negotiated by the eligible recipient at the recipient level rather than individual program level. Thus performance data is collected from each career and technical education program offered by the recipient or all members of a consortium, then aggregated to determine the performance level of the recipient or consortium for each of performance indicators.

Program Development

Concern: If a small district only has 3 programs – then in effect 100% of its programs must meet the linked programs criteria to meet the 75% benchmark. We’re not all Des Moines and Cedar Rapids and Davenport sized districts out here.

Response: Per Chapter 256.11(h) of the Iowa Code, an accredited high school in the State of Iowa must offer and teach a minimum of four career and technical education programs. Therefore, Iowa’s smallest schools would be required to have three of their four programs within programs of study.

Concern: Instead of establishing LEA Advisory councils, encourage the LEA to be involved with the community college advisory councils.

Response: Programs of study require representation from both the high school CTE program and the community college CTE program. Regional CTE program advisory committees have been developed and, where appropriate, are fostered.

Special Populations

No specific concerns expressed at public hearing and no written communications received for this area.

Leadership

Concern: Professional Development. Have the postsecondary institutions use the same professional development model (Iowa Professional Development Model) as the secondary schools utilize.

Response: The issue was addressed by adding that the professional development model utilized by the postsecondary institutions would need to be research based.

Concern: Provide technical assistance for the third party assessment. The field needs a process and guidance for the Advisory Groups to follow in approving the third party assessments.

Response: The IDE consultants will provide technical assistance as the field explores the third party assessments to be utilized.

I.A.3

Requirement:

The IDE must develop the State plan in consultation with academic and career and technical education teachers, faculty, and administrators; career guidance and academic counselors; eligible recipients; charter school authorizers and organizers consistent with State law; parents and students; institutions of higher education; the State tech prep coordinator and representatives of tech prep consortia (if applicable); entities participating in activities described in section 111 of Public Law 105-220; interested community members (including parents and community organizations); representatives of special populations; representatives of business and industry (including representatives of small business); and representatives of labor organizations in the State. The IDE also must consult the Governor of the Iowa with respect to development of the State plan. [Sec. 122(b)(1)(A)-(B)]

Response:

Iowa Carl D. Perkins Five-Year State Plan Development Process

The Iowa Department of Education, Bureau of Community Colleges and Career and Technical Education developed and utilized a process for gathering input from the field as it created the FY 2009-2013 State Plan for the Administration of the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV). This process involved a Stakeholders' Group consisting of representatives of the numerous entities with a stake in career and technical education in Iowa (i.e. parents and students; institutions of higher education; the State tech prep coordinators and representatives of tech prep consortia; entities participating in activities described in section 111 of Public Law 105-220; interested community members; representatives of special populations; representatives of business and industry; and representatives of labor organizations in the State.) The Stakeholders' Group made recommendations regarding the State Plan to the Iowa Department of Education. Five work teams were established to make recommendations to the Stakeholders' Group regarding specific sections of the State Plan including: Program Administration, Accountability and Assessment, Program Development and Improvement, Special Populations/Non-traditional Prep, and Statewide Leadership. These work teams completed their work and the Department presented an initial draft to the Stakeholders' Group on January 11, 2008. The Department then presented the preliminary state plan recommendations to the State Board of Education on February 6, followed by a public hearing on February 28, 2008. The final Stakeholder's meeting was held on Friday, March 13, 2008. The Five-Year State Plan was shared the Governor's Office for comment (see Appendix). The State Board of Education reviewed the finalized plan recommended by the Department on April 3-4, 2008.

I.A.4

Requirement:

The IDE must develop effective activities and procedures, including access to information needed to use such procedures, to allow the individuals and entities listed in item 3 above to participate in State and local decisions that relate to development of the State plan. [Sec. 122(b)(2)]

Response:

In addition to the Statewide Stakeholders group, five subgroups with the following responsibilities were involved and contained a cross-section of membership from the required groups from across the State. The work teams had three full day meetings and a final meeting with the Statewide Stakeholders group to present their recommendations.

Program Accountability & Evaluation

This work team developed recommendations to be presented to the Stakeholders Planning Committee addressing issues related to implementation of accountability and evaluations per the requirements of the Carl D. Perkins Career and Technical Education Act of 2006. Issues included the development of performance measurement definitions and approaches for the core indicators, establishment of a state adjusted level of performance for each core indicator, developed process for reaching agreement with local recipients on local adjusted levels of performance and the development of a process for reporting data relating to the performance of students who participate in career and technical education programs.

Administration

This work team developed recommendations to be presented to the Stakeholders Planning Committee addressing administrative issues related to the implementation of the Carl D. Perkins Career and Technical Education Act in the State of Iowa. Issues included distribution of funds between eligible recipients, alternative funding formulas, formation of consortiums, application process, criteria for approval of eligible recipients, monitoring, coordination with related workforce development initiatives including support of one-stop career delivery system, set-aside for tech prep programs and special initiatives via reserve fund, and procedures for planning for program improvement and sanctions.

Program Development and Improvement

This work team developed recommendations for the Stakeholders Planning Committee addressing issues related to development of programs of study and the improvement of career and technical education programs. Issues included the defining of the components of career and technical education programs of study including the development and implementation of articulation agreements between secondary and post-secondary institutions, the availability of information about programs of study provided by local recipients, the improvement of the transition from post-secondary career and technical education programs into baccalaureate degree programs, and tech prep program implementation and improvement issues.

Special Populations/Nontraditional

This work team developed recommendations presented to the Stakeholders Planning Committee addressing issues related to the recruitment and retention of students who are members of special populations and/or of an underrepresented gender in a career field into career and technical education programs that prepare individuals for further education and for high-skill, high-wage, or high-demand occupations. Issues included the development of strategies for students enrolled in alternative

education programs and special populations so that they are provided equal access to career and technical education programs, and are provided with supportive supplemental services to enable their success in those programs. The team was also required to determine how funds received through the grant would be utilized to promote preparation for high-skill, high-wage, or high-demand occupations and non-traditional fields. The team also had to determine how to serve students in correctional and other state institutions.

Statewide Leadership

This work team developed recommendations presented to the Stakeholders Planning Committee addressing issues related to provision of technical assistance to local grant recipients, the professional development, and teacher recruitment and preparation activities for career and technical education teachers, faculty, administrators, and career guidance counselors. Issues included the promotion of the integration of coherent and rigorous academic content standards and career and technical education curricula, increase the knowledge and skills needed to work with and improve instruction for members of special populations, the increasing the understanding of the application of academic knowledge and industry-based skill standards, and the increased use of applied learning that contributes to students academic and technical knowledge and skill attainment.

I.A.5

Requirement:

The IDE must develop the portion of the State plan relating to the amount and uses of any funds proposed to be reserved for adult career and technical education, postsecondary career and technical education, tech prep education, and secondary career and technical education after consultation with the State agency responsible for supervision of community colleges, technical institutes, or other 2-year postsecondary institutions primarily engaged in providing postsecondary career and technical education, and the State agency responsible for secondary education. If a State agency finds that a portion of the final State plan is objectionable, the State agency must file its objections with the IDE. The IDE must respond to any objections it receives in the State plan that it submits to the Secretary. [Sec. 122(e)(3)]

Response:

The IDE is the sole agency with responsibility for adult vocational and technical education, postsecondary vocational and technical education, tech prep education, and secondary vocational and technical education. It is also the sole agency with responsibility for supervision of community colleges.

II. PROGRAM ADMINISTRATION

II.A. Statutory Requirements

II.A.1

Requirement:

The IDE must prepare and submit to the United States Secretary of Education a Perkins IV State plan for a 6-year period; or it may prepare and submit a transition plan for the first year of operation of programs under the Act. [Sec. 122(a)(1)]

Response:

The IDE submitted its Perkins IV One-Year Transition State Plan to the United States Secretary of Education in May 2007. The IDE will submit the Perkins IV Five-Year State Plan by the date required.

II.A.2.a

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (a) The career and technical education programs of study, that may be adopted by local educational agencies and postsecondary institutions to be offered as an option to students (and their parents as appropriate) when planning for and completing future coursework, for career and technical content areas that—
 - i. Incorporate secondary education and postsecondary education elements;
 - ii. Include coherent and rigorous content, aligned with challenging academic standards, and relevant career and technical content in a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education to adequately prepare students to succeed in postsecondary education;
 - iii. May include the opportunity for secondary education students to participate in dual or concurrent enrollment programs or other ways to acquire postsecondary education credits; and
 - iv. Lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree;

Response:

The Iowa State Plan for Career and Technical Education is designed to assist local recipients of Perkins funds to implement activities that support and result in meeting or exceeding the State of Iowa adjusted levels of performance. The plan is also designed to allow local career and technical education programs at the secondary and postsecondary levels to respond to locally identified needs to improve respective programs.

The Iowa State Plan for Career and Technical Education is designed to assist local recipients of Perkins funds to implement activities that support and result in meeting or exceeding the State of Iowa adjusted levels of performance. The plan is also designed to allow local career and technical education programs at the secondary and postsecondary level to respond to locally identified needs to improve respective programs.

Programs of Study in Iowa must meet the following requirements:

- Be consistent with Iowa Code for secondary and postsecondary schools. (Iowa Code 256.11(5) h; 258.3A; 258.4; 281-46(258); 281-12(2&6); 281-24.5(3-6); (Requirements for Vocational Education); Chapter 24 (Administrative Rules); 260C.14 and 260.18A 281-47.2(260C) (Requirements for Career Academies).
 - In accordance with Iowa Code, career and technical programs of study will consist of coherent and rigorous curriculum that:
 - Includes academic and technical content,
 - Is a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education, and
 - Adequately prepares students to succeed in postsecondary education leading to an industry recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- All Secondary students must meet the same high school graduation requirements per Iowa Code 256.7(26)
- The secondary career and technical education programs of study may include concurrent enrollment opportunities for postsecondary credit. As part of the needs assessment process, local school districts and community colleges shall evaluate opportunities for concurrent enrollment.
- Career and technical education programs of study must include a sequence of at least three units of CTE coursework offered to the secondary level and linked to postsecondary education leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- The career and technical education programs of study at the secondary level will include competency based applied learning that contributes to academic knowledge, higher-order thinking skills, reasoning and problem-solving skills, work attitudes, general employability skills, leadership, and knowledge of all aspects of the industry including entrepreneurship.
- Career and technical education programs will have an advisory committee with representation of secondary and postsecondary levels of instruction as well as business and industry as applicable.

- Career and technical programs will be evaluated through an annual review of the Perkins performance requirements for academic and technical attainment, placement and retention data, degree attainment data, and nontraditional career data for secondary and postsecondary programs. In addition, Iowa Code requires a more in-depth review of 20 percent of all CTE programs annually.

II.A.2.b

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (b) How the IDE, in consultation with eligible recipients, will develop and implement the career and technical programs of study described in (a) above;

Response:

The IDE, in consultation with community college chief academic officers, Area Education Agencies, community college career and technical directors, local school administrators, Iowa Association for Supervision and Curriculum Development, and the Tech Prep network will facilitate the planning and development of model templates that outline required elements for programs of study and provide technical assistance and monitoring of programs of study. The planning and development of programs of study will be responsibility of the eligible recipient. Stakeholders shall explore ways to foster growth and innovation in the development of programs of study. The development and design of programs of study will utilize either the current Iowa Tech Prep model or Career Academy model that integrates career, technical and academic requirements with federal requirements.

Stakeholder groups assessed the current career and technical education structure in Iowa. In addition, an external, third party assessment has developed recommendations for consideration. The goal of both processes is to align service areas, career clusters, and career pathways within a new framework for career and technical education.

Career and technical programs of study to be adopted by local educational agencies should offer students coursework for career and technical content areas that—

- Incorporate secondary education and postsecondary education elements;
- Include coherent and rigorous content aligned with challenging academic standards and relevant career and technical content in a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education to adequately prepare students to succeed in postsecondary education;
- May include the opportunity for secondary education students to participate in concurrent enrollment programs or other ways to acquire postsecondary education credits; and
- Lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree;

Career and technical programs of study will also:

- Integrate general studies (academics) within their scope and sequence.
- Expand career clusters.
- Consider emerging technologies for new CTE programs of study.
- Utilize a common statewide template. The standard elements required for a program of study will be addressed in the template.
- Utilize written agreements between educational entities for the career-focused programs of study. These agreements will define curriculum, operational policies and procedures, and credit provisions. All secondary and postsecondary courses, both core academic and technical, will include outcomes or competencies (technical skills). Written agreements shall be reviewed annually.

During the transition year, eligible recipients have developed or implemented a minimum of one program of study. Eligible recipients will foster the development and implementation of programs of study within their respective districts to benefit students and stakeholders. Each will develop and implement a minimum of 75% of their CTE programs to align with the Iowa program of study template requirements. Eligible recipients will describe their plans to meet this goal within the application for funding. Eligible recipients will demonstrate incremental progress toward this goal throughout the implementation of the Carl D. Perkins Act of 2006.

The IDE will develop the process for program of study monitoring. This process will include a template which outlines the required elements of a program of study and the method the IDE will utilize to monitor progress toward the minimum requirement of 75% of secondary CTE programs aligned with a program of study. Eligible recipients shall provide relevant information regarding programs of study through state data collection systems, such as Project Easier Plus CTE, and/or through the Title I application and monitoring process.

II.A.2.c

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (c) How the IDE will support eligible recipients in developing and implementing articulation agreements between secondary education and postsecondary education institutions;

Response:

Throughout implementation of the Carl D. Perkins Acts of 1990 and 1998, Iowa placed significant emphasis on the linkage and articulation between secondary and post-secondary education. State legislation focusing upon career and technical education passed in 1989 required articulation for CTE programs. State staff continue to assist with the establishment of articulation agreements between secondary and post-secondary programs and coordinate the development of statewide articulation agreements. During statewide secondary school improvement visits and community college

accreditation visits, IDE staff has the responsibility to monitor documents to ensure that requisite articulation agreements are established for each program.

Tech Prep consortia in Iowa have a major role in promoting and implementing linkages and articulation between secondary and postsecondary levels. The state's 15 community colleges deliver college level curricula to secondary career and technical students through jointly administered programs. Concurrent enrollment opportunities are also explored and developed.

State legislation also provides incentives to students, parents, and secondary schools for providing postsecondary enrollment opportunities to secondary students through three legislative initiatives – supplementary weighting, Grow Iowa Values Fund, and the Postsecondary Enrollment Options Act (PSEO).

Iowa will continue to require that eligible recipients develop and implement articulation agreements between secondary and postsecondary educational entities through multiple activities. These include professional development, in-service training, and articulation requirements for all CTE programs of study, policy reviews, process improvement, and expansion of articulation avenues.

- i. In order to implement the new federal legislation effectively and to provide necessary technical assistance to Iowa's schools and colleges, additional professional development activities that address articulation between secondary and postsecondary levels will be designed and conducted for state staff.

Professional Development will be designed to provide assistance for teachers, curriculum directors, counselors, and administrators in developing and strengthening linkages through articulation agreements and concurrent enrollment opportunities between secondary and postsecondary education; and continuing to align and articulate curricula between secondary and postsecondary levels, as well as postsecondary to postsecondary institutions to assist students in successful transition.

- ii. Efforts to improve and strengthen the transition from secondary to postsecondary education will include:
 - Increased communication between all levels to ensure clear definitions and expectations about quality.
 - Use of potential assessments.
 - Understanding of college policies and procedures.
- iii. Program articulation between secondary and postsecondary education is required within career and technical programs of study. Common competencies or outcomes (technical skills) between secondary and postsecondary CTE programs will be agreed upon jointly. The development of statewide curriculum planning and course articulation agreements shall be expanded building upon existing models. For example, Iowa has developed statewide models in early childhood education as well as business courses.

- iv. The IDE shall expand the focus of articulation from secondary to two-year programs to the transition from two-year AAS and AS degree programs to baccalaureate degree programs.
- v. State staff shall engage stakeholders in order to identify methods to improve the preparation of students for college-level articulated courses. Iowa requires that 8th grade students complete a graduation plan, the Student Core Curriculum Plan (SCCP). The 8th grade plans are developed for middle school students and outline high school course selection plans through graduation. Student Core Curriculum Plans support the program of study concept. Such plans shall provide an educational map for students to initially focus on their future and to continue their formal education beyond high school. Potential high school – community college articulated as well as concurrent enrollment courses shall be emphasized. Career and technical and academic faculty shall collaborate in discussing requisite preparation for college-level courses.
- vi. In cooperation with the statewide Liaison Advisory Committee for Transfer Students (LACTS), a statewide articulation agreement between community colleges and the Regents universities (Iowa State University, University of Iowa, and University of Northern Iowa) for the Associate of Science Degree for career option college parallel programs will be explored.

II.A.2.d

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (d) How programs at the secondary level will make available information about career and technical programs of study offered by eligible recipients;

Response:

Information about programs of study at the secondary level will be disseminated using diverse methods, resources and media. IDE career and technical education consultants provide technical assistance to eligible recipients concerning technical knowledge and skills as well as infused academic and career skills and knowledge. Professional development opportunities, utilizing the Iowa Professional Development Model (IPDM) for eligible recipients, will be conducted to provide information on effective practices for integrated career and technical education programs.

Examples of resources include Iowa Choices (Iowa's Career Information Delivery System), electronic bulletins and updates, student course handbooks, secondary school curriculum guides, community college handbooks, and publications such as Iowa's Community College Program Guide as well as the Iowa Career Resource Guide.

Iowa legislation requires that all 8th grade students complete an educational plan identified as the Student Core Curriculum Plan (SCCP) for high school graduation with parental involvement and approval. This plan outlines high school course selection.

School counselors and teachers facilitate career development education in grades 7 - 12 through information about career clusters, workplace skills, occupations, postsecondary opportunities, and educational opportunities with programs of study. Many community colleges host career planning and

career experience days for secondary students and teachers to support this effort. Secondary school staff members are encouraged to utilize electronic and print resources to inform students about the opportunities available as students plan their coursework in high school and postsecondary college or training.

Section 118:

The IDE Division of Community Colleges and Workforce Preparation is designated as the entity to meet compliance with Section 118 – Occupational and Employment Information. The IDE, in collaboration with guidance counselors, teachers, administrators, community college staff, and other stakeholders, developed specifications for a statewide Career Information Delivery System (CIDS). Based upon their recommendations, the IDE has currently designated Iowa Choices as the Iowa statewide CIDS. The IDE shall continue to designate the statewide CIDS. Iowa Choices meets the following requirements for Section 118:

- Assisting students in identifying high-skill, high-wage, high-demand occupations or emerging professions.
- Assisting students to have access to regional occupational information for preparation for careers that exist in their area and provide a family-sustaining wage.
- Promoting a vast array of career options for all students, including nontraditional career areas.
- Encouraging students to take higher-level academics for preparation of a career goal.
- Preparing students for a successful post-secondary transition.
- Facilitating parental involvement.

The IDE will encourage the use of the state-designated career information delivery system products for middle and high school students, youth correctional facilities, community colleges and public/private postsecondary institutions, and the Iowa Workforce Development Centers.

Career information resources are a critical component for the professional development of counselors, administrators, and career and technical instructors. These resources are used to facilitate and support quality guidance and academic counseling through school counselors, CTE instructors, transition coordinators, advisor/advisee programs, and academic core teachers at the secondary and postsecondary levels. Such references provide career development tools for curriculum and instructional strategies. Potential activities that can assist with valid information dissemination and decision-making include:

- Developing of a common marketing process.
- Utilizing local parent associations to share career information or distribute references.
- Offering career planning seminars for parent and student stakeholders.

- Collaborating with business and industry and local workforce development centers to discuss regional career opportunities.
- Using of public access media channels.
- Developing of an interactive website.
- Increasing technical capacity for the IDE.

Local plans submitted by eligible secondary recipients must specifically describe how career guidance and academic counseling will be provided to career and technical students. Information about how students can transition to postsecondary education must be delineated.

II.A.2.e

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (e) The secondary and postsecondary career and technical education programs to be carried out, including programs that will be carried out by the IDE, to develop, improve, and expand access to appropriate technology in career and technical education programs;

Response:

Technology in career and technical programs is incorporated into the delivery of program content. Such technology includes relevant equipment as well as information technology. The IDE will develop technical assistance designed to expand the use of technology in program delivery and professional development. Distance learning systems such as on-line delivery and the Iowa Communications Network used for professional development and concurrent enrollment coursework increase access for students and staff. Industry-related technology will be encouraged in skill certification for career and technical programs.

The IDE will utilize professional development to deliver instructional methods utilizing technical skill applications. When applicable, joint professional development for secondary and postsecondary instructors will be delivered. Local recipients will be encouraged to partner with business and industry to facilitate increased access to appropriate technology in career and technical education programs. Local CTE advisory committees shall assist recipients with the evaluation and selection of appropriate technology.

The use of technology for professional development will be promoted. Professional development will be designed to include sharing of technology and effective practices.

II.A.2.f

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (f) The criteria that the IDE will use to approve eligible recipients for funds under the Act, including criteria to assess the extent to which the local plan will—
- i. Promote continuous improvement in academic achievement;
 - ii. Promote continuous improvement of technical skill attainment; and
 - iii. Identify and address current or emerging occupational opportunities;

Response:

The local application includes items requiring that eligible recipients describe how they are addressing (1) Promoting continuous improvement in academic achievement, (2) Promoting continuous improvement of technical skill attainment, and (3) Identifying and addressing current or emerging occupational opportunities, in addition to other requirements as specified by the Act. DE staff will utilize a criterion-based rubric (see Appendix A) to guide the review process of applications submitted by eligible recipient to determine compliance with the required criteria.

The current Perkins IV Plan was developed with the intention to align, as closely as possible, with the state's accountability provisions under Chapter 12 of the Iowa Administrative Code (281—IAC 12). Additionally, as the accountability provisions of the No Child Left Behind Act of 2001 support the development of an “action plan” for agencies to implement in order to ameliorate deficiencies, Iowa's proposed Perkins IV Plan requires agencies that do not meet targets to develop an “approvable” plan, which, upon approval by the Iowa DE, Perkins funds will be released to the fiscal agents.

The evaluation and accountability of Perkins IV is described below:

2008-2009 school year: Spring 2009 is the end of data collection for the 2008-2009 school year. In January of 2009, data reports from the 2007-2008 school year will become available. By June 2009, agencies will need to develop plans to address deficiencies from the transition plan for 2007-2008.

2009-2010 school year: Spring 2010 is the end of data collection for the 2009-2010 school year. In January of 2010, data reports from the 2008-2009 school year will become available. The 2009-2010 school year is the first year of implementation monitoring for the plan revisions conducted during the Summer of 2009. Based on data, the plan developed in 2009 should be re-examined to address deficiencies. This plan should include capacity building and professional development for staff, recruitment of staff, and program modifications.

2010-2011 school year: Spring 2011 is the end of data collection for the 2010-2011 school year. In January of 2011, data reports from the 2009-2010 school year will become available. The 2011 school year is the first year of implementation monitoring for the plan revisions conducted during the Summer of 2010. The revised plan based on 2009-2009 and 2009-2010 data is implemented during the 2010-2011 school year. Implementation is directed at faculty/staff, primarily to build capacity.

2011-2012 school year: Spring 2012 is the end of data collection for the 2011-2012 school year. In January of 2012, data reports from the 2010-2011 school year will become available. During the 2011-2012 school year, the plan implementation, resulting from capacity building with staff, as well as program modifications, is implemented with students for the first time.

2012-2013 school year: Spring 2013 is the end of data collection for the 2012-2013 school year. In January of 2013, data reports from the 2011-2012 school year will become available. The 2012-2013 school year will be the first year for evaluation of the plan and its implementation with staff and students. If negotiated targets for the 2011-2012 school year are met, the agency is granted continuance of its current plan. If negotiated targets are not met, the agency must revise its plan for faculty/staff and/or students to address deficiencies and targets not met. The revised plan must be approved by the IDE.

2013-2014 school year: Spring 2014 is the end of data collection for the 2013-2014 school year. In January of 2014, data reports from the 2012-2013 school year will become available. The 2013-2014 school year will be a continuance of plan monitoring for revised plans developed during the summer of 2013.

Transition Plan

2007-2008 School Year	January 2009	2008-2009 School Year
Spring 2008 – end of data collection – 3 achievement targets – Reading, Math, Graduation Rate	Data Reporting	Begin implementation of plan
	If Miss Targets June 2009 – plan to address deficiencies, to include capacity building, recruitment, professional development, and program modifications.	

Six-Year Plan; Data reporting during the six year duration

2008-2009 School Year	2009-2010 School Year	2010-2011 School Year	2011-2012 School Year	2012-2013 School Year	2013-2014 School Year
Spring 2009 – end of data collection for 2008-2009 year.	Spring 2010 – end of data collection for 2009-2010 year.	Spring 2011 – end of data collection for 2010-2011 year.	Spring 2012 – end of data collection of 2011-2012 year.	Spring 2013 – end of data collection for 2012-2013 year	Spring 2014 – end of data collection for 2013-2014 year
	June 2009 Plan based on 2007-2008 data to address faculty, staff, and program needs is implemented during 2009-2010 school year.	Revised plan based on 2008-2009 data is implemented during 2010-2011 school year.	Development work conducted during 2010-2011 is implemented with Students		

	January 2010	January 2011	January 2012	January 2013	January 2014
	Data Reporting for 2008-2009 year	Data Reporting for 2009-2010 year	Data Reporting for 2010-2011 year	Data Reporting for 2011-2012 year	Data Reporting for 2012-2013 year
	June 2010 – re-examine plan to address deficiencies, to include capacity building, recruitment, professional development, and program modifications.	Perkins Plan Implementation monitoring	Perkins Plan Implementation monitoring	If targets are met, agency granted continuance of current plan. If targets are not met, agency must revise plan for faculty/staff and/or students to ameliorate deficiencies. Plan must be approved by DE.	Perkins Plan Implementation monitoring

What happens to agencies not meeting goals?

Based on the timing of when data are available for program accountability and improvement planning, agencies will use prior year data to develop and submit an approvable plan, which, upon approval, will be enacted during the subsequent academic year. Agencies that miss some goals in some years and other goals in later years is not seen as a barrier to plan implementation. This is because agencies must develop their approvable plans to ameliorate deficiencies regarding goal attainment, and this is done on an annual basis. The goals that an agency fails to meet in a given year would need to become part of the agency's improvement plan for the next year.

Example: Data from 2011-2012 are available in January of 2013. For goals not met, the agency must revise and resubmit an approvable plan (in the Spring or Summer of 2013) to ameliorate deficiencies. This plan may include actions to address student needs, staff needs, or both. Upon IDE approval, the agency will implement the plan for the 2013-2014 academic year. In simpler terms, agencies will use last year's data to write an improvement plan this year that will be implemented next year.

II.A.2.g

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (g) How programs at the secondary level will prepare career and technical education students, including special populations, to graduate from secondary school with a diploma;

Response:

All career and technical education secondary programs in Iowa are part of comprehensive high schools. Graduation requirements and diplomas are the same for all high school students, including special population students.

The application for the Carl D. Perkins Career and Technical Education Act of 2006 will require information from school districts and consortia regarding measures taken to encourage high school completion during the grant application and implementation process. General studies students and special population student demographic data will be disaggregated. Local districts will be encouraged to utilize this data in conducting local needs assessments to develop strategies to increase the number of students who graduate with a diploma.

II.A.2.h

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (h) How such programs will prepare career and technical education students, including special populations, academically and technically for opportunities in postsecondary education or entry into high-skill, high-wage, or high-demand occupations in current or emerging occupations, and how participating students will be made aware of such opportunities;

Response:

Throughout the implementation of Perkins III, Iowa developed and implemented programs that provide a seamless pathway for students leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS), or Associate of Science (AS) with a career option concentration in a specific career field. These programs provide direct opportunities to access postsecondary education and prepare students to enter into high-skill, high-wage, or high-demand occupations. In addition, Iowa requires that secondary schools show the demand for skilled employees in related occupations as part of the state program approval process.

Multiple factors will be considered as eligible recipients develop and offer programs that lead to high-wage, high-skill, or high-demand occupations. The state will collaborate with Iowa Workforce Development (Department of Labor) to provide assistance to the eligible recipients regarding regional determination of high-wage, high-skills, or high demand occupations. Iowa Workforce Development (IWD) determines high-demand on a statewide level as an industry with an annual growth rate of 1.2 percent (1.2%). High-wage is determined on a regional level as being above the mean annual wage for employment. IWD can provide high-skill information on a regional level. IWD routinely surveys regional industries to determine skills needed for workforce enhancement and development. Such data is used by educational stakeholders to project new or revise existing career and technical programs of study.

The IDED also provides incentives to develop career and technical programs of study through Accelerated Career Education (ACE) initiatives to promote current or emerging high-skill, high-wage, or high-demand occupations. Examples include health care as well as the emerging alternative fuel industry. The IDE staff and other state and local entities assist with the program development and approval processes.

Industry skill certifications are garnering increased attention in many career areas. In the fall of 2005, Iowa conducted surveys to gather baseline information about the skill credentials community college and high school students earn. Included in the data collected was information concerning which programs were aligned with industry certifications, who issues the credentials, whether aligned instructional programs are certified or accredited by that entity, whether the entity has credential requirements for the instructors, whether the test is voluntary, whether students take the exam while enrolled or after graduation, and exam pass rates (if available/provided to the school or college.) Educational entities reported a diverse array of certifications in a variety of career clusters. The state will continue to collect data, research potential opportunities for industry certification, establish targets to expand industry skill credentials, and promote best practices regarding skill credentialing.

As career and technical programs of study are implemented, the IDE will promote, where possible and appropriate, the utilization of industry-recognized skills standards so that students have access to industry skill credentials. Iowa programs of study will identify both academic and technical courses that prepare students for success in higher education and the workforce.

II.A.2.i**Requirement:**

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (i) How funds will be used to improve or develop new career and technical education courses—
 - i. At the secondary level that are aligned with rigorous and challenging academic content standards and student academic achievement standards adopted by the State under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965, as amended;
 - ii. At the postsecondary level that are relevant and challenging; and
 - iii. That lead to employment in high-skill, high-wage, or high-demand occupations;

Response:

Local application guidelines will provide information regarding use of funds to improve or develop new career and technical education courses within programs of study. Programs of study will integrate rigorous and challenging academic and career and technical instruction and lead to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS), or Associate of Science (AS) with a career option in a specific career field. The programs of study will be designed to prepare career and technical students for high-skill, high-wage, or high-demand occupations in current and emerging professions and link secondary and postsecondary education. Eligible recipients may choose to use funds to improve or develop new career and technical programs of study if their local application identifies and documents the need and ensures that the career and technical programs of study will result in skills that are valued by the workforce. Model or pilot programs in emerging technology fields will be explored and promoted.

School districts and consortia will be encouraged to develop new career and technical education courses to expand or to establish new programs of study as consortia-wide initiatives. During the transition year, all eligible recipients were required to have a minimum of one program of study within their district or consortium. Eligible recipients will also foster the development and implementation of programs of study within their respective districts to benefit students and stakeholders. Each secondary district will develop and implement a minimum of 75% of their CTE programs to align with the Iowa program of study model. Eligible recipients will describe plans to meet this goal in their application for funding. Eligible recipients will demonstrate incremental progress toward this goal throughout the implementation of the Carl D Perkins Act of 2006. The state will continue to provide technical assistance to support the development of new career and technical programs of study.

II.A.2.j

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (j) How the IDE will facilitate and coordinate communications on best practices among successful recipients of tech prep program grants under Title II and other eligible recipients to improve

program quality and student achievement. (Please note this item is required only for States not consolidating all of their Tech Prep funds);

Response:

Multiple and diverse communication systems are in place among CTE consultants, Perkins recipients, Area Education Agencies, and CTE instructors to disseminate and communicate essential information to improve career and technical programs (including Tech Prep) and student achievement. Electronic and print media as well as state-wide meetings and conferences facilitate communications and afford the avenue to share effective practices. Activities to support program improvement include the following:

Professional Development

The Iowa Professional Development Model guides delivery of date-driven, sustainable professional development for secondary school staff. Similarly, professional development standard from postsecondary professional organizations provide guidelines for planning and implementing of professional development for post secondary staff.

Professional development will include guidance and support for teachers, curriculum directors, counselors, and administrators in developing and strengthening linkages through articulation agreements and concurrent enrollment opportunities between secondary and postsecondary education; how to improve data quality and accountability systems; and how to enhance the academic core in support of career and technical education.

Within budget limitations, the IDE will coordinate technical assistance designed to expand the use of technology in program delivery and professional development. The IDE will develop a professional development process to deliver instructional methods utilizing technical skill applications. Program management committees have been established in each career and technical service area within the current Iowa CTE framework. Based on data, the committees' recommendations shall assist in identifying the professional development needs of their respective career and technical instructors and assist in planning for the delivery and evaluation of the professional development services. The program management committees' recommendations will be considered in planning statewide professional development priorities and activities coordinated by the Department of Education.

State and regional workshops and conferences, as a part of a sustainable professional development efforts, are supported by the IDE utilizing national presenters, national resources, and professional associations. The IDE will explore the reintroduction of a Perkins Administrators' Conference as a focused vehicle to deliver technical assistance and effective practices supporting the priority initiatives during the five-year cycle of the state's plan.

Electronic Communications

State career and technical education consultants and Tech Prep coordinators communicate on a regular basis with instructors and administrative staff within their respective service areas through the consultants' electronic distribution list. Communication focuses upon federal and state policies, staff development, data requirements, and other issues relative to career and technical program improvement and student achievement initiatives. The Iowa Communications Network (ICN) also provides an interactive forum to share information and dialogue issues.

Monitoring and Accreditation Process

State program consultants are responsible for monitoring the Perkins grants and conducting on-site visits a minimum of once every three years. The intent of the visit is to directly observe evidence that the Perkins grant management components and background information are used appropriately and provide technical assistance based on identified needs. In addition, CTE consultants participate in comprehensive school improvement visits and provide opportunities to share promising practices. CTE consultants also participate in accreditation site visits to review CTE practices and provide input for program improvement. Technical assistance is provided to schools and colleges based on identified needs.

Perkins Application for Funds

State career and technical education consultants shall review and evaluate each component of the local application to ensure alignment with Perkins grant guidelines. Issues regarding the successful completion of the application are communicated to the recipient for corrections or additions.

II.A.2.k

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (k) How funds will be used effectively to link academic and career and technical education at the secondary level and at the postsecondary level in a manner that increases student academic and career and technical achievement; and

Response:

Iowa has provided for the linkage of academic and career and technical education under Perkins III and will continue to use this framework. Each eligible recipient is asked to ensure that career and technical education students are taught to the same challenging academic proficiencies as are taught to other students. The grant recipient confirms this in the Assurances/Agreement Section of the local plan. In addition, each program receiving Perkins assistance is required to report its status relative to the performance measures. The Perkins performance measure for the core indicator on secondary academic skills uses the state level database that reports the academic achievement of 11th grade students in reading/language arts and math using the Iowa Tests of Educational Development (ITEDs). Data are accessible for use at the local level to assure that additional emphasis can be placed upon academic skills within career and technical programs.

Tech Prep programs have helped students meet high academic standards by integrating academic competencies into the career and technical curricula, providing learning experiences that challenge students to high levels of attainment, and using assessments to document student learning progress and attainment.

Professional development provided to teachers, curriculum directors, and administrators will include:

- Development of strategies to assure students meet high levels of achievement in academic and technical proficiencies, and

- Integration of career and technical education including contextual learning.

Inherent in Perkins IV is the specific focus on both academic and technical standards linked with high-skill, high-wage, or high-demand occupations in current or emerging professions. The state will support eligible recipients to improve this linkage and increase student academic and career and technical achievement in the following ways:

- Collaboration between career and technical education and the employment community will be examined. The specific academic and technical skills needed to support a regional workforce will be designed. The results will determine how well career and technical education is preparing participants for high-skill, high-wage, or high-demand jobs.
- Monitor and review data on the performance of CTE students compared to their non-CTE peers.
- Professional development will be designed for pre-service and practicing teacher and faculty education programs.

II.A.2.1

Requirement:

The IDE must describe the career and technical education activities to be assisted that are designed to meet or exceed the State adjusted levels of performance, including a description of—

- (1) How the IDE will report on the integration of coherent and rigorous content aligned with challenging academic standards in career and technical education programs in order to adequately evaluate the extent of such integration. [Sec. 122(c)(1)(A)-(L)]

Response:

The IDE will continue to align its implementation of Perkins IV with its efforts to implement NCLB legislation. During Perkins III, both programs defined a student as being academically proficient in the areas of math and reading if the student scored at the 41st percentile (national norms) or higher on the math and reading assessment components of the Iowa Tests of Educational Development (ITEDs). This alignment will continue with the implementation of Perkins IV. The IDE has the capability of tailoring reporting to identify student attainment in an individual program of study, as well as reporting at the consortium and career cluster level. The outcome of the student academic attainment measure will be evaluated at the state and the recipient levels.

II.A.3.a

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (a) Promotes the integration of coherent and rigorous academic content standards and career and technical education curricula, including through opportunities for academic and career and technical teachers to jointly develop and implement curricula and pedagogical strategies;

Response:

Iowa's delivery of professional development activities for career and technical teachers, as well as academic teachers and guidance and administrative personnel, will be a multi-pronged approach. State, regional and local levels will all be involved in delivering professional development activities.

State Level

The IDE will provide focused and comprehensive professional development programs including pre-service orientation for CTE teachers, faculty, administrators, and career guidance and academic counselors at the secondary and postsecondary levels that support activities described in the State plan. The professional development will be high quality, sustained, research-based, intensive, and classroom focused in order to have a positive and lasting impact on classroom instruction and the teacher's performance in the classroom. At the secondary level, the Iowa Professional Development Model currently used in the LEAs will be utilized. At the post-secondary level, community colleges could use a research-based model such as the Standards for Staff Development, Revised (2001), as adopted by the National Council for Staff, Program, and Organizational Development (NCSPOD), to meet this requirement.

Program Management Committees

Program management committees will be used at the state level to assist in identifying minimum competencies and core curricula content in each CTE program area. The work of the teams will include assisting in identifying professional development needs of the Iowa CTE system.

Membership on the program management committees will include appropriate stakeholders.

Professional development activities may include:

- Improving the academic and technical skills of career and technical education.
- Ensuring that all career and technical education students achieve the same academic proficiencies as the general student population.
- Developing, improving, or expanding the use of technology in career and technical education.
- Implementing Math-in-CTE as a joint academic and CTE professional development initiative.
- Using proven and evolving instructional strategies including using contextual and applied curricula and instruction, to deliver quality education, including contextual and applied curricula and instruction.
- Continually assessing the needs, expectations, and methods required by business and "all aspects of an industry," including addressing high-wage, high-skill, or high-demand occupations.

- Ensuring appropriate instruction and services for special populations that assist schools in meeting the state adjusted levels of performance.
- Designing appropriate instruction and services that result in the enrollment and completion of CTE programs by nontraditional students.
- Improving parental and community/stakeholder involvement, through the use of active advisory committees.
- Implementing tech prep and Iowa's defined career academy programs.
- Integrating career and technical student organizations as a significant part of the CTE Program curriculum.
- Providing career guidance services to assist students in gaining access to post secondary education.

Professional Development System Management

A comprehensive professional development system will be managed by the IDE Bureau of Community Colleges and Career and Technical Education, Division of Community Colleges and Workforce Preparation, at the IDE. Services will be provided/coordinated by IDE staff, and through presenters with appropriate credentials.

Regional and Local Staff Development

Because most of Iowa's eligible recipients will continue to be members of consortia, significant professional development occurs at a regional level. In addition, because Tech Prep allocations are awarded to each of the 15 community college areas of the state, staff development activities are delivered in each of those regions. Perkins applicants for Basic Grant funds and Tech Prep funds must address professional development in the required uses of funds.

Professional Development for IDE Staff

In order provide necessary technical assistance to Iowa's schools and colleges, additional professional development activities will be designed for IDE staff. Issues that may be addressed include:

- Core indicators and measurement of them.
- Technology updates.
- Adoption and implementation of industry skill standards.
- Linkage between career and technical education and the state-adopted Iowa Core Curriculum.
- Financial and audit related requirements.
- Services to special populations.

- Promotion of nontraditional occupations and gender equity.

State leadership and professional development will be provided to CTE programs to assist in the development and adoption of rigorous academic integration into CTE program curricula. The IDE Math-in-CTE initiative is one example of such a curriculum model structure.

II.A.3.b

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (b) Increases the percentage of teachers that meet teacher certification or licensing requirements;

Response:

Iowa's endorsement system meets the Federal requirement of "highly qualified teachers" as per No Child Left Behind (NCLB). The IDE is concerned about the teacher shortage in CTE areas. At the local level, schools and community colleges have the option of using federal funds to support teacher preparation based on local need. "Market Factor" funds have been made available from the Iowa Legislature to allow school districts to add a "market factor" to teacher salaries paid by the school district. The market factor salary incentives may include improving salaries due to geographic differences and subject area shortages.

The State of Iowa requires secondary school CTE teachers to meet qualifications as outlined in Chapter 272 of Iowa Administrative Rule.

The state of Iowa requires Community College CTE instructors to meet the minimum requirements as outlined in Iowa Code, section 260C.48, Subsection 1.

Iowa teacher shortage areas are designated annually by the IDE. Data used to calculate the shortages include the numbers of Class C and Class B teaching licenses issued, the number and frequency of job postings on *Teach Iowa* (the IDE statewide teacher recruitment web site), and the number of projected university graduates in each teaching discipline. New graduates in identified teacher shortage areas may be eligible for teacher loan repayment or college student forgivable loans through both state and federal programs.

The IDE provides a licensure program for individuals coming from industry and planning to teach in a secondary CTE program. The primary requirement for licensure in a program is 6,000 hours of hands-on work experience in the occupation in which the endorsement is being sought. Specifics for the licensure are outlined in the Requirements of Provisional Career and Technical Licensure developed by the Iowa Board of Educational Examiners.

The IDE will partner with secondary and post-secondary institutions to encourage student participation in Career and Technical Student Organizations (CTSOs). Participation in CTSOs not only provides the CTE student with an opportunity to gain leadership skills but also provides the CTE student with an

opportunity to explore and consider the possibility of teaching in a CTE area. Perkins state leadership funding will be allocated in support of CTSOs to assist with membership recruiting and processing, financial management and oversight, coordination of state officers' activities, conference planning and organizational activities.

Each community college is required to develop a Quality Faculty Plan process (Iowa Code Section 260C.36), which is reviewed in the accreditation process by the IDE (Iowa Code Section 260C.48). Community college CTE instructors employed half time or more must develop a professional development plan which meets the requirements of the college's Quality Faculty Plan as outlined in Chapter 21 Iowa Administrative Rule.

Professional development is a required State Leadership activity and an established State priority for the use of Perkins IV State Leadership and Title I, Part C funds. Professional development coordinated and/or conducted by the IDE is data-driven and sustainable.

Major initiatives include:

- i. Recruitment: Supporting efforts to recruit and prepare new CTE teachers, to mentor beginning CTE teachers, and to address the continuing and advanced degree needs of experienced teachers.
- ii. Retention: The IDE will provide guidance to ensure that new CTE teachers:
 - Are knowledgeable of current industry standards and are able to teach to the standards.
 - Are able to provide their students with an understanding of "all aspects of the industry."
 - Understand the importance of and are capable of developing coherent, required sequences of courses which prepare students for immediate employment and/or further education.
 - Are using current curriculum, information, and instructional methodologies—including contextual and work-based learning.
 - Understand the importance of developing student leadership skills through Career Technical Student Organizations (CTSOs).
 - Are aligning their courses and programs to core curriculum standards and framework.
 - Are utilizing and teaching current technology.
 - Are effectively integrating academic and CTE.
 - Understand the needs of and are recruiting and effectively serving students who are members of special populations in their courses and programs.

The IDE will continue to involve secondary career guidance and postsecondary student services counselors/advisers and site and district level administrators in pertinent professional development activities and apprise them of evolving CTE trends, career opportunities, successes in career and advanced education preparation, and discipline specific best practices.

II.A.3.c

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (c) Is high quality, sustained, intensive, and focused on instruction, and increases the academic knowledge and understanding of industry standards, as appropriate, of career and technical education teachers;

Response:

Local recipients will help career and technical teachers, faculty, administrators, and career guidance academic counselors to build knowledge and understanding of career clusters and industry standards through professional development workshops and activities delivered and coordinated with technical assistance and participation from IDE, AEAs, community colleges, business and industry representatives, and other stakeholders. The IDE will require local applications to include a description of their plan, following state guidelines established by the Iowa Professional Development Model and other accepted standards, such as those established by the National Council for Staff, Program, and Organizational Development (NCSPOD), an affiliate council of the American Association of Community Colleges (AACC). Professional development plans will address career clusters, industry standards, “all aspects of an industry,” and SCAN skills.

All Aspects of the Industry.

Professional development will be provided to ensure CTE instructors are aware of the career cluster information including the career cluster foundation knowledge and skills:

- Planning
- Management
- Finance
- Technical Skills
- Principles of Technology
- Labor Issues
- Community Issues

- Health and Safety
- Personal Work Habits

See II.A.3.a

II.A.3.d

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (d) Encourages applied learning that contributes to the academic and career and technical knowledge of the student;

Response:

The Division of Community Colleges and Workforce Preparation, Bureau of Community Colleges and Career & Technical Education in partnership with Pre-K-12 Education Division are moving forward with plans to implement a model to enhance the integration of math into Iowa's career and technical programs at the secondary and post secondary levels. The model was researched, developed, and studied by the National Research Center for Career and Technical Education (NRCCTE). The final report on the Math-in-CTE study is available at:

<http://www.nccte.org/publications/infosynthesis/r%26dreport/MathLearningFinalStudy.pdf>

The original model was limited to secondary school CTE program students. The implementation of the model in Iowa proposes to replicate the secondary model, and to expand the application of that model to community college CTE program students. Perkins IV requires rigorous academic integration into CTE programs.

Data reviews will be done to identify existing initiatives that focus on integrating language arts/reading and science into CTE curriculum.

The IDE will strongly encourage secondary and post-secondary institutions to support CTSOs and provide students the opportunity to apply what they are learning in a real world setting. Schools will be encouraged to extend incentives for teachers to become advisers of these beneficial student leadership organizations.

The IDE will continue to encourage AEAs, LEAs, and postsecondary institutions to provide educational opportunities for their teachers/instructors to learn more about current research-based initiatives in applied learning. Program management committees at the state level and advisory committees at the local level will be utilized to obtain input from CTE stakeholders.

II.A.3.e

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (e) Provides the knowledge and skills needed to work with and improve instruction for special populations; and

Response:

An IDE consultant is assigned at the state level to work specifically with special populations concerns and initiatives of both secondary and postsecondary recipients. Additionally, it is the responsibility of all Division of Community College and Workforce Preparation consultants to support the enhancement of services to serve special populations. Technical assistance provided by the IDE will include:

- Promoting equal access of special populations/non-traditional/at-risk and on promotion of nontraditional training and employment
- Providing professional development to teachers, administrators, counselors, and curriculum staff at LEAs and community colleges to address access and achievement of special population students
- Emphasizing articulation between secondary and postsecondary programs regarding the importance of assisting special population students to transition from secondary and postsecondary education.

II.A.3.f

Requirement:

The IDE must describe how comprehensive professional development (including initial teacher preparation and activities that support recruitment) for career and technical teachers, faculty, administrators, and career guidance and academic counselors will be provided, especially professional development that—

- (f) Promotes integration with professional development activities that the State carries out under Title II of the Elementary and Secondary Education Act of 1965, as amended, and Title II of the Higher Education Act of 1965, as amended. [Sec. 122(c)(2)(A)-(G)]

Response:

Career and technical secondary teachers, faculty, administrators, and career guidance and academic counselors preparation and professional development activities will follow the requirements stated in Iowa Code 256.7 Subsection 25.

Community colleges will continue to utilize Quality Faculty Plan requirements stated in Chapter 21, Iowa Administrative Rule, and from guidelines from the Higher Learning Commission of the North Central Association of Colleges and Schools.

II.A.4.a

Requirement:

The IDE must describe efforts that the agency and eligible recipients will make to improve—

- (a) the recruitment and retention of career and technical education teachers, faculty, and career guidance and academic counselors, including individuals in groups underrepresented in the teaching profession; and

Response:

Strategies will continue to be developed to form partnerships with communities; business, industry and labor; teacher training institutions; and professional organizations to recruit career and technical education teachers, faculty and career guidance and academic counselors. LEAs and community colleges will be encouraged to recruit individuals from special populations by targeting industry-related publications and publications designed for the diverse populations, for outreach and advertising of available positions.

II.A.4.b**Requirement:**

The IDE must describe efforts that the agency and eligible recipients will make to improve—

- (b) the transition to teaching from business and industry, including small business. [Sec. 122(c)(3)(A)-(B)]

Response:

The Iowa Board of Educational Examiners (BOEE) provides a licensure program for individuals coming from industry and planning to teach in a secondary CTE program. The primary requirement for licensure in a program is 6,000 hours of hands-on work experience in the occupation in which the endorsement is being sought. Specifics for the licensure are outlined in the Requirements of Provisional Career and Technical Licensure developed by the Iowa Board of Educational Examiners. There is also an alternative licensure process (Educational Internship Program), approved by the IDE and BOEE.

The IDE will continue to encourage Iowa's four-year colleges to offer programs for individuals seeking to complete requirements for alternative licensure to qualify for employment as secondary career and technical instructors.

The IDE will encourage community colleges statewide to provide training for new CTE instructors to become knowledgeable or to increase knowledge in teaching methods, skills, technology, student organizations, and other areas to assist the CTE instructors in making the transition from business and industry to teaching.

II.A.5**Requirement:**

The IDE must describe efforts that the agency and eligible recipients will make to improve the transition of sub-baccalaureate career and technical education students into baccalaureate degree programs at institutions of higher education. [Sec. 122(c)(4)]

Response:

The Liaison Advisory Committee on Transfer Students (LACTS) within Iowa plays an active role in facilitating transfer efforts between public institutions of higher education. Membership includes representatives from the Iowa Regents institutions (Iowa State University, the University of Iowa, and the University of Northern Iowa) and community colleges. Meetings involving stakeholders as well as IDE staff annually discuss transition and articulation issues and submit recommendations for improvement. This group will actively continue in this role. The IDE will continue to encourage exploration of the University of Iowa's Bachelor of Applied Studies (BAS) degree program (a capstone to the Associate of Applied Arts degree) with the state's Regent universities.

The LACTS group has completed initial recommendations on the Associate of Science transfer agreement. The committee will continue to focus on the transferability of the Associate of Science Degree with a career option in a specific career field and explore the potential for statewide agreements modeled after the present career and technical Electronics/Electronics-Based Technology Agreement. Such agreements can expand the transition avenues for community college career and technical education students to baccalaureate degree programs.

Many community college career and technical programs in Iowa also have articulation or transfer agreements with specific baccalaureate degree programs offered at other public and private institutions of higher education. Such agreements vary by community college and region within the state. These agreements are developed on a program-by-program basis and are routinely reviewed and updated.

In order to understand the scope and diversity of the above-mentioned agreements, the IDE will facilitate the following:

- Collect data on the number of career and technical students who transition between community college and baccalaureate programs using the National Student Data Clearinghouse data.
- Collaborate with Iowa Regent institutions in identifying transfer and transition issues.

Based upon this feedback, the Department will develop strategies to assist future career and technical students who desire to transition to baccalaureate degree programs. The DE has fostered the pre-engineering curriculum developed by Project Lead the Way (PLTW). In 2005-06 Iowa established eleven PLTW sites; this number grew to twenty-six in 2006-07. In 2007-08 Iowa is anticipating the number of PLTW to grow to sixty-one.

The Curriculum for Agricultural Science Education (CASE) Team is using a multifaceted approach in creating an agriculture science curriculum that includes two foundation level courses integrating science, math, and technology in the context of Agriculture, Food and Natural Resources (AFNR). The CASE team includes Iowa and 11 other states and is utilizing the assistance of the national Project Lead the Way curriculum staff. This established course work will articulate into baccalaureate programs.

II.A.6**Requirement:**

The IDE must describe how it will actively involve parents, academic and career and technical education teachers, administrators, faculty, career guidance and academic counselors, local business

(including small businesses), and labor organizations in the planning, development, implementation, and evaluation of career and technical education programs in Iowa. [Sec. 122(c)(5)]

Response:

At the K-12 level, significant input from parents, local businesses, educators, and labor is pursued within the state's School Improvement initiatives. The Comprehensive School Improvement Process (CSIP) includes an examination of the overall curricula including secondary career and technical programs. IDE staff will continue to offer assistance and resources to facilitate local advisory committee efforts.

Stakeholders representing various constituencies provide relevant input to frame the planning, development, implementation, and evaluation of career and technical education programs at multiple levels within Iowa.

At the state level, the Iowa Director of Education must approve all secondary and post-secondary career and technical education programs. This process requires input at the local level analyzing labor market needs and support, potential student interest and projected enrollments, projected salaries, and related requisite data framing program success prior to implementation.

Career and technical programs employ a variety of strategies to develop and maintain the relevant scope and sequence of a program of study. Such strategies include curriculum resources, the use of Developing a Curriculum (DACUM) workgroups, and competency or outcome surveys completed by local businesses and labor representatives.

As part of state accreditation guidelines, a minimum of 20% of postsecondary career and technical programs must be evaluated in-depth annually within the parameters of the program review and evaluation process. Annual reviews of select data elements are also conducted. Program improvement plans may be developed if such reviews recommend this phase. Such plans necessitate a greater engagement by local stakeholders including students and local employers. These processes help ensure program vitality, relevance, and student success.

Recipients of Perkins funds at both the secondary and post-secondary levels are required to meet with program advisory committees to seek input for program design and/or improvement at the local level. The IDE provides professional development activities and resources to strengthen the role and effectiveness of these groups.

II.A.7.a

Requirement:

The IDE must describe efforts that the agency and eligible recipients will make to—

- (a) Improve the academic and technical skills of students participating in career and technical education programs, including by strengthening the academic and career and technical components of career and technical education programs through the integration of academics with career and technical education to ensure learning in--

- i. The core academic subjects (as defined in section 9101 of the Elementary and Secondary Education Act of 1965, as amended); and
- ii. Career and technical education subjects;

Response:

State and local recipients continue to emphasize improvements in the performance of Iowa's career and technical students in both academic and technical skill disciplines.

The Division of Community Colleges and Workforce Preparation, Bureau of Community Colleges and Career and Technical Education in partnership with the Pre-K – 12 Education Division is implementing a model to enhance the integration of mathematics into Iowa's career and technical programs at the secondary and post-secondary levels. The model was researched, developed, and studied by the National Research Center for Career and Technical Education (NRCCTE).

In Summer 2008, the IDE will begin professional development to support the Math-in-CTE initiative. Educators and learning communities of CTE and math partner instructors will continue to discuss and plan how to facilitate the diffusion of this initiative. Representatives from area education agencies, community colleges, and math and CTE faculty from secondary and postsecondary institutions will prepare for the implementation of this model.

At the secondary level, local funds may be targeted to identify and address processes to integrate academic and career and technical education to improve student performance. As noted earlier, all secondary career and technical programs in Iowa are part of comprehensive high schools. CTE students are expected to meet the same academic core requirements for graduation as general studies students. The Perkins performance measure for the secondary core indicator on academic skill attainment will use the state level database that reports the academic achievement of 11th grade students in reading/language arts and math derived from nationally normed assessments. The Perkins performance measure for the secondary core indicator of technical skills attainment will use data derived from local assessments and reported on the state database.

Where deficiencies exist, local plans will identify specific strategies designed to improve student performance in that arena.

The current Perkins IV Plan was developed with the intention to align, as closely as possible, with the state's accountability provisions under Chapter 12 of the Iowa Administrative Code (281—IAC 12). Additionally, as the accountability provisions of the No Child Left Behind Act of 2001 support the development of an "action plan" for agencies to implement in order to ameliorate deficiencies, Iowa's proposed Perkins IV Plan requires agencies that do not meet targets to develop an "approvable" plan, which, upon approval by the Iowa DE, Perkins funds will be released to the fiscal agents.

The evaluation and accountability of Perkins IV is described in Section II.A.2.f of this plan and is based on a continuous improvement model.

At the post-secondary level, career and technical programs of study evaluate academic and technical skill achievement levels within the parameters of locally developed outcomes/competency-based

assessment plans. Career and technical programs of study leading to a state-approved Associate of Applied Science, Associate of Science/Career Option/college parallel programs, diploma or certificate award must include the general education academic course requirements as well as technical course requirements outlined within the IDE's general education core requirements as listed in the Guidelines for Program Awards in Iowa Community Colleges.

Local performance on technical skill and credential, certificate, or degree attainment at the post-secondary level will be reported. Local program administrators will work with academic and career and technical faculty to identify any deficiencies in performance and plan strategies to improve integration and subsequent student performance in deficit areas. Strategies will also target general continuous improvement in academic and technical performance in accordance with state adjusted targets.

II.A.7.b

Requirement:

The IDE must describe efforts that the agency and eligible recipients will make to—

(b) Provide students with strong experience in, and understanding of, all aspects of an industry; and

Response:

The DE will continue to provide resources and professional development activities to local districts that are designed to increase student understanding of all aspects of an industry. Appropriate state-wide professional development activities and technical assistance will continue to be designed and delivered to support local efforts. Evaluative feedback shall provide input to improve and/or expand activities and suggest new or emerging topics to consider for future professional development and technical assistance.

Eligible recipients will be required to explain in detail the efforts and resources it expends to provide students with a comprehensive understanding and experience in all aspects of an industry. Local plans at the secondary and post-secondary levels will be required to describe resources to be used and provided, assessments to be conducted, data to be evaluated, and measures to be used to evaluate students' understanding of all aspects of an industry. Local schools will assess the effectiveness of their efforts, and will plan and adopt new strategies, as necessary.

II.A.7.c

Requirement:

The IDE must describe efforts that it and eligible recipients will make to—

(c) Ensure that students who participate in career and technical education programs are taught to the same challenging academic proficiencies as taught to all other students. [Sec. 122(c)(7)(A)-(C)]

Response:

Each eligible secondary and post-secondary recipient is asked to ensure that all career and technical education students are held accountable to the same challenging academic proficiencies as are taught to other students. A statement to this effect is included in the Assurances/Agreement Section of the local plan that each eligible recipient must sign.

Career and technical programs at the secondary level are part of comprehensive high schools. Career and technical students have the same core academic graduation requirements as general studies students. CTE students at the post-secondary level enroll in the same general education courses designed for general studies students and must complete the general education requirements in order to graduate with a credit certificate, diploma or associate degree.

In conjunction with this requirement, each secondary program receiving Perkins assistance will be required to report its status relative to academic attainment. At the post-secondary level, programs receiving Perkins assistance will be required to report its status relative to certificate, diploma or degree attainment.

II.A.8

Requirement:

The IDE must describe how it will provide local educational agencies, area career and technical education schools, and eligible institutions in the State with technical assistance. [Sec. 122(c)(15)]

Response:

The Division of Community Colleges and Workforce Preparation has the responsibility for providing technical assistance to recipients of federal funds for CTE. As designated by the State Board of Education and the director, the Division will administer the Perkins grant, monitor its requirements, assist in policy development, leadership, and provide technical assistance to promote the development of services and activities that integrate rigorous and challenging academic and career and technical instruction and that link secondary and postsecondary education for participating career and technical education students.

In administering the Perkins IV grant, Division consultants are assigned to specific regions and work with all secondary schools, consortia, and community college recipients in those regions. Consultants routinely provide technical assistance for the implementation of the grant.

In providing technical assistance under Perkins IV, the Division will:

- i. Assist local districts in aligning CTE with the state core indicators under the school improvement initiative.
- ii. Assist eligible recipients in implementing and reporting on the requirements of Perkins IV.
- iii. Work to develop and implement an up-to-date data and management information system to assure accurate aggregate data and analysis.
- iv. Support school improvement activities linked to CTE.
- v. Provide leadership and technical assistance to support the integration of academics into CTE programs.

- vi. Assess, plan, implement and evaluate statewide and Division-supported professional development.
- vii. Establish partnerships with local education agencies (LEAs) institutions of higher education, adult education providers, and other entities such as employers, labor organizations, intermediaries, and parents.
- viii. Provide support for leadership, initial teacher preparation, and professional development focused on improving the quality of CTE personnel.
- ix. Identify areas of economic development, emerging and targeted industries, and those that support these industries that relate to the development of new career and technical education programs
- x. Analyze career and technical education program data on how the needs of special populations are being met and how the career and technical education programs are designed to enable special populations. This analysis will be used to meet State adjusted levels of performance. The analysis will track special populations for further education, further training, or for high skill, high wage, or high demand occupations.
- xi. Continue to provide support and incentives for technology enhancement and training in CTE programs across the state.
- xii. Continue to provide technical assistance that will serve individuals in State institutions, such as State correctional institutions and institutions that serve individuals with disabilities.

II.A.9

Requirement:

The IDE must describe how career and technical education in Iowa relates to state and regional occupational opportunities. [Sec. 122(c)(16)]

Response:

The merging trends of new technologies, global competitiveness, economic development needs, and the emergence of new occupational opportunities are resulting in an increased emphasis on assuring that career and technical education in Iowa relates to high-skill, high-wage, or high-demand occupations. The state has identified three targeted industries: advanced manufacturing, biosciences, and information solutions/financial services. The IDED-sponsored Battelle studies and the recent legislative Skilled Worker Shortage Study Committee and the Governor's Workforce Summit all highlight the skills gaps of the existing and projected Iowa workforce and the criticality of implementing career and technical programs matched to the economic and workforce needs of the state and nation. The continual examination of emerging careers and their necessary skill sets will be a focus of program improvement teams.

IWD is the state's principal data source utilized to determine occupational needs; regionally, employer surveys and environmental scanning techniques are used to supplement these state data sources. The principal sources of state and regional occupations opportunities are:

- Occupational Employment Statistics: This program conducts a semi-annual survey designed to produce estimates of employment and wages for specific occupations. The OES program collects data on wage and salary workers in non-farm establishments in order to produce employment and wage estimates for about 800 occupations. The OES program produces these estimates by geographic area and by industry. Estimates are created for the State, Metropolitan Statistical Areas, and four areas of the state. An overview of the program can be found at http://www.bls.gov/oes/oes_emp.htm#overview
- Iowa Wage Survey: These estimates are created using the data collected from the Occupational Employment Statistics Survey and aged to a more recent time period using the employment cost index. Estimates for additional geographic areas are created for employment and wages for occupations where sufficient data are available. Iowa creates estimates for the State, Metropolitan Statistical Areas, balance of state, IWD Regions, two digit industries and counties. Additional information for the Iowa Wage Survey can be found at <http://www.iowaworkforce.org/lmi/occupations/wages/surveyinformation.htm>.
- Occupational projections: The long-term occupational projections are produced every two years for a ten-year period. The programs two major inputs are the industry employment projections and the OES data. The industry employment projections provide information on non-farm employment, self-employed, agriculture, railroads and students. The OES data provides staffing pattern for the industries. The inputs are then processed using a software system and the outcome produces detailed occupational data such as employment levels, annual growth, and annual openings for the State of Iowa and 15 IWD Regions. New for the 2004-2014 occupational projections was the inclusion of information on wages, education/training levels and skills. The information retrieved from the occupational programs assists individuals in making informed career decisions. The national projections for 2006-2016 were recently released. However, state projections lag the national projections by several months. More information about the projections program is available at <http://www.bls.gov/emp/home.htm> IWD's labor market information network displays occupational and industry projections for 2004-2014, the website is <http://iwin.iowaworkforce.org> The 2004-2014 occupation projections were also used in the development of the Iowa Career Resource Guide The 2006-16 industry and occupational projections be available during the summer of 2008

II.A.10

Requirement:

The IDE must describe the methods it proposes for the joint planning and coordination of programs carried out under this legislation with other Federal education programs. [Sec. 122(c)(17)]

Response:

The IDE currently submits a Consolidated Plan for the Elementary and Secondary Education Act as authorized by Title I of the No Child Left Behind Act (NCLB). While the plan does not include the Carl D. Perkins Act providing funds for career and technical education, the development of the plan included participation of the Bureau of Community Colleges and Career and Technical Education. Part of the planning process included identifying the purposes of each piece of federal education legislation,

developing a matrix showing the common areas of emphasis, and identifying how funds could be used to support common goals.

In the development of the State Plan for Perkins IV, staff members working with other federal education programs provided input including special education and homeless education. Wherever possible, the State Plan and local plans will address the needs of students served under the various federal education programs.

Current joint planning and coordination between federal career and technical education and programs funded under NCLB occurs regularly.

Additionally, IWD and the IDE have signed an interagency memorandum of understanding (MOU) regarding cross agency access and the development of a linked data system of educational training and retraining program participants and the state's unemployment insurance records for purposes of program evaluation and accountability. IWD is committed to seeking agreements with neighboring states, as well as the federal employees' data system so that job placement and retention may be more completely and accurately measured. If the effort is unsuccessful, the IDE may explore the use community college-conducted surveys of program leavers.

II.A.11

Requirement:

The IDE must describe the procedures it will develop to ensure coordination and non-duplication among programs listed in sections 112(b)(8) and 121(c) of the Workforce Investment Act (Public Law 105-220) concerning the provision of services for postsecondary students and school dropouts. [Sec. 122(c)(20)]

Response:

The State of Iowa has a long history of collaboration among state agencies regarding workforce development issues. This dates back to 1987 when Governor Terry Branstad established a Welfare Reform Council for the purposes of eliminating unnecessary duplication of services in the employment and training programs serving welfare recipients. Ultimately this initiative expanded to identify how all workforce development and related programs could best be coordinated.

Coordination across state agencies continued during the Governorship of Tom Vilsack with the State Enterprise Planning Initiative, and it continues with Governor Chet Culver. The state agencies engage in total enterprise planning, with initiatives driven by a common set of goals.

During Perkins III, IWD and the IDE utilized an outcomes matrix, which identified common program outcomes. During the 2006 Iowa legislative session, state funding was appropriated to IWD to develop an educational outcomes system linking IDE and IWD data sources. It is anticipated that as WIA is reauthorized, that the state agencies will work toward a common set of outcomes where appropriate.

Examples of cooperation across state agencies are most notable in the provision of career information and planning resource jointly developed by the IDE and IWD. Efforts to increase career awareness amongst students and parents are a priority of IDE, IDED, and IWD. IDED and the IDE are working

jointly in the expansion of Project Lead The Way (PLTW) amongst Iowa's high schools and an advanced manufacturing demonstration project. These types of cooperative cross-agency initiatives will grow during implementation of the Perkins IV plan.

II.B Other Department Requirements

II.B.1

Requirement:

The IDE must submit a copy of the State's local applications or plans for secondary and postsecondary eligible recipients, which will meet the requirements in section 134(b) of the Act.

Response:

Refer to Appendix B for the local application and instructions.

II.B.2

Requirement:

The IDE must provide a description of the State's governance structure for career and technical education, including the approximate number of eligible recipients at both secondary and postsecondary levels.

Response:

Iowa's Education System

The State Board of Education, established by Iowa Code section 256.1 and appointed by the Governor, has the responsibility in the State of Iowa to establish policy and adopt accreditation rules for the operation of Iowa schools, area education agencies, and community colleges. In this role, the State Board of Education has responsibility for K-12 school districts, area education agencies, and community colleges serving students in credit courses and adult and continuing education students in noncredit courses. Additionally the Iowa State Board of Education constitutes the state board for career and technical education (IA Code 285.2)

The IDE is charged with carrying out the policies of the State by administering the education laws passed by the Iowa General Assembly and Congress. Another role of the Department is to provide leadership to local school districts, area education agencies, and community colleges that goes beyond the regulatory function of compliance with state or federal statutes or rules. That leadership is focused on the State Board of Education's stated goal for education in Iowa:

- All children will enter school ready to learn.
- All K-12 students will achieve at a high level.
- Individuals will pursue postsecondary education in order to drive economic success.

The state is divided into education regions. In each region, area education agencies (AEAs) provide a basic core of services to K-12 districts, with some variations depending on the needs of the schools and

students each serves. Funds for AEAs come from a combination of direct state aid, local property taxes, and various grants. The AEAs provide: special education, media services and educational services. The board members are elected by and represent local district school boards of education. This system maintains the Iowa philosophy of local control through a structure that closely parallels that of local schools.

Boundaries of the AEAs were established to be coterminous with the boundaries of the merged area schools in 1974. Today, several AEAs have consolidated while the community college boundaries have remained reasonably stable since their creation. The community colleges of Iowa operate numerous campuses and instructional centers. These public postsecondary two-year institutions are organized as comprehensive community colleges. Each community college has a locally-elected board of directors and serves a multi-county merged area, which may vary in size from four to twelve counties. All Iowans of postsecondary school age are eligible to attend any of the community colleges.

The Division of Community Colleges and Workforce Preparation is responsible for coordinating statewide efforts to fulfill the community colleges of Iowa's commitment to access, quality, and responsiveness. The Division does this through numerous partnerships among the community colleges, high schools, public and private four-year colleges, business, and labor. The Division is also responsible for adult education programs, coordinates secondary and postsecondary career education, and supervises veterans' and military education for postsecondary institutions.

One of the major responsibilities of the Division is career and technical education in Iowa. Programs and services provided by this Division include assistance with effective practices, program approval, technical assistance, funding, and career and technical student organizations. Educational consultants have responsibilities for state identified CTE service areas, as well as entrepreneurship, academics, articulation, cooperative education, corrections, gender equity, guidance and counseling, labor market materials, program evaluation, regional planning, Tech Prep, and special populations.

Career and technical student organizations include: Business Professionals of America (BPA); DECA; Delta Epsilon Chi; Future Business Leaders of America (FBLA); Family, Career, and Community Leaders of America (FCCLA); Iowa Association of FFA; Health Occupations Students of America (HOSA); Phi Beta Lambda (PBL); Postsecondary Agriculture Students (PAS); Iowa Association of SkillsUSA; and Technology Student Association (TSA).

Within the IDE, linkages have been built between academic and career education through the development of a career pathways framework organized around six broad career areas. This serves as a model or tool for local school improvement and ensures all students have the opportunity to explore careers. In preparation for the development of the Perkins IV, a third party assessment of the structure of Iowa CTE, Iowa Code and Administrative Rule requirements, policies, and practices was conducted by Hans Meeder, Consulting: *Reengineering CTE in Iowa—Aligning Career and Technical Education with Education Reform, Workforce Development and Economic Development*. The recommendations were received as the Perkins IV Stakeholders group was convened; the recommendations will continue to be reviewed for system and program improvement during the Perkins IV plan implementation.

The development of the Perkins IV State Plan is a responsibility of the IDE, Division of Community Colleges and Workforce Preparation.

The approximate number of recipients is 31 LEAs, 50 consortia of LEAs, and 15 community colleges.

II.B.3

Requirement:

The IDE must provide a description of the role of postsecondary career and technical education in the one-stop career center delivery system established by Title I of WIA.

Response:

Iowa's community colleges have become the core of Iowa's workforce development delivery system in all regions of the state. The U.S. Government Accountability Office (GAO) visited Iowa in the summer of 2007 to study the strong role community colleges play in the state's one-stop workforce development delivery system.

Most of the state's workforce development regions are aligned with community college service delivery areas which enhance the coordination of education, job training and workforce development programs within regions.

Eleven community colleges are the administrative entities for Iowa's federal Workforce Investment Act and Promise Jobs programs and all 15 community colleges are core partners in regional workforce development delivery systems.

Adult basic education and skill training are essential in moving the state's unemployed, underemployed and displaced workers up the career ladder to higher skilled and higher paying jobs. Community colleges are the primary gateway for those Iowans; they will be essential in helping meet the looming skilled worker shortage.

III. PROVISION OF SERVICES FOR SPECIAL POPULATIONS

A. Statutory Requirements

III.A.1.a

Requirement:

The IDE must describe the State's program strategies for special populations listed in Section 3(29) of the Act, including a description of how individuals who are members of the special populations—

(a) Will be provided with equal access to activities assisted under the Act.

Response:

Secondary and community college staff will be supported in their efforts to provide equal access to their activities to special populations under the Act, including:

- Continue assignment of an IDE consultant to work with both secondary and postsecondary recipients regarding equal access of special populations/non-traditional/at-risk and on promotion of nontraditional training and employment.
- Continue the Special populations/non-traditional/at-risk Leadership Team that includes representatives from community colleges across the state, K-12, AEAs, higher education, corrections, vocational rehabilitation, vocational services, business and industry, workforce and economic development, human services, and related agencies. Participants have an interest in special population students and provide guidance, input, and support for statewide equity efforts to ensure equal access to nontraditional employment, training, and programs.
- Continue to collect data to evaluate access and achievement of the special population students.
- Continue to provide technical assistance and professional development to teachers, administrators, counselors, and curriculum staff at LEAs and community colleges to address access and achievement of special population students.
- Continue to convene community college equity and special population coordinators on a regular basis so there is sharing regarding successful strategies for serving special population students.
- Continue to emphasize articulation between secondary and postsecondary programs regarding the importance of assisting special population students to transition from secondary and postsecondary education.
- Continue the Community College Diversity Seminar to promote professional development efforts focusing on nontraditional training, equal access, inclusiveness strategies for male and female students in nontraditional careers, and of special population students to employment.
- Continue to support and promote the content of the *Diversity Iowa Website*, a resource for Iowa educators from kindergarten to postsecondary school in their efforts to recognize and reflect diversity in their classrooms. Compile a database of resources to provide students with a

welcoming, supportive, and effective learning environment. Highlight secondary and postsecondary best practices in diversity efforts; provide technical assistance in efforts to promote nontraditional occupations.

- Continue to provide information to secondary guidance counselors and teachers, community college student services personnel and faculty, and other individuals regarding the value of nontraditional occupations and strategies to promote them with students and parents at the local level, including media promotion of nontraditional employment. Maintain an inclusive learning environment by demonstrating effective strategies to remove barriers to equity in non-traditional careers.
- Continue to provide \$100,000 from the State Leadership Fund to serve individuals in the state correctional institutions, both those serving youth and those serving adults. The funds available will be utilized to provide services to individuals who choose to enroll in CTE programs.

III.A.1.b

Requirement:

The IDE must describe the State's program strategies for special populations listed in Section 3(29) of the Act, including a description of how individuals who are members of the special populations—

- (b) Will not be discriminated against on the basis of their status as members of special populations; and

Response:

The IDE and the recipients will not discriminate against special population students on the basis of their status as members of special populations/non-traditional/at-risk.

- Local applicants will be required to sign an assurance that they will not discriminate and must also provide information regarding how equal access will be achieved. Technical assistance will be provided to assist in promoting nondiscrimination.
- Professional development initiatives will assist in the identification and development of strategies to ensure nondiscrimination.
- Regularly scheduled community college accreditation visits, community college and school equity visits, the comprehensive school improvement process, and Perkins monitoring visits provide monitoring of discriminatory practices and resolution.
- A complaint review process is in place to address concerns related to discrimination.

III.A.1.c

Requirement:

The IDE must describe the State's program strategies for special populations listed in Section 3(29) of the Act, including a description of how individuals who are members of the special populations—

- (c) Will be provided with programs designed to enable the special populations to meet or exceed State adjusted levels of performance, and how the IDE will prepare special populations for further learning and for high-skill, high-wage, or high-demand occupations. [Sec. 122(c)(9)(A)-(C)]

Response:

The recipients will provide programs designed to enable the special population students to meet or exceed state adjusted levels of performance and to prepare special populations/non-traditional/at-risk for further learning and for high-skill, high-wage, or high-demand occupations. [Section 122(c)(9)(A)-(C)]

- Funding may be provided for community colleges to develop strategies for special populations that persist to graduation and lead to high skill, high wage, or high demand occupations. Program development will incorporate existing effective practices such as career development workshops, mentoring and tutoring services, engineering camps, and industry tours. Partnerships with local LEAs will include detailed metrics to measure program impact and outcomes. Matched local funding may be required.
- Recipients will clarify in the local application how they will be accountable for the performance of special population students. Eligible recipients must develop an improvement plan if they fail to meet the adjusted state levels of performance, including those for special populations.
- The application will require recipients to describe how programs will be designed to assist special populations to meet or exceed the performance levels. IDE staff may assist in the design of data driven, ongoing, and sustainable professional development related to assisting special population students in order to provide technical assistance to eligible recipients.
- Eligible recipients will be required to describe within their application the promotion of nontraditional occupations.

III.A.2

Requirement:

The IDE must describe how it will adequately address the needs of students in alternative education programs, if Iowa has such programs. [Sec. 122(c)(14)]

Response:

The local application guidelines will include information regarding the manner in which students in alternative education schools/programs may be served. Alternative education schools/programs include programs developed by secondary districts, consortia of schools, or in conjunction with community colleges designed to meet the needs of students not successfully participating in the traditional education delivery system.

Eligible recipients will address the needs of students in alternative education schools/programs, including the provision of career and technical education programs, guidance and counseling and support services.

III.A.3

Requirement:

The IDE must describe how funds will be used to promote preparation for high-skill, high-wage, or high-demand occupations and non-traditional fields. [Sec. 122(c)(18)]

Response:

Local recipients will describe how funds may be utilized to promote preparation for high-skill, high-wage or high-demand occupations and nontraditional fields for special population students.

To assist local recipients, the IDE will:

- Continue to disseminate information on best practices and resources for recruiting, enrolling, retaining, and graduating all students in career areas nontraditional for their gender, students from underrepresented racial/ethnic groups and students with disabilities.
- Continue to provide ongoing equity-related technical assistance to community colleges and IDE staff to encourage the systemic integration of strategies in the recruitment, retention, and preparation of students in high wage, high demand occupations in nontraditional fields.
- Continue to collaborate with state agencies, workforce development, educational institutions, and business and industry to promote programs that provide a seamless pathway for students entering nontraditional careers including Iowa's targeted industries (currently advanced manufacturing, biosciences, and information solutions/financial services).
- Continue to provide professional development workshops on skill assessments, educational delivery, training, and career counseling in high growth and nontraditional careers.

III.A.4

Requirement:

The IDE must describe how funds will be used to serve individuals in State correctional institutions. [Sec. 122(c)(19)]

Response:

The IDE will provide \$100,000 of the State Leadership Fund to serve individuals in state correctional facilities, both those serving youth and those serving adults. The funds available will be utilized to provide services to individuals who choose to enroll in vocational and technical programs as described in Section 2 of the Perkins Act. Funding amount will be determined yearly.

State correctional institutions seeking the use of funds will submit an application responding to the requirements of the Perkins Act on a correctional facility application form. Allocation of the available funds will be based on each eligible correctional institution's relative portion of contact hours for students in career and technical programs. Each institution will then complete an individual application.

III.A.5

Requirement:

The IDE must describe how it will require each applicant for funds to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs as contained in section 427(b) of the General Education Provisions Act as amended.

Response:

Recipients will develop an action plan to ensure equitable access, to promote participation, and to remove barriers to special needs participants.

IV. ACCOUNTABILITY AND EVALUATION

A. Statutory Requirements

IV.A.1

Requirement:

The IDE must describe procedures it will use to obtain input from eligible recipients in establishing measurement definitions and approaches for the core indicators of performance for career and technical education students at the secondary and postsecondary levels, as well as for any other additional indicators of performance identified by the eligible agency. [Sec. 113(b)(1)(A)-(B), sec. 113(b)(2)(A)-(C)]

Response:

The IDE convened a work team of the Perkins IV Stakeholders Committee to address the proposed measurement definitions and approaches for the core indicators of performance for career and technical education students at the secondary and postsecondary levels. The work team was composed of career and technical education practitioners and data reporting officers from eligible recipients at both the secondary and postsecondary levels, staff from the Division of Community Colleges and Workforce Preparation as well as IDE personnel that have assignments addressing performance indicators in other federal programs administered by the Department. The IDE shall maintain an internal data quality work team to monitor and improve data reporting quality, validity and reliability.

Iowa Code requires career and technical programs be competency-based and that minimum competencies be identified at the state level. The process for developing competencies is established by sub-rule 281.46.7 (1) in the Iowa Administrative Code. Local school districts and community colleges may elect to develop competencies in lieu of the state minimum competencies. A school district is provided the option of utilizing minimum competencies developed through a structured group interview process, involving a technical committee composed of incumbent workers within an occupational cluster of a service area. The law further requires the competencies be revalidated periodically. Iowa Code, Chapter 258.4(8) also requires the program sequence address the following: new and emerging technologies; job-seeking, job-keeping, and other employment skills including self-employment and entrepreneurial skills that reflect current industry standards, leadership skills, entrepreneurial, and labor-market needs; and the strengthening of basic academic skills. Perkins also required programs eligible for federal funds include competency-based instruction, applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupational-specific skills of an individual. Another major legislative initiative has further shaped the model framework. School improvement focuses upon district identified and adopted standards and benchmarks. The process of State Accreditation of Community Colleges is utilized in the review of CTE programs, as well as a CTE program approval process for all new CTE programs proposed by the community colleges across the state.

IV.A.2

Requirement:

The IDE must describe the procedures it will use to obtain input from eligible recipients in establishing a State adjusted level of performance for each of the core indicators of performance for career and

technical education students at the secondary and postsecondary levels, as well as State levels of performance for any additional indicators of performance identified by the eligible agency. [Sec. 122(c)(10)(A), sec. 113(b)(3)(B)]

Response:

Data needed for the core indicators will be collected electronically by the State for both the secondary and postsecondary levels from the eligible recipients through the current data collection systems. Current performance levels for the indicators including those tied with ESEA performance (1S1, 1S2 and 4S1) are available through the state's Secondary Data collection system Project EASIER (Electronic Access System for Iowa Education Records). For the purposes of the adjusted levels of performance, the State will use the most recent aggregated eligible recipient data to determine a state baseline and project improvement for these levels.

The IDE's Project EASIER and Project EASIER Plus CTE are initiatives involved in the transfer of individual student records, which include data on CTE programs. The mission of the projects is to reduce data burden, encourage better decision-making by establishing and maintaining a cost effective method of accessing and transferring accurate and timely education information among school districts, postsecondary institutions and the IDE.

The IDE's MIS for community colleges is utilized to collect postsecondary student enrollment and demographic information. This information is augmented by supplemental student performance information collected via Project Easier Plus CTE for community colleges. The IDE will explore modification of the community college MIS system to incorporate data elements currently collected via Project Easier Plus CTE.

IV.A.3

Requirement:

The IDE must identify, on the forms in Part C of this guide, the valid and reliable measurement definitions and approaches that it will use for each of the core indicators of performance for career and technical education students at the secondary and postsecondary/adult levels, as well as any additional indicators of performance identified by the eligible agency, that are valid and reliable. The IDE must describe how the proposed definitions and measures are valid and reliable. [Sec. 113(b)(2)(A)-(B)]

Section 113(b) of the Act describes the measures that Iowa must use for student attainment of challenging academic content standards and student academic achievement standards in reading/language arts and mathematics (1S1 and 1S2, respectively) and student graduation rates (4S1). Based on its non-regulatory guidance, the USDE has pre-populated the measurement definitions on the Final Agreed Upon Performance Levels (FAUPL) form. The IDE does not need to describe how these definitions and measures are valid and reliable in the State plan narrative. If Iowa chooses to propose other student definitions and measurement approaches in its new State plan, it would have to describe how its proposed definitions and measures would be valid and reliable. (The U.S. Secretary of Education is considering whether to issue regulations requiring states to agree to use the student definitions and measurement approaches for the core indicators of performance for academic attainment in reading/language arts and mathematics and graduation rates as contained in the guidance document. If the Secretary decides to regulate on these issues and adopts final rules, states may be required to amend their State plans.

Response:

See Part C: Accountability Forms

Iowa will use units as a valid and reliable measure at the secondary level to compare programs due to the statewide definition in Iowa Administrative Code 281 12.5(14):

“Unit. A unit is a course which meets one of the following criteria: it is taught for at least 200 minutes per week for 36 weeks; it is taught for the equivalent of 120 hours of instruction; or it is an equated requirement as a part of an innovative program filed as prescribed in rule 12.9(256). A fractional unit shall be calculated in a manner consistent with this subrule. Multiple–section courses taught at the same time in a single classroom situation by one teacher do not meet this unit definition for the assignment of a unit of credit. However, the third and fourth years of a foreign language may be taught at the same time by one teacher in a single classroom situation each yielding a unit of credit.”

Iowa will use credits as a valid and reliable measure at the community college level to compare programs; a statewide definition is in Iowa Administrative Code 281 21.2(13).

IV.A.4

Requirement:

The IDE must describe how, in the course of developing core indicators of performance and additional indicators of performance, it will align the indicators, to the greatest extent possible, so that information substantially similar to that gathered for other State and Federal programs, or for any other purpose, is used to meet the Act’s accountability requirements. [Sec. 113(b)(2)(F)]

Response:

Since the Office of Vocational and Adult Education (OVAE) opted to continue to utilize the Consolidated Annual Report (CAR) format to collect student attainment data from each state, Iowa will continue to align its implementation of Perkins IV with its efforts to implement ESEA legislation. Throughout the life of Perkins III, both programs defined a student as being academically proficient in the areas of math and reading if they scored at the 41st percentile (national norms) or higher on the math and reading assessment components of the Iowa Test of Educational Development. This alignment will continue into the implementation of Perkins IV. Iowa has the capability of tailoring its reporting to identify the student attainment in an individual program of study, as well as reporting on the consortium and career cluster levels. The outcome of the student academic attainment measures will be evaluated on the state and recipient levels.

Per the description in item #1 the Department convened a subcommittee of the Perkins IV Stakeholders Committee to address the proposed measurement definitions and approaches for the core indicators of performance for career and technical education students at the secondary and postsecondary levels.

The subcommittee was composed of career and technical education practitioners from eligible recipients at the secondary and postsecondary levels, as well as IDE and personnel that have assignments addressing performance indicators in other federal programs administered by the Division

of Community Colleges and Workforce Preparation within the IDE. This work team was given the charge of aligning performance indicators of other State and Federal programs to the greatest extent possible.

IV.A.5

Requirement:

On the forms provided in Part C of this guide, the IDE must provide, for the first two years covered by the State plan (July 1, 2007 – June 30, 2008 and July 1, 2008 – June 30, 2009), performance levels for each of the core indicators of performance, except that States submitting one-year transition plans are only required to submit performance levels for part of the indicators as discussed above. For performance levels that are required, the States' performance levels, at a minimum, must be expressed in a percentage or numerical form, so as to be objective, quantifiable, and measurable; and require the State to continually make progress toward improving the performance of career and technical education students. [Sec. 113(b)(3)(A)(i)-(II)]

Section 113(b)(2) of the Perkins Act requires a State to develop valid and reliable core indicators of performance, to propose performance levels in its State plan, and to reach agreement with the Department on "adjusted performance levels" for each of the core indicators. In so doing, the Perkins Act prescribes the measures that a State must use for some of the core indicators.

- a. Section 113(b)(2)(A)(i) of the Perkins Act requires a State to measure career and technical education students' attainment of "challenging academic content standards" and "student academic achievement standards" that a State adopted pursuant to section 1111(b)(1) of the ESEA. The Perkins Act further requires a State use its State's academic assessments (i.e. the State's reading/language arts and mathematics tests) implemented under section 1111(b)(3) of the ESEA to measure career and technical education students' attainment of these State standards. Thus, a State's core indicators must include career and technical education students' proficiency in reading/language arts and mathematics as measured under 1111(b)(1) and (3) of the ESEA. Accordingly, under the Perkins Act, a State must report the number or percent of its career and technical education students who score at the proficient level or above on the State's assessments in reading/language arts and mathematics administered under the ESEA to measure the academic proficiency of secondary career and technical education students against the ESEA standards.

To measure attainment of these standards, a State must develop and reach agreement with the Department on "adjusted performance levels," which constitute the State's performance targets for a program year. Permissible targets (i.e. "adjusted performance levels") would be a State's "annual measurable objectives" (AMOs) from its State's ESEA accountability workbook. (To ensure that a State's schools are making "adequate yearly progress" (AYP) as required under section 1111(b)(2)(A) of the ESEA, section 1111(b)(2)(G) of the ESEA requires a State to establish Statewide AMOs, which identify a single minimum percentage of students who are required to meet or exceed the proficient level on the State's academic assessments each year.) Under the Perkins Act, a State may propose different performance levels (targets) instead of its AMOs as discussed below.

- b. Section 113(b)(2)(A)(iv) of the Perkins Act requires a State to identify a core indicator to measure for its career and technical education students at the secondary level “student graduation rates (as described in section 1111 (b)(2)(C)(vi) of the [ESEA]).” Thus, a State must report the number or percent of its career and technical education students whom the State includes as graduated in its graduation rate described under the ESEA. To ensure that a State’s schools are making AYP as required under section 1111(b)(2)(A) of the ESEA, some States have established Statewide targets for graduation rates under section 1111(b)(2)(C)(vi), and others States have defined AYP only to require improvement in the graduation rate each year.

The Department strongly encourages Iowa to reach agreement on “adjusted performance levels” required under section 113 of the Perkins Act for the core indicators discussed in (a) and (b) above that are the same as Iowa’s AMOs or targets that Iowa adopted to ensure that Iowa’s schools are making AYP as required under section 1111(b)(2) of the ESEA. However, as noted above, Iowa may not have established targets for graduation rates under the ESEA, or Iowa may wish to propose performance levels for these core indicators that are different from Iowa’s targets. If so, Iowa must provide baseline data using Iowa’s most recent year’s achievement data or graduation rate under the ESEA, propose performance levels, and reach agreement with the U.S. Department of Education on “adjusted performance levels.” (The Secretary is considering whether to issue regulations requiring states to agree to “adjusted performance levels” under the Perkins Act that are the same as the State’s AMOs or targets for graduation rate under the ESEA. If the Secretary decides to regulate on this issue and adopts final rules, states may be required to amend their State plans.)

Response:

See Part C: Accountability Forms

IV.A.6

Requirement:

The IDE must describe its process for reaching agreement on local adjusted levels of performance if an eligible recipient does not accept the State adjusted levels of performance under section 113(b)(3) of the Act and ensuring that the established performance levels will require the eligible recipient to continually make progress toward improving the performance of career and technical education students. [Sec. 113(b)(4)(A)(i)(II); sec. 122(c)(10)(B)]

Response:

Upon approval of the performance indicators by the U.S. Department of Education, the IDE will, to the greatest extent possible, provide each eligible recipient with baseline data. These data will be used to reach an agreement regarding the eligible recipients’ adjusted levels of performance. The Perkins Act provides the eligible recipient the opportunity to accept the state agreed levels of performance. When this option is accepted, the eligible recipient will be held accountable to the state agreed levels of performance.

The IDE will provide each eligible recipient with the most recent data that was reported to the state on their behalf. These data will be used in the negotiation process to reach an agreement on the recipient’s agreed to targeted level for performance on each indicator. If a recipient elects to negotiate a local performance target, it must propose a target level that demonstrates that the recipient will make

progress toward meeting the State's negotiated performance level for that indicator and their supporting rationale.

IV.A.7

Requirement:

The IDE must describe the objective criteria and methods it will use to allow an eligible recipient to request revisions to its local adjusted levels of performance if unanticipated circumstances arise with respect to an eligible recipient. [Sec. 113(b)(4)(A)(vi)]

Response:

If significant unanticipated circumstances arise, an eligible recipient will have the opportunity to request a review of their agreed levels of performance. This request will be made during the application process. Upon a request for review of their local agreed levels of performance, the following method will be utilized.

- The eligible recipient will provide a written rationale to why and to what extent the local agreed levels of performance should be adjusted.
- The eligible recipient will provide data that supports the request to adjust their local levels of performance.
- The IDE will review the request and negotiate with the eligible recipient to make any adjustment to their agreed levels of performance.

IV.A.8

Requirement:

The IDE must describe how it will report data relating to students participating in career and technical education programs in order to adequately measure the progress of the students, including special populations and students participating in tech prep programs, if applicable, and how it will ensure that the data reported to it from local educational agencies and eligible institutions, and the data that it reports to the Secretary, are complete, accurate, and reliable. [Sec. 122(c)(13); sec 205].

Response:

Data will be collected electronically by the State for both the secondary and postsecondary levels.

The IDE's Community College Management Information System (MIS) is the source, which the State utilizes to obtain input from eligible recipients at the postsecondary level. The purpose of the MIS is "...to collect data electronically from the community colleges to provide summative information about credit and non- credit students, credit student awards, programs and courses, human resources, and community college finances, and improvement and accountability of the system." The IDE conducts a multi-step process to ensure accuracy and reliability. An annual data dictionary and reporting manual are issued to ensure statewide reporting standards and definitions. Once data is submitted internal edits are conducted to identify reporting errors with the file layout or data elements. The Community College MIS is a point in time data reporting system, not a unit student record system. The IDE is exploring the development of a long range plan for improvement of the Community College MIS.

A summary report of the data submission is created and sent to the eligible recipient's administration for confirmation. Once confirmed by the eligible recipient, IDE staff further reviews the data to compare with previous years and identify possible issues to be resolved.

The IDE's Project EASIER (Electronic Access System for Iowa Education Records) and Project Easier Plus CTE are initiatives involved in the transfer of K-12 individual student records, which include data on CTE programs. The mission of the projects is to reduce data burden, encourage better decision-making by establishing and maintaining a cost effective method of accessing and transferring accurate and timely education information among school districts, postsecondary institutions and the IDE. The IDE Project EASIER staff conducts a multi-step process to ensure accuracy and reliability. An annual reporting manual is issued to ensure statewide reporting standards and definitions. Electronic data submission allows for the file to be filtered for errors and rejected if errors are detected. A system to identify errors and "out-of-bounds" responses is under development. A summary report of the data submission is created and available for the eligible recipient's administration to certify. Once certified by the eligible recipient, Project EASIER staff further reviews the data to compare with previous years and identify possible issues to be resolved.

Underlying principles of the projects include a commitment toward reduction of paper-based state reporting, building on existing technologies available to schools, a commitment toward the elimination of paper-based college transcripts, the adoption of a common basis for facilitating meaningful information exchange, and greater security of confidential student information.

IV.A.9

Requirement:

The IDE must describe how it plans to enter into an agreement with each consortium receiving a grant under Perkins IV to meet a minimum level of performance for each of the performance indicators described in section 113(b) and 203(e) of the Act. [Sec. 204(e)(1)]

Response:

The annual grant letter approval that is issued to each local recipient, including consortia, will include specific language describing the agreed upon performance levels for the program year of the grant for each indicator as described in section 113(b) and 203(e) of the Act. These performance levels will then be entered in the recipient's (and each sub-recipients in the case of a consortium) specific web-based (Project EASIER plus CTE) reporting document for that given program year.

IV.A.10

Requirement:

The IDE must describe how it will annually evaluate the effectiveness of career and technical education programs, and describe, to the extent practicable, how it is coordinating those programs with other Federal programs to ensure non-duplication. [Sec. 122(c)(8)]

Response:

The Iowa code 258.4(7) requires LEAs and community colleges to conduct an annual review of at least 20% of the approved career and technical programs. At the secondary and postsecondary levels, the IDE confirms the compliance of these requirements and use of evaluation data for program improvement purposes through the LEA and community college accreditation and review process.

The Director of the IDE meets on a regular basis with other Iowa department directors to coordinate interagency activities and cooperative initiatives; additionally, a CTE consultant serves as the Department's liaison with the IWD and attends the IWD Board's monthly meetings; the State Board of Education and the IWD Board initiated a joint meeting in 2007. The DE and IWD have jointly developed and disseminated career information resources and instructional tools to our schools. The Division also coordinates the Adult Basic Education and Family Literacy Grant, strengthening the linkage between CTE and basic education and GED programs. Iowa has been successful in conducting a data match between the administrative records (UI) records of IWD and the community college MIS; both agencies are jointly supporting an enhanced administrative records match capability for the state. The IDE and IWD signed a Memorandum of Understanding (MOU) to enable a data match between the community college MIS and the state's unemployment insurance records. Additionally, IWD and IDE have collaborated on the Workforce Investment Act (WIA) incentive award to establish family literacy centers through the community colleges.

B. Other Department Requirements

IV.B.1.a-c

Requirement:

The IDE must provide all the information requested on the forms provided in Part C of this guide to report accountability data annually to the Secretary under section 113(c)(1)-(2), including:

- (a) The student definitions that the IDE will use for the secondary core indicators of performance and the postsecondary/adult core indicators of performance;
- (b) Baseline data for the core indicators of performance under section 113(b)(2) using data from the most-recently completed program year, except that, for the indicators for which Iowa must use for its standards, assessment, and graduation rates adopted under Title I of the ESEA, if Iowa chooses to use its AMOs and targets under the ESEA, it will not need to submit baseline data; and
- (c) Proposed performance levels as discussed above, except that, for the indicators for which Iowa must use its standards, assessments, and graduation rates adopted under Title I of the ESEA, if Iowa chooses to use its AMOs and targets under the ESEA, it will only have to confirm this information with its Regional Accountability Specialist. Upon request of the IDE, the Regional Accountability Specialist will pre-populate the forms in Part C with Iowa's AMOs and targets for the 2007-08 and 2008-09 program years and send the forms for IDE to finish completing.

Response:

See Part C: Accountability Forms

IV.B.2

Requirement:

The IDE must identify the program areas for which Iowa has technical skill assessments, the estimated percentage of CTE students who take technical skill assessments, and the Iowa's plan for increasing the coverage of programs and students reported in future program years.

Response:

The State has not adopted statewide technical skill assessments for any program area. In 2006, the IDE conducted a survey of high schools and community colleges to gather baseline data on the utilization of industry skill assessments and credentials; however the number of CTE students who take such assessments remains indeterminable. The Department is exploring ways to increase the number CTE students pursuing and completing industry skills credentials. As a part of this process, IDE personnel are participating in a variety of activities including the Next Steps Working Group's Technical Skills Assessment Study Group, Data Quality Institutes, and other efforts.

The technical skills assessed, the instrument utilized to assess those skills, and proficiency level to be attained to pass the assessment must be approved by a third party. The third party may be a nationally or state recognized industry organization, a provider of reliable and valid third party assessment instruments, or a regional or local advisory committee for the career and technical education program being assessed.

V. TECH PREP PROGRAMS

A. Statutory Requirements

V.A.1

Requirement:

The IDE must describe the competitive basis or formula it will use to award grants to tech-prep consortia. [Sec. 203(a)(1)]

Response:

Each of the 15 area consortia of the state will receive a basic allocation of \$50,000. The balance awarded to each consortium will be based on the number of local education agencies in the area that choose to participate in the consortium. Superintendents of all secondary districts in each area must sign an affidavit regarding their choice to participate in the consortium. Ninety-five percent (95%) of the Tech Prep funds will be awarded to consortia in this manner. The remaining five percent (5%) will be used for administration at the state level.

Community colleges will be the fiscal agents for the tech prep consortia, with the responsibility for developing the data systems to track high school tech prep students who enter community college programs and the rates at which they persist and subsequently graduate.

The IDE has the authority to withhold and reallocate funding for consortia tech prep programs that do not meet minimum performance levels for three consecutive years.

V.A.2

Requirement:

The IDE must describe how it will give special consideration to applications that address the areas identified in section 204(d) of the Act. [Sec. 204(d)(1)-(6)]

Response:

Because funding of consortia is awarded through an allocation process rather than a competitive grant, the IDE will ask all consortia to address each of the six items in Sec. 204(d) in their local application. As noted earlier, a consortium must be formed for each community college merged area and must include the AEA, community college, and must invite and encourage all LEAs in the area to be members of the Tech Prep consortium.

The application will also require consortia to provide the following information:

1. Describe how the consortium will provide effective activities that lead to employment placement or the transfer of students to baccalaureate or advanced degree programs. Perkins Act Title II, [(Sec. 204(d)(1)]
2. Describe the process utilized by the Consortium to consult with business, industry, institutions of higher education, and labor organizations within the region in developing the transitional plan. Include the process that will be utilized in developing the five-year plan. Perkins Act Title II, [(Sec. 204(d)(2)]

3. Describe how the Consortium addresses the issues of school dropout prevention and reentry and the needs of special populations. Perkins Act Title II, [(Sec. 204(d)(3)]
4. Describe how the Consortium will provide education and training in area or skills, including emerging technology, that there are significant workforce shortages. Perkins Act Title II, [(Sec. 204 (d) (4)
5. Describe how tech prep/career academy programs will help students meet high academic and employability competencies. Perkins Act Title II, [Sec. 203(c)(2)(D)], [Sec. 204(d)(5)]
6. Describe how the consortium coordinates activities that are conducted under Title II, Tech Prep with the activities conducted under the Title I, basic Perkins. Perkins Act Title II,) [Sec. 203(c)(8)][Sec. 204(d)(6)]

V.A.3

Requirement:

The IDE must describe how it will ensure an equitable distribution of assistance between urban and rural consortium participants. [Sec. 204(f)]

Response:

Because of the method of allocation, all consortia are provided with equal opportunity to develop tech prep programs in their area. Within the consortia, funds are used to serve both rural and urban members in an equitable manner.

V.A.4.a

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (a) Is carried out under an articulation agreement between the participants in the consortium, as defined in section 3(4) of the Act;

Response:

In order to receive tech prep funds, each eligible program must be part of a consortium agreement. The state of Iowa is divided into 15 merged educational regions, each served by a community college. Another entity, area education agencies (AEAs), provides support services to respective K-12 districts (local education agencies). The consortium agreement must include a respective area education agency, community college, and K-12 district.

A second requirement for tech prep funding is that all local education agencies (LEAs) within the area must be invited and encouraged to be a member of the Tech Prep consortium. An articulation agreement delineating the responsibilities of the consortium for establishing and operating tech prep programs must be signed by the superintendent of each participating secondary district. Official representatives of the area education agency and community college as well as regional board chair (if applicable) also sign the agreement. If a secondary district elects not to participate in the consortium, an affidavit to that effect must be signed.

Tech Prep consortia will be encouraged to utilize the existing Regional Planning Board (Iowa Administrative Code 281-46.7(258)) or a regional advisory committee comprised of representatives from the following groups: the AEA, community college, K-12 districts, parents, business, industry, labor, workforce development, economic development, and chambers of commerce. Minutes of the regional advisory committee meetings will be made available to all consortia members. An annual report of the activities and outcomes of the Tech Prep plan shall be distributed to regional advisory committee members. If a regional advisory committee is utilized, the chairperson must also sign the annual tech prep grant application to ensure the committee is included in the process.

The regional advisory board has responsibility to review the development of the plan and provide assistance in the implementation of the regional tech prep activities. All program elements defined in the Tech Prep section of the Carl Perkins Act of 2006 are included in the work of the consortium.

V.A.4.b

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

(b) Consists of a program of study that meets the requirements of section 203(c)(2)(A)-(G) of the Act;

Response:

In accordance with requirements of the Perkins IV Act, tech prep programs developed and implemented by consortia will include a minimum of two years of secondary education and two or more years of post-secondary education in a non-duplicative, sequential program of study. Tech prep programs may also be designed in conjunction with registered apprenticeship programs. Such agreements must also include two years at the secondary level plus an apprenticeship experience encompassing a minimum of two years.

Tech prep programs must also meet the requirements for career and technical education (vocational education) stipulated in Iowa Code 256.11 and 258. Programs of study must include a minimum number of career and technical instructional units and include academic courses. In order to develop and implement 2 + 2 tech prep programs, consortia will seek input from secondary and post-secondary representatives, related labor organizations, business, and industry.

Tech prep programs of study will be competency-based and include technical and academic skills leading to an associate degree or two-year postsecondary credential. Sequential technical core elements will be included at both the secondary and post-secondary levels.

Core academic subjects within tech prep programs will include courses in mathematics, science, and/or communications and meet or exceed the requirements of the Elementary and Secondary Education Act.

To ensure that tech prep programs align with the needs of employers, advisory committees comprised of representatives from business and industry and labor will be established. Their role will be to assist with program curriculum development, identify competencies and skills standards, provide opportunities for work-based or work-site learning, and collaborate with educators to ensure that programs of study are relevant and current.

In developing tech prep applications, consortia will identify and describe strategies and funds that support the promotion of participants in tech prep programs that are non-traditional for male and female students.

A major focus for career and technical programs at the secondary level in Iowa has been the design, development, and implementation of career academies. Iowa Code 281-47.1(260C) defines the program requirements. Career academies are intended to strengthen the academic and technical components of career and technical education to improve alignment with high-skill, high-wage, or high-demand occupations. Tech prep and career academy programs have comparable parameters. As Iowa implements Perkins IV, state staff will seek consistency in definition between the Iowa tech prep model and the career academy model. A career academy shall meet the following minimum requirements (Iowa Administrative Code 281-47.2(1):

- Articulate two years of secondary education with an associate degree program, which may include a diploma or certificate;
- Ensure that the secondary and postsecondary components of the career preparatory program are non-duplicative;
- Identify a sequential course of study;
- Delineate skill standards specific to the industry;
- Integrate academic and technical instruction;
- Utilize work-based learning;
- Utilize work-site learning where appropriate and available;
- Lead to an associate degree in a high-skill and rewarding career field;
- Provide for an individual career planning process, with parent or guardian involvement; and
- Include articulation of a community college associate degree or, if possible, a baccalaureate degree.

V.A.4.c

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (c) Includes the development of tech prep programs for secondary and postsecondary education that meet the requirements of section 203(c)(3)(A)-(D) of the Act;

Response:

Tech prep and career academy programs will assist students in meeting high academic standards through the integration of academic skills into the scope and sequence of career and technical programs. Since tech prep and career academy programs in Iowa are part of the comprehensive high school structure, tech prep and career academy students must complete the same minimum general studies (academic) course requirements established for all secondary students for graduation.

Instructional modality and methodology will provide learning experiences that challenge students to high levels of academic attainment. Assessments used in accordance with NCLB legislation will document student learning progress and attainment. The Iowa Tests of Educational Development (ITEDs) are used within the state to measure student learning.

The development, design, and delivery of tech prep and career academy programs shall integrate programs of study and follow the Iowa Tech Prep Model which has the following components:

- Non-duplicative sequence of three or more units of CTE courses.
- Competency-based (skill standards) instruction.
- Articulation with postsecondary programs leading to an associate's degree or two-year certificate.
- Foster and include opportunities for secondary students to concurrently enroll in postsecondary courses.
- Academic courses in mathematics, science, and/or *communications*.
- Includes employability, leadership, and may include entrepreneurial components; may employ worksite learning experiences in conjunction with all aspects of an industry.

Educational technology and distance learning modalities will be encouraged and used where applicable and conducive to student learning styles. Career and academic courses are offered through distance learning/web-based delivery as well as the interactive Iowa Communications Network (ICN).

V.A.4.d

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (d) Includes professional development for teachers, faculty, and administrators that meets the requirements of section 203(c)(4)(A)-(F) of the Act.

Response:

Professional development will be provided for administration, faculty and curriculum directors to support the successful planning, development and delivery of tech prep programs. Professional development shall include:

- Parameters for implementation of tech prep programs aligned with Perkins IV and Iowa's Tech Prep and career academy models.
- Technical assistance on the use of technology appropriate for the program.
- Dissemination of resources and strategies to assist students in understanding employability needs, expectations and methods in business as well as all aspects of an industry.
- Integration between academic and career and technical education.
- Dissemination of effective practices.
- Concepts and practices in contextual and applied learning.
- Formative and summative assessment strategies.
- Use and analysis of student achievement data derived from knowledge and skill assessments.

Professional development will be available and delivered jointly to all stakeholders within the tech prep consortium.

V.A.4.e

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (e) Includes professional development programs for counselors that meet the requirements of section 203(c)(5)(A)-(F) of the Act;

Response:

Counselors serve a paramount role in providing students with relevant career and postsecondary education information. This information is intended to assist students in making valid secondary and postsecondary decisions to guide their future careers. Professional development programs focusing on tech prep and career academies will include both secondary and postsecondary counselors, student services personnel, and AEA staff serving K-12 districts. Programs will be designed to assist participants to:

- Understand the parameters of tech prep and career academy programming and the Iowa Tech Prep and career academy models.
- Provide career guidance services and academic counseling to all students, including special populations.
- Provide information to students concerning the academic and career and technical course requirements of tech prep and career academy programs.

- Assist the educational progress of students in completing tech prep and career academy programs including meeting secondary graduation requirements, pursuing postsecondary articulation opportunities, and postsecondary degree completion planning.
- Provide relevant and reliable information concerning employment opportunities and career pathways for career and technical students.
- Assist students in appropriate job placement or transfer to further postsecondary education.
- Remain current with employability needs, expectations and methods of business as well as all aspects of an industry.

V.A.4.f

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (f) Provides equal access to the full range of technical preparation programs (including pre-apprenticeship programs) to individuals who are members of special populations, including the development of tech-prep program services appropriate to the needs of special populations [Sec. 203(c)(6)];

Response:

Tech prep and career academy programs in Iowa provide equal opportunities for success in career and technical education to all students. Supplemental services and recruitment activities will emphasize tech prep program avenues to special population students. Special populations include: individuals with disabilities; individuals from economically disadvantaged families, including foster children; individuals preparing for nontraditional fields; single parents, including single pregnant women; displaced homemakers; and individuals with limited English proficiency. (Within the parameters of tech prep programming, the last category includes school drop-outs and adjudicated youth.)

Stakeholders from diverse backgrounds and experiences will actively participate in the planning, design, implementation, and evaluation of tech prep and career academy programs. Consortia will be encouraged to plan, develop, and implement strategies promoting tech prep and career academy programs to special population students and their parents. Strategies may include marketing, communications, and experiential activities.

Tech prep consortia will also be encouraged to develop programs and resources that focus on special populations and access to tech prep and career academy programs. Activities may include effective practices, student success stories, mentoring, and/or career exploration activities. In addition, tech prep and career academy programs in non-traditional career fields will be promoted to members of underrepresented populations.

Tech prep consortia will collaborate with educational and service providers and other relevant partners such as workforce development, youth corrections, business, industry, labor, economic development, and community colleges to identify, communicate, and serve the diverse needs of special populations. The overarching goal is to enhance student enrollment and success throughout their educational and career pathway.

V.A.4.g

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

- (g) Provides for preparatory services that assist participants in tech-prep programs [Sec. 203(c)(7)];
and

Response:

To enhance enrollments and the success of participants in tech prep programs, consortia will provide a range of preparatory services. Students in 7-12th grade as well as those intending to transfer to aligned post-secondary programs will have access to such services.

Career exploration will be initiated in middle schools with the goal to provide general information, career awareness, and experiences in diverse career pathways. Currently, Iowa Choices is the State of Iowa Career Information and Delivery System (CIDS) for schools and postsecondary institutions. Students may access the CIDS to engage in career assessments, labor market data, and research career information that explores the world of work. Local consortia tech prep programs, career academies, and programs of study will be emphasized. Iowa requires that 8th grade students complete a graduation plan, the Student Core Curriculum Plan (SCCP), outlining high school course selection and plans through graduation. Tech prep and career academy courses and programs of study, as well as linkages with post-secondary institutions, will provide a potential roadmap to higher education in addition to career entry.

School counselors and teachers assist students and their parents in the development of 8th grade Student Core Curriculum Plans and will continue to facilitate and assist student's individual career and educational planning as they progress through high school and consider options through the tech prep/ career academy and general studies sequence.

As secondary students complete high school tech prep or career academy programs and articulate or transition to post-secondary related programs of study, community college staff will provide college services such as course placement testing, advising, and enrollment assistance designed to enhance the transition to higher education. This 7 – 14th integrated process is intended to provide valid preparatory information to students as they pursue and complete each step of the tech prep program's educational ladder.

Tech prep consortia members will also be encouraged to develop relevant employment-related activities. Such services will assist tech prep and career academy program participants in understanding the expectations of the work-place, the value of work-based experiential learning, and the need for life-long learning in the evolving world of work. Participants will also develop an understanding of the time and money value of a career education plan, the need for career planning, and the emergence of new occupations evolving in various career fields.

V.A.4.h

Requirement:

The IDE must describe how it will ensure that each funded tech prep program—

(h) Coordinates with activities under Title I. [Sec. 203(c)(8)]

Response:

In Iowa, all secondary career and technical education programs of study as well as tech prep and career academy programs are offered through comprehensive high schools. An increasing number of secondary career and technical programs have aligned with Iowa's career academy model. Therefore, program activities planned, developed and implemented in support of Title I of the Perkins plan shall parallel or be available to career and technical students as well as tech prep and career academy students.

During the transition year, eligible recipients were required to develop or implement a minimum of one program of study within their district or consortium. Eligible recipients will also foster the development and implementation of programs of study within their respective districts to benefit students and stakeholders. Each secondary district will develop and implement a minimum of 75% of their CTE programs to align with the Iowa program of study model. Eligible recipients will describe their plans to meet this goal in their application for funding. Eligible recipients will demonstrate incremental progress toward this goal throughout the implementation of the Carl D. Perkins Act of 2006.

Consortia will be encouraged to monitor and minimize duplication of activities during the implementation and on-going initiatives relevant to the requirements of Title I and Tech Prep within the Carl D. Perkins Career and Technical Education Act of 2006. Continual coordination, collaboration, and communication between stakeholders will facilitate this and provide a common message to all career and technical students. This can help maximize the impact and intent of Perkins IV funding for the State of Iowa and its career and technical students.

V.A.5

Requirement:

The IDE must describe how it plans to enter into an agreement with each consortium receiving a grant under Perkins IV to meet a minimum level of performance for each of the performance indicators described in sections 113(b) and 203(e) of the Act. [Sec. 204(e)(1)]

Response:

Upon approval of the performance indicators by the U.S. Department of Education, the IDE will, to the greatest extent possible, provide each eligible recipient with baseline data. These data will be used to reach an agreement regarding the eligible recipients' adjusted levels of performance. The Perkins Act provides the eligible recipient the opportunity to accept the state agreed levels of performance. When this option is accepted, the eligible recipient will be held accountable to the state agreed levels of performance.

The IDE will provide each eligible recipient with the most recent data that was reported to the state on their behalf. These data will be used in the negotiation process to reach an agreement on the recipient's agreed to targeted level for performance on each indicator. If a recipient elects to negotiate a local performance target, it must propose a target level that demonstrates that the recipient will make

progress toward meeting the State's negotiated performance level for that indicator and their supporting rationale.

B. Other Department Requirements

V.B.1

Requirement:

The IDE must submit a copy of the local application form(s) used to award tech prep funds to consortia and a copy of the technical review criteria used to select winning consortia, if funds are awarded competitively.

Response:

Refer to Appendix D for the Tech Prep Application.

Refer to Appendix C for the Review Criteria to evaluate the Tech Prep application.

VI. FINANCIAL REQUIREMENTS

A. Statutory Requirements

VI.A.1

Requirement:

The IDE must describe how it will allocate funds it receives through the allotment made under section 111 of the Act, including any funds that it chooses to consolidate under section 202(a) of the Act, will be allocated among career and technical education at the secondary level, or career and technical education at the postsecondary and adult level, or both, including the rationale for such allocation. [Sec. 122(c)(6)(A); Sec. 202(c)]

Response:

The formula used to distribute funds between the two sectors was implemented by the state per the Perkins IV legislation. The formula for the funds received through Perkins IV was based on input from a taskforce composed of administrators of secondary school districts and community colleges. Three factors are utilized to determine the distribution of funds received through Section 112 (1)(a) to the two sectors. The factors gave consideration to the enrollments (contact hours) in career and technical education programs in each of the sectors, the costs incurred by each sector to operate the programs, and the factors (population data) utilized by the U.S. Department of Education to distribute Career and Technical Education Assistance to the States. These factors were selected because together they provided a means to give full consideration to the comprehensive nature of career and technical educational programs and the needed investment of additional resources in both sectors to enable the achievement of the state's vision for its Career and Technical Education system.

The distribution of funds between the two sectors is based on the following formula using State Fiscal Year 2006 data:

- One-third (1/3) of the funds is distributed based upon the proportional share of the total contact hours generated by the career and technical education programs in each sector.
- One-third (1/3) of the funds is distributed based upon the proportional share of the total operation costs incurred by each sector to conduct career and technical education programs.
- One-third (1/3) of the funds is distributed based upon the federal method of calculating each state's share of the total federal appropriation. The federal method is shown below:
 - (a) an amount that bears the same ratio to 50 percent of the sum being allotted as the product of the population aged 15 to 19 inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;
 - (b) an amount that bears the same ratio to 20 percent of the sum being allotted as the product of the population aged 20 to 24, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States;

- (c) an amount that bears the same ratio to 15 percent of the sum being allotted as the product of the population aged 25 to 65, inclusive, in the State in the fiscal year preceding the fiscal year for which the determination is made and the State's allotment ratio bears to the sum of the corresponding products for all the States; and
- (d) an amount that bears the same ratio to 15 percent of the sum being allotted as the amounts allotted to the State under subparagraphs (a), (b), and (c) for such years bears to the sum of the amounts allotted to all the States under subparagraphs (a), (b), and (c) for such year.[Sec. 111(a)(2)]

The portion of funds that have been awarded to the State for the population group for ages 15-19 will be awarded to the secondary sector, and the balance of the funds will be awarded to the post-secondary sector.

Based on the formula described above, 50.6 percent of the funds received in Section 112(1)(a) will be distributed to the secondary sector and 49.4 percent of the funds will be distributed to the postsecondary sector. Each community college will expend a minimum of 5.4 percent of its annual Basic Grant allocation to improve program linkages between secondary and postsecondary career and technical education.

VI.A.2

Requirement:

The IDE must provide the specific dollar allocations made available by the eligible agency for career and technical education programs under section 131(a)-(e) of the Act and how these allocations are distributed to local educational agencies, area career and technical education schools, and educational service agencies within the State. [Sec. 131(g); Sec. 202(c)]

Response:

Funds received through this Section (131) will be allocated to local educational agencies within the state as follows:

Thirty percent (30%) will be allocated to such local educational agencies in the proportion to the number of individuals aged five through 17, inclusive, who reside in the school district served by such local educational agency for the preceding fiscal year compared to the total number of such individuals who reside in the school districts determined on the basis of the most recent satisfactory data provided to the secretary by the Bureau of the Census for the purpose of determining eligibility under Title I of the Elementary and Secondary Education Act of 1965.

Seventy percent (70%) of the funds will be allocated to each local educational agencies in proportion to the number of individuals aged 5 through 17, inclusive, who reside in the school district served by such local educational agency and are from families below the poverty level for the preceding fiscal year, as determined on the basis of the most recent satisfactory data used under section 1124(c)(1)(A) of the Elementary and Secondary Education Act of 1965, compared to the total number of such individuals who reside in school districts served by all of the local educational agencies in the state for such preceding fiscal year.

VI.A.3

Requirement:

The IDE must provide the specific dollar allocations made available by the eligible agency for career and technical education programs under section 132(a) of the Act and how these allocations are distributed to postsecondary institutions within the State. [Section 122(c)(6)(A); Sec. 202(c)]

Response:

Each community college or consortium of community colleges will be allocated an amount that bears the same relationship to the portion of funds made available under Section 112(a)(1) for the postsecondary sector as the sum of the number of individuals who are Federal Pell Grant recipients and recipients of assistance from the Bureau of Indians Affairs enrolled in career-technical or college parallel/career option programs. Funds made available for a given fiscal year will be allocated base on the sum of the number of such recipients enrolled in such programs in the preceding fiscal year. A consortium of community colleges will be required to operate joint projects that provide services to all postsecondary institutions participating in the consortium and mutually beneficial to all members of the consortium. Such funds will not be reallocated to individual members of the consortium for purposes of programs benefiting only one member of consortium. Consortia will also be required to describe in their application for funds the process they will utilize to allocate funds within the consortium.

Consortia membership will be fixed for the five year period. The IDE will mediate unresolved consortia membership issues.

VI.A.4

Requirement:

The IDE must describe how it will allocate any of those funds among any consortia that will be formed among secondary schools, and how funds will be allocated among the members of the consortia, including the rationale for such allocation. [Sec. 122(c)(6)(B); Sec. 202(c)]

Response:

Funds distributed to a consortium must be used to benefit all members. As required by the Perkins Act, funds may not be returned to a member of the consortium based upon their contribution to the total consortium allocation. Decisions about fund distribution to members of the consortium will be made based upon a plan all members of the consortium develop.

VI.A.5

Requirement:

The IDE must describe how it will allocate any of those funds among any consortia that will be formed among postsecondary institutions, and how funds will be allocated among the members of the consortia, including the rationale for such allocations. [Section 122(c)(6)(B); sec. 202(c)]

Response:

Iowa currently does not have any consortia at the postsecondary level. If the need arises to create consortia, the following process will take effect. Funds distributed to a consortium must be used to benefit all members. As required by the Perkins Act, funds may not be returned to a member of the

consortium based upon their contribution to the total consortium allocation. Decisions about fund distribution to members of the consortium will be made based upon a plan all members of the consortium develop.

VI.A.6

Requirement:

The IDE must describe how it will adjust the data used to make the allocations to reflect any change in school district boundaries that may have occurred since the population and/or enrollment data was collected, and include local educational agencies without geographical boundaries, such as charter schools and secondary schools funded by the Bureau of Indian Affairs. [Sec. 131(a)(3)]

Response:

When district boundaries change, the Department will do the following:

- i. When districts merge after population and enrollment data has been collected, the Department will combine the population and/or enrollment data for the merging districts.
- ii. When a district dissolves after population and enrollment data has been collected, the Department will split the enrollment of the dissolving district between the receiving district(s) based on data obtained from the School Finance Team.

The Department will obtain enrollment data from the Bureau of Planning, Research and Evaluation for local educational agencies without geographical boundaries and include those figures when making allocations.

VI.A.7

Requirement:

The IDE must provide a description of any proposed alternative allocation formula(s) requiring approval by the Secretary as described in section 131(b) or 132(b) of the Act. At a minimum, it must provide an allocation run for eligible recipients using the required elements outlined in section 131(a) and/or section 132(a)(2) of the Act, together with an allocation run using the proposed alternative formula(s). Also it must include a demonstration that the alternative secondary formula more effectively targets funds on the basis of poverty, as described in section 131(b)(1) of the Act; and/or, in the case of an alternative postsecondary formula, a demonstration that the formula described in section 132(a)(2) of the Act does not result in a distribution of funds to eligible recipients that have the highest numbers of economically disadvantaged individuals and that an alternative formula would result in such a distribution.

Response:

No alternative allocation formula is proposed.

B. Other Department Requirements

VI.B.1

Requirement:

The IDE must submit a detailed project budget, using the forms provided in Part B of this guide.

Response:

A detailed budget is provided in Part B.

VI.B.2

Requirement:

The IDE must provide a listing of allocations made to consortia (secondary and postsecondary) from funds available under sections 112(a) and (c) of the Act.

Response:

Lists of the allocations are provided in Appendix I.

VI.B.3

Requirement:

The IDE must describe the secondary and postsecondary formulas used to allocate funds available under section 112(a) of the Act, as required by section 131(a) and 132(a) of the Act.

Response:

a. Distribution of Reserve Funds to Eligible Recipients (Section 112a)

Funds received through this Section (112a) will be distributed to postsecondary eligible recipients on a formula basis.

b. Distribution of Funds to Secondary Education Programs (Section 131)

Funds received through this Section (131) will be allocated to local educational agencies within the state as follows:

Thirty percent (30%) will be allocated to such local educational agencies in the proportion to the number of individuals aged five through 17, inclusive, who reside in the school district served by such local educational agency for the preceding fiscal year compared to the total number of such individuals who reside in the school districts determined on the basis of the most recent satisfactory data provided to the U.S. Secretary of Education by the Bureau of the Census for the purpose of determining eligibility under Title I of the Elementary and Secondary Education Act of 1965.

Seventy percent (70%) of the funds will be allocated to each local educational agencies in proportion to the number of individuals aged 5 through 17, inclusive, who reside in the school district served by such local educational agency and are from families below the poverty level for the preceding fiscal year, as determined on the basis of the most recent satisfactory data used under section 1124(c)(1)(A) of the Elementary and Secondary Education Act of 1965, compared to the total number of such individuals who reside in school districts served by all of the local educational agencies in the state for such preceding fiscal year.

Consortia membership will be fixed for the five year period. The Department of Education will mediate unresolved consortia membership issues.

c. Distribution of Funds to Postsecondary Education Programs (Section 132)

Each community college or consortium of community colleges will be allocated an amount that bears the same relationship to the portion of funds made available under Section 112(a)(1) for the postsecondary sector as the sum of the number of individuals who are Federal Pell Grant recipients and recipients of assistance from the Bureau of Indians Affairs enrolled in career-technical or college parallel/career option programs. Funds made available for a given fiscal year will be allocated base on the sum of the number of such recipients enrolled in such programs in the preceding fiscal year.

A consortium of community colleges will be required to operate joint projects that provide services to all postsecondary institutions participating in the consortium and mutually beneficial to all members of the consortium. Such funds will not be reallocated to individual members of the consortium for purposes of programs benefiting only one member of consortium. Consortia will also be required to describe in their application for funds the process they will utilize to allocate funds within the consortium.

VI.B.4

Requirement:

The IDE must describe the competitive basis or formula to be used to award reserve funds under section 112(c) of the Act.

Response:

Per section 112 of the Perkins Act, the reserve fund may not to exceed 8.5% of the annual total state allotment. The IDE will establish a reserve fund of \$150,000 for State Fiscal Year 2009. In subsequent fiscal years, the IDE will make a funding request to the Director of the IDE. The reserve fund will be established to implement activities tied to the state's strategic workforce and economic priorities and initiatives, and/or to integrate the academic core supporting career and technical education or enhancing the academic attainment of CTE students to support activities at both the secondary and post-secondary levels. The focus of each year's funds will be determined by the IDE. The IDE will seek opportunities to use the reserve fund as leverage to secure additional support of these activities. Each of the community colleges must meet one of the following three criteria: (i) in a rural area; (ii) in an area with a high percentage of CTE students; (iii) or in an area with a high number of CTE students. Reserve funds will be made available to community colleges on a formula basis. Each of the 15 merged areas of the state will receive a basic allocation of \$10,000. The balance awarded to each area will be based on the number of local education agencies in the area that choose to participate. Superintendents of all secondary districts in each area must sign an affidavit regarding their choice to participate.

Community colleges will be the fiscal agents for the reserve fund allocations.

VI.B.5

Requirement:

The IDE must describe the procedures used to rank and determine eligible recipients seeking funding under section 112(c) of the Act.

Response:

For an eligible recipient to be considered as having a "high number of CTE students," the recipient must have CTE enrollment above the state average. For an eligible recipient to be considered as

having a “high percentage of CTE students,” their percentage of CTE students as compared to the total enrollment must be higher than the state average. For an eligible recipient to be considered “a rural area,” the area’s urban population must be lower than 50% of its total population. The IDE will utilize data from the Nation Center for Educational Statistics and the U.S. Census Bureau’s Small Area Income and Poverty Estimates (SAIPE) to determine an area’s urban population.

VI.B.6

Requirement:

The IDE must include a description of the procedures used to determine eligible recipients in rural and sparsely populated areas under section 131(c)(2) or 132(a)(4) of the Act.

Response:

The IDE will utilize information from the National Center for Educational Statistics to define each secondary district as urban or rural. All districts with a “urban-centric locale” code larger than 23 will be considered a rural or sparsely populated secondary district. For a postsecondary eligible recipient to be considered “a rural or sparsely populated area,” the area’s urban population must be lower than 50% of its total population. The IDE will utilize data from the National Center for Educational Statistics and the U.S. Census Bureau’s Small Area Income and Poverty Estimates (SAIPE) to determine an area’s urban population.

VII. EDGAR CERTIFICATIONS AND OTHER ASSURANCES

A. EDGAR Certifications

VII.A.1

Requirement:

The IDE must provide a written and signed certification that—

- (a) The plan is submitted by the State agency that is eligible to submit the plan. [34 CFR 76.104(a)(1)]
*[Note: The term ‘eligible agency’ means a **State board** designated or created consistent with State law as the sole State agency responsible for the administration, or the supervision of the administration, of career and technical education in the State. See Sec. 3(12).]*
- (b) The State agency has authority under State law to perform the functions of the State under the program. [34 CFR 76.104(a)(2)]
- (c) The State legally may carry out each provision of the plan. [34 CFR 76.104(a)(3)]
- (d) All provisions of the plan are consistent with State law. [34 CFR 76.104(a)(4)]
- (e) A State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan. [34 CFR 76.104(a)(5)] *[Note: If a State wishes for the Department to continue sending the grant award documents directly to the State director, this individual’s title needs to be listed on this portion of the assurance.]*
- (f) The State officer who submits the plan, specified by title in the certification, has authority to submit the plan. [34 CFR 76.104(a)(6)]
- (g) The agency that submits the plan has adopted or otherwise formally approved the plan. [34 CFR 76.104(a)(7)]

The plan is the basis for State operation and administration of the program. [34 CFR 76.104(a)(8)]

Response:

As established by Iowa Code Section 256.1 (and provided in detail by this plan in B2, Program Administration, the State Board of Education has the authority to develop, submit the state plan, and carry out the functions of the state plan, and disburse funds.

A written and signed certification is provided in Appendix M.

VII.B.1

Requirement:

The IDE must submit a copy of the State plan to the State office responsible for the Intergovernmental Review Process if Iowa implements that review process under Executive Order 12372. [See 34 CFR Part 79]

Response:

The IDE will submit a copy of this Perkins IV State Plan to the state office responsible for the Intergovernmental Review Process if Iowa implements that review process under Executive Order 12372.

VII.B.2

Requirement:

The IDE must provide a complete and signed ED Form 80-0013 for certifications regarding lobbying; [See 34 CFR Part 82. To download ED Form 80-0013, and the SF LLL Form (Disclosure of Lobbying Activities) referred therein, See: <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.3

Requirement:

The IDE must provide a complete and signed Assurance for Non-Construction Programs Form. [See <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.4

Requirement:

The IDE must provide a signed assurance that it will comply with the requirements of the Act and the provisions of the State plan, including the provision of a financial audit of funds received under the Act which may be included as part of an audit of other Federal or State programs. [Sec. 122(c)(11)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.5

Requirement:

The IDE must provide a signed assurance that none of the funds expended under the Act will be used to acquire equipment (including computer software) in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the acquiring entity or the employees of the acquiring entity, or any affiliate of such an organization. [Sec. 122(c)(12)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.6

Requirement:

The IDE must provide a signed assurance that Iowa will waive the minimum allocation as required in section 131(c)(1) in any case in which the local educational agency is located in a rural, sparsely populated area or is a public charter school operating secondary school career and technical education

programs and demonstrates that it is unable to enter into a consortium for purposes of providing services under the Act. [Section 131(c)(2)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.7

Requirement:

The IDE must provide a signed assurance that Iowa will provide, from non-Federal sources for the costs the eligible agency incurs for the administration of programs under this Act, an amount that is not less than the amount provided by the eligible agency from non-Federal sources for such costs for the preceding fiscal year. [Sec. 323(a)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.8

Requirement:

The IDE must provide a signed assurance that Iowa and eligible recipients that use funds under this Act for in-service and pre-service career and technical education professional development programs for career and technical education teachers, administrators, and other personnel shall, to the extent practicable, upon written request, permit the participation in such programs of career and technical education secondary school teachers, administrators, and other personnel in nonprofit private schools offering career and technical secondary education programs located in the geographical area served by such eligible agency or eligible recipient. [Sec. 317(a)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.9

Requirement:

The IDE must provide a signed assurance that, except as prohibited by State or local law, that an eligible recipient may, upon written request, use funds made available under this Act to provide for the meaningful participation, in career and technical education programs and activities receiving funds under this Act, of secondary school students attending nonprofit private schools who reside in the geographical area served by the eligible recipient. [Sec. 317(b)(1)]

Response:

Complete and signed assurances are provided in Appendix M.

VII.B.10

Requirement:

The IDE must provide a signed assurance that eligible recipients that receive an allotment under this Act will consult, upon written request, in a timely and meaningful manner with representatives of nonprofit private schools in the geographical area served by the eligible recipient regarding the

meaningful participation, in career and technical education programs and activities receiving funding under this Act, of secondary school students attending nonprofit private schools. [Sec. 317(b)(2)]

Response:

Complete and signed assurances are provided in Appendix M.

PART B: BUDGET FORMS

Requirement:

On the attached budget tables, the IDE must identify for 2008-2009:

I. Title I: Career and Technical Education Assistance to States

- | | |
|--------------|---|
| Line I.A | The amount of Title I funds available under section 112(a). |
| Line I.B | The amount of Title II funds, if any, to be consolidated with Title I funds as described in section 202(a) and (b). |
| Line I.C | The total amount of combined Title I and Title II funds. |
| Line I.D | The percent and amount, if any, slated for eligible recipients under section 112(a)(1). |
| Line I.D.1 | The amount, if any, to be reserved under section 112(c). |
| Line I.D.1.a | The percent and amount reserved for secondary recipients. |
| Line I.D.1.b | The percent and amount reserved for postsecondary recipients. |
| Line I.D.2 | The amount to be made available for eligible recipients for under section 112(a)(1) by the allocation formulas addressed in sections 131 and 132. |
| Line I.D.2.a | The percent and amount slated for secondary recipients. |
| Line I.D.2.b | The percent and amount slated for postsecondary recipients. |
| Line I.E. | The percent and amount to be made available for State leadership under section 112(a)(2). |
| Line I.E.1 | The amount to be made available for services to prepare individuals for non-traditional fields under section 112(a)(2)(B). |
| Line I.E.2 | The amount to be made available to serve individuals in State institutions, as described in section 112(a)(2)(A). |
| Line I.F | The percent and amount to be expended for State administration under section 112(a)(3). |
| Line I.G | The amount to be expended for matching of Federal expenditures for State administration under sections 112(b) and 323. |

Response:

The IDE has identified the data required on Lines I.A. – I.G. for 2008-2009 on the attached budget tables.

II. Title II: Tech Prep Programs

- Line II.A The amount of funds available under section 201(a).
- Line II.B The amount of Title II funds, if any, to be consolidated with Title I funds as described in section 202(a).
- Line II.C The total amount of funds to be used for Title II tech-prep programs.
- Line II.D The amount of funds to be made available for tech-prep consortia under section 203.
- Line II.D.1 The percent of funds to be made available for tech-prep consortia under section 203.
- Line II.D.2 The number of tech-prep consortia to be funded.
- Line II.E The amount to be expended for State administration under Title II.
- Line II.E.1 The percent of funds to be expended for State administration under Title II.

Response:

The IDE has identified the data required on Lines I.A. – I.G. for 2008-2009 on the attached budget tables.

PERKINS IV BUDGET TABLE - PROGRAM YEAR 1
(For Federal Funds to Become Available Beginning on July 1, 2008)

I. TITLE I: CAREER AND TECHNICAL EDUCATION ASSISTANCE TO STATES

A. Total Title I Allocation to the State	\$ <u>12,134,049</u>
B. Amount of Title II Tech Prep Funds to Be Consolidated with Title I Funds	\$ <u>0</u>
C. Total Amount of Combined Title I and Title II Funds to be distributed under section 112 (<i>Line A + Line B</i>)	\$ <u>12,134,049</u>
D. Local Formula Distribution (<i>not less than 85%</i>) (<i>Line C x 85%</i>)	\$ <u>10,313,943</u>
1. Reserve (<i>not more than 10% of Line D</i>)	\$ <u>150,000</u>
a. Secondary Programs (<u>0</u> % of <i>Line D</i>)	\$ _____
b. Postsecondary Programs (<u>100</u> % of <i>Line D</i>)	\$ <u>150,000</u>
2. Available for formula allocations (<i>Line D minus Line D.1</i>)	\$ <u>10,163,943</u>
a. Secondary Programs (<u>50.6</u> % of <i>Line D.2</i>)	\$ <u>5,142,955</u>
b. Postsecondary Programs (<u>49.4</u> % of <i>Line D.2</i>)	\$ <u>5,020,988</u>
E. State Leadership (not more than 10%) (<i>Line C x 10%</i>)	\$ <u>1,213,404</u>
1. Nontraditional Training and Employment	(\$ <u>100,000</u>)
2. Corrections or Institutions	(\$ <u>100,000</u>)
F. State Administration (not more than 5%) (<i>Line C x 5%</i>)	\$ <u>606,702</u>
G. State Match (<i>from non-federal funds</i>) ¹	\$ <u>606,702</u>

¹ The eligible agency must provide non-Federal funds for State administration of its Title I grant in an amount not less than the amount it provided in the preceding year.

PERKINS IV BUDGET TABLE - PROGRAM YEAR 1
(For Federal Funds to Become Available Beginning on July 1, 2008)

II. TITLE II: TECH PREP PROGRAMS

A. Total Title II Allocation to the State	\$ <u>1,244,304</u>
B. Amount of Title II Tech Prep Funds to Be Consolidated with Title I Funds	\$ <u>0</u>
C. Amount of Title II Funds to Be Made Available For Tech-Prep (<i>Line A less Line B</i>)	\$ <u>1,244,304</u>
D. Tech-Prep Funds Earmarked for Consortia	\$ <u>1,182,089</u>
1. Percent for Consortia (<i>Line D divided by Line C</i>) [<u>95</u> %]	
2. Number of Consortia <u>15</u>	
3. Method of Distribution (<i>check one</i>):	
a. <u>x</u> Formula	
b. <u> </u> Competitive	
E. Tech-Prep Administration	\$ <u>62,215</u>
1. Percent for Administration (<i>Line E divided by Line C</i>) [<u>5</u> %]	

PART C: ACCOUNTABILITY FORMS

I. Definitions of Student Populations

Requirement:

On page 43, the IDE must provide the career and technical education (CTE) student definitions that it will use for the secondary and postsecondary/adult core indicators of performance, e.g., “CTE participants” and “CTE concentrators.” These are the students on which it will report data annually to the U.S. Secretary of Education under section 113(c)(1)-(2) of the Act.

Response:

A. Secondary Level

Career and Technical Education Participant – A secondary student who has earned one half (0.5) or more units in any career and technical education program area.

Career and Technical Education Concentrator – A secondary student who has earned one and a half (1.5) or more units in a single career and technical education program area.

B. Postsecondary/Adult Level

Career and Technical Education Participant – A post-secondary student who has earned one (1) or more credits in a career and technical education program.
--

Career and Technical Education Concentrator – A post-secondary student who: 1.) completes at least twelve (12) academic or technical credits within a single career and technical education program sequence that is comprised of 12 or more academic or technical credits that terminates in the award of an industry-recognized credential, a certificate, diploma, or a degree; or 2.) completes a short-term career and technical education program sequence of less than 12 credits that terminates with an award of an industry-recognized credential, or a certificate.

II. Identification of Measurement Definitions/Approaches

Requirement:

In Columns 2 and 3 of the Final Agreed Upon Performance Levels (FAUPL) forms on pages 44-48, the IDE must provide its valid and reliable measurement definitions and approaches, respectively, for each of the core indicators of performance required under section 113(b) of the Act. Each definition must contain a description of the numerator (the number of individuals achieving an outcome) and a denominator (the number of individuals seeking to achieve an outcome). As discussed above in Part A, Section IV, A.3, the U.S. Department of Education Office of Vocational and Adult Education (OVAE) pre-populated the FAUPL form with the measurement definitions and approaches for the core indicators to measure student attainment of challenging academic content standards and student academic achievement standards in reading/language arts and mathematics under the Elementary and Secondary Education Act (ESEA) (1S1 and 1S2, respectively) and student graduation rates under the ESEA (4S1). Iowa may choose to propose other student definitions and measurement approaches, but

it would have to describe in its Perkins IV State Plan how its proposed definitions and measures would be valid and reliable.

Response:

See the column entitled “Measurement Approach” on Form C

III. Baseline Data

Requirement:

In Column 4 of the FAUPL forms, the IDE must provide baseline data, using data for the most recently completed program year (July 1, 2005 – June 30, 2006), on the performance of career and technical education students on each of the core indicators of performance, except that, for the indicators for which Iowa must use State standards, assessments, and graduation rates adopted under Title I of the ESEA, if the IDE chooses to use its annual measurable objectives (AMOs) and targets under the ESEA, it will not need to submit baseline data. The U.S. Department of Education Office of Vocational and Adult Education will use the IDE’s baseline data as a starting point for reaching agreement with it on the core indicators of performance for the first two program years under Perkins IV section 113(b)(3)(iii) of the Act.

Response:

See the column entitled “Baseline- 7/1/07 – 6-30-08 on Form C.

IV. Performance Levels

Requirement:

In Columns 5 and 6 of the FAUPL forms, the IDE must provide proposed levels of performance for each of the core indicators of performance for the first two program years (July 1, 2007 – June 30, 2008 and July 1, 2008 – June 30, 2009) as required under section 113(b)(3)(ii) of the Perkins Act, except that, for the indicators for which Iowa must use its standards, assessments, and graduation rates adopted under Title I of the ESEA, if Iowa chooses to use its AMOs or targets under the ESEA it will only have to confirm this information with its OVAE Regional Accountability Specialist. At Iowa’s request, the Regional Accountability Specialist will pre-populate the forms in Part C with the Iowa’s AMOs or targets for the 2007-08 and 2008-09 program years before sending the forms to IDE to finish completing. .

Response:

See the column entitled “Year One - 7/1/08 – 6/30/09 on Form C.

V. State Confirmation of Final Agreed Upon Performance Levels

Requirement:

After IDE reaches agreement with the U.S. Department of Education Office of Vocational and Adult Education on Iowa’s final agreed upon adjusted performance levels for the first two program years, the IDE will be asked to confirm these levels via e-mail submission of Iowa’s FAUPL form. Iowa’s final agreed upon performance levels for the first two program years for the ESEA indicators will be incorporated into Iowa’s plan and its July 1, 2007 Perkins grant award. Iowa’s final agreed upon

performance levels for the first two program years for all other for all other indicators will be incorporated into its Perkins IV State Plan and its July 1, 2008 Perkins grant award.

Response:

The IDE will confirm after reaching agreement with the U.S. Department of Education Office of Vocational and Adult Education on Iowa's final agreed upon adjusted performance levels for the first two program years, by confirming these levels via email submission of the Iowa Final Agreed Upon Performance Levels (FAUPL) form.

II. Final Agreed Upon Performance Levels Form (FAUPL)

A. Secondary Career and Technical Education Performance Indicators and Targets:

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/06- 6/30/07)	Year One 7/1/07- 6/30/08	Year Two 7/1/08- 6/30/09
1S1 Academic Attainment – Reading/Language Arts 113(b)(2)(A)(i)	<p>Numerator: The number of career and technical education concentrators who have met the proficient or advanced level on the Statewide high school reading/language arts assessment administered by the State under Section 1111(b)(3) of the Elementary and Secondary Education Act (ESEA) as amended by the No Child Left Behind Act based on the scores that were included in the State's computation of adequate yearly progress (AYP) and who, in the reporting year, left secondary education.</p> <p>Denominator: The number of career and technical education concentrators who took the ESEA assessment in reading/language arts whose scores were included in the State's computation of AYP and who, in the reporting year, left secondary education.</p>	<p>Iowa uses multiple assessment tests for Reading/Language Arts. The test includes Iowa Tests of Basic Skills (ITBS), Iowa Tests of Educational Development (ITED), English Language Development Assessment (ELDA) and Iowa Alternate Assessment (IAA).</p> <p>Iowa public schools are judged by performance and improvement on the Iowa Tests of Basic Skills (ITBS) and the Iowa Tests of Educational Development (ITED). Iowa school districts and buildings must report assessment results for all students in reading and mathematics in grades 3 through 8 and in grade 11. In science, student results are reported in grades 8 and 11, until the 2007-2008 school year in which grade 5 students' results will also be reported. Students identified as English language learners (ELL) are additionally assessed using the English Language Development Assessment (ELDA).</p> <p>Some students with disabilities are assessed using the Iowa Alternate Assessment.</p> <p>Students with disability such as sight impaired may take the Braille version of the ITBS reading comprehension test. Those scoring above the 40th percentile are counted as proficient for AYP purposes.</p>	76.38%	74.20%	79.30%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/06-6/30/07)	Year One 7/1/07-6/30/08	Year Two 7/1/08-6/30/09
1S2 Academic Attainment - Mathematics 113(b)(2)(A)(i)	<p>Numerator: The number of career and technical education concentrators who have met the proficient or advanced level on the Statewide high school mathematics assessment administered by the State under Section 1111(b)(3) of the (ESEA) as amended by the No Child Left Behind Act based on the scores that were included in the State's computation of adequate yearly progress (AYP) and who, in the reporting year, left secondary education.</p> <p>Denominator: The number of career and technical education concentrators who took the ESEA assessment in mathematics whose scores were included in the State's computation of AYP and who, in the reporting year, have left secondary education.</p>	<p>Iowa uses the Iowa Tests of Basic Skills (ITBS,) for grades 1-8 and Iowa Tests of Educational Development (ITED) for high school students for annual statewide assessment. To meet the requirements of the legislation, Iowa school districts and buildings must report assessment results for all students in reading and mathematics (see explanation in 1S1).</p>	78.32%	74.20%	79.30%
2S1 Technical Skill Attainment 113(b)(2)(A)(ii)	<p>Numerator: The number of career and technical education concentrators who passed a technical skill assessment that is reliable and valid and was approved by a third party and the post-secondary institution that the program is linked with through a "program of study", during the reporting year.</p> <p>Denominator: The number of career and technical education concentrators who took a technical skill assessment that is reliable and valid and was approved by a third party and the post-secondary institution that the program is linked with through a "program of study" during the reporting year.</p>	<p>The technical skills assessed, the instrument utilized to assess those skills, and proficiently level to be attained to pass the assessment must be approved by a third party and the post-secondary institution that the program is linked with through a "program of study". The third party may be a nationally or state recognized industry organization, a provider of reliable and valid third party assessment instruments, or a regional or local advisory committee for the career and technical education program being assessed.</p>	56.65%	Not Required	56.70%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/06- 6/30/07)	Year One 7/1/07- 6/30/08	Year Two 7/1/08- 6/30/09
3S1 Secondary School Completion 113(b)(2)(A)(iii)(I- III)	<p>Numerator: The number of career and technical education concentrators who earned a regular secondary school diploma, (including recognized alternative standards for individuals with disabilities) or earned a General Education Development (GED) credential as a State-recognized equivalent to a regular high school diploma during the reporting year.</p> <p>Denominator: The number of career and technical education concentrators who left secondary education during the reporting year.</p>	The state will utilize data collected via Project EASIER and Project EASIER Plus CTE to determine the rate at which career and technical education concentrators are completing high school.	91.39%	Not Required	91.39%
4S1 Student Graduation Rates 113(b)(2)(A)(iv)	<p>Numerator: The number of career and technical education concentrators who received a high school diploma in the reporting year. (They were included as graduated in the State's computation of its graduation rate as described in Section 1111(b)(2)(C)(vi) of the ESEA for the reporting year.)</p> <p>Denominator: The number of career and technical education concentrators who left school in the reporting year. (They were included in the State's computation of its graduation rate as defined in the State's Consolidated Accountability Plan pursuant to Section 1111(b)(2)(C)(vi) of the ESEA for the reporting year.)</p>	The state will utilize data collected via Project EASIER and Project EASIER Plus CTE to determine the rate at which career and technical education concentrators are graduating from high school.	91.27%	90.3%	90.3%
5S1 Secondary Placement 113(b)(2)(A)(v)	<p>Numerator: The number of career and technical education concentrators who left high school and reported that they intended to enroll in post-secondary education or advanced training, in the military service, or employment.</p> <p>Denominator: The number of career and technical education concentrators who left secondary education during the reporting year.</p>	The state will utilize data collected via the graduate intent survey and reported via Project EASIER and Project EASIER Plus CTE to determine the number of career and technical education concentrators that left secondary education during the reporting year that intent to enroll in post-secondary education, enter military service, or seek full time employment upon graduation from high school.	86.43%	Not Required	86.43%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline 7/1/06- 6/30/07	Year One 7/1/07- 6/30/08	Year Two 7/1/08- 6/30/09
6S1 Nontraditional Participation 113(b)(2)(A)(vi)	<p>Numerator: The number of CTE participants from the under-represented gender group who participated in career and technical education programs that lead to employment in non-traditional fields for their gender during the reporting year.</p> <p>Denominator: The number of CTE participants who participated in career and technical education programs that lead to employment in non-traditional fields for a gender during the reporting year.</p>	The state will utilize data collected via Project EASIER and Project EASIER Plus CTE to determine the rate at which the under-represented gender is participating in career and technical education program that lead to employment in a non-traditional field for their gender.	Not Currently Available	Not Required	Not Currently Available
6S2 Nontraditional Completion 113(b)(2)(A)(vi)	<p>Numerator: The number of CTE concentrators from the under-represented gender group who completed a career and technical education program that leads to employment in non-traditional fields for their gender and left school during the reporting year.</p> <p>Denominator: The number of CTE concentrators from the under-represented gender group who concentrated in career and technical education programs that leads to employment in non-traditional fields for their gender and left school during the reporting year.</p>	The state will utilize data collected via Project EASIER and Project EASIER Plus CTE to determine the rate at which the under-represented gender is completing career and technical education program that lead to employment in a non-traditional field for their gender.	30.37%	Not Required	30.37%

B. Post-secondary Level Performance Indicators and Targets:

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/06-6/30/07)	Year One 7/1/07-6/30/08	Year Two 7/1/08-6/30/09
1P1 Technical Skill Attainment 113(b)(2)(B)(i)	<p>Numerator: The number of career and technical education concentrators who passed a technical skill assessment that is reliable and valid and was approved by a third party during the reporting year.</p> <p>Denominator: The number of career and technical education concentrators who took a technical skill assessment that is reliable and valid and was approved by a third party during the reporting year.</p>	The technical skills assessed, the instrument utilized to assess those skills, and proficiency level to be attained to pass the assessment must be approved by a third party. The third party may be a nationally or state recognized industry organization, a provider of reliable and valid third party assessment instruments, or a regional or local advisory committee for the career and technical education program being assessed.	82.06%	Not Required	82.11%
2P1 Credential, Certificate, Diploma or Degree 113(b)(2)(B)(ii)	<p>Numerator: The number of career and technical education concentrators who received an industry-recognized credential, a certificate, diploma, or a degree during the reporting year.</p> <p>Denominator: The number of career and technical education concentrators who left post-secondary education during the reporting year.</p>	The state will utilize data collected via the community college Management Information System to determine the rate at which career and technical education concentrators are awarded an industry-recognized credential, a certificate, diploma, or a degree.	44.02%	Not Required	44.03%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/05-6/30/06)	Year One 7/1/07-6/30/08	Year Two 7/1/08-6/30/09
3P1 Student Retention or Transfer 113(b)(2)(B)(iii)	<p>Numerator: The number of career and technical education concentrators who remained enrolled in their original post-secondary institution or transferred to another two or four year post-secondary institution during the reporting year and who were enrolled in post-secondary education the previous reporting year.</p> <p>Denominator: The number of career and technical education concentrators who were enrolled in post-secondary education in the previous reporting year and who did not earn an industry-recognized credential, a certificate, or a degree in the previous reporting year; or did earn an award in the previous reporting year and remained enrolled in their original post-secondary institution or transferred to another two or four-year institution in the current reporting year.</p>	<p>The state will utilize data collected via the community college Management Information System and the National Student Clearing House to determine the rate at which career and technical education concentrators continue to participate in post-secondary education.</p>	71.79%	Not Required	71.80%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline (7/1/05-6/30/06)	Year One 7/1/07-6/30/08	Year Two 7/1/08-6/30/09
4P1 Student Placement 113(b)(2)(B)(iv)	<p>Numerator: The number of career and technical educators concentrators who were placed or retained in employment, or placed in military service or apprenticeship programs, in the second quarter following the program year in which they left post-secondary education.</p> <p>Denominator: The number of career and technical education concentrators who left post-secondary education during the reporting year.</p>	<p>The state will utilize data available via the community college Management Information System and the Department of Workforce Development's Unemployment Insurance files to determine the percentage of career and technical education concentrators that are employed within the state of Iowa and its bordering states.</p> <p>The Iowa Department of Workforce Development is entering into reciprocal agreements with Iowa's bordering states for the exchange of employment-related data. However, agreements are not currently in place with all states nor is the Department of Education able to obtain the data on a student record level. This currently limits the availability of placement data for the majority of the post-secondary grant recipients.</p> <p>Until the Department of Workforce Development has agreements in place for all bordering states that yields employment placement on an individual unit basis, grant recipients will be allowed to utilize placement data collected via local program completer follow-up surveys rather than the state data source to demonstrate continuous improvement.</p>	71.78%	Not Required	71.80%

Indicator & Citation	Measurement Definition	Measurement Approach	Baseline 7/1/06- 6/30/07	Year One 7/1/07- 6/30/08	Year Two 7/1/08- 6/30/09
5P1 Nontraditional Participation 113(b)(2)(B)(v)	<p>Numerator: The number of CTE participants from the under-represented gender group who participated in career and technical education programs that lead to employment in a non-traditional field for their gender during the reporting year.</p> <p>Denominator: The number of CTE participants who participated in career and technical education programs that lead to employment in a non-traditional field for a gender during the reporting year.</p>	The state will utilize data collected via community college Management Information System to determine the rate at which the under-represented gender is participating in career and technical education program that lead to employment in a non-traditional field for their gender.	21.76%	Not Required	21.77%
5P2 Nontraditional Completion 113(b)(2)(B)(v)	<p>Numerator: The number of CTE concentrators from the under-represented gender group who completed a career and technical education program that leads to employment in a non-traditional field for their gender and left school during the reporting year.</p> <p>Denominator: The number of CTE concentrators from the under-represented gender group who concentrated in career and technical education programs that lead to employment in a non-traditional field for their gender and left school during the reporting year.</p>	The state will utilize data collected via community college Management Information System to determine the rate at which the under-represented gender is completing career and technical education program that lead to employment in a non-traditional field for their gender.	39.76%	Not Required	39.77%

III. Tech Prep Performance Indicators

Additional Tech Prep Performance Indicators and Targets for Iowa Perkins Grant Recipients FY 2009-2013

In General: Tech Prep Regional Consortia will be required to negotiate performance targets for each of the performance indicators as required for section 113 of Perkins Act as well as for each of the additional indicators listed below from section 203. No State performance targets will be established for the additional tech prep performance indicators, however each consortium will be required to negotiate performance targets for each additional indicator and demonstrate continuous improvement. Each institutional member of the regional tech prep consortium will be required to report enrollment information and performance data to the Iowa Department of Education via Project EASIER Plus CTE and the community college Management Information System student for each of the tech prep programs being offered to their students.

Definitions:

Secondary Tech Prep Student: A secondary education student who has earned one and a half (1.5) or more units of credit in the secondary education component of a single career and technical education tech prep program.

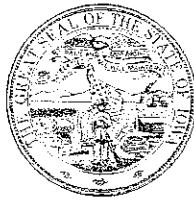

Postsecondary Tech Prep Student: A student who has completed all of the courses in the secondary education component of a tech prep program; and has been accepted and enrolled in the postsecondary education component of a tech prep program at an institution of higher education.

CHESTER J. CULVER
GOVERNOR

OFFICE OF THE GOVERNOR

PATTY JUDGE
LT. GOVERNOR

March 28, 2008

Mr. Edward Smith, Chief
Program Administration Branch
Division of Academic and Technical Education
Office of Vocational and Adult Education
United States Department of Education
550 12th Street, SW
Potomac Center Plaza, Room 11053
Washington, D.C. 20202-7110

Dear Mr. Smith:

I am providing a copy of "Iowa's Five Year State Plan for Implementation of the Federal Carl D. Perkins Career and Technical Act of 2006" for your review.

I am recommending this plan for approval for the following reasons:

- Representatives from numerous entities with a stake in career and technical education in Iowa were involved in its development.
- Specific recommendations for implementing the plan include: Program Administration, Accountability and Assessment, Program Development and Improvement, Special Populations/Nontraditional Preparation, and Statewide Leadership.
- The plan addresses measurement definitions and approaches for the core indicators on student performance.
- The plan includes the promotion of the integration of coherent and rigorous academic content standards and career and technical education curricula.

I am proud to recommend this state plan for your approval and I am enthusiastic about its potential as part of a comprehensive plan to meet the learning needs of Iowans. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Chester J. Culver".

Chester J. Culver
Governor of Iowa

Des Moines, IA 50319-0146

RE: Request to extend submission date of the State of Iowa's Five-Year Perkins IV State Plan under the Carl D. Perkins career and technical education Act of 2006

Dear Ms. Jeffrey:

We have accepted your request to extend the submission of your WI Perkins Plan beyond the April 1, 2008 deadline. However, please note that we have attached one caveat regarding the extension of your Perkins submission date. We suggest that you submit an unsigned five-year Perkins plan on or before the April 1, 2008 deadline. After you have secured the signatures of your State Board, resubmit your plan. Please remember to include a note indicating that you will resubmit your five-year Perkins Plan as soon as you have the signatures of your State Board.

If you have additional questions, please don't hesitate to contact me.

Sincerely,

Edward R. Smith, Ph. D.

APPENDIX A

BASIC GRANT APPLICATION APPROVAL CHECKLIST

State of Iowa
Department of Education
Division of Community College and Workforce Preparation
Grimes State Office Building
Des Moines, Iowa 50319-0146

**Carl D. Perkins Career and Technical Education Act of 2006
(PL 109-270)**

**FY 2009 Local Application
Approval Checklist**

Part I: List of Career and Technical Education Programs

A list of career and technical education programs offered by each community college/district during the previous academic year was forwarded to each community college president/local school administrator with the announcement of the FY 09-13 Perkins application process. Review, revise as necessary, and attach this list to the application.

Requirements	Meets	Does Not Meet	Comments
1) Secondary Schools--The list is attached and certified by the local school administrator(s), the grant's contact person, and the regional tech prep coordinator that the district will be offering the programs on the list during the 08-09 academic year and that the programs include the required program elements listed on the grant application form. 2) Secondary Schools—The list of programs includes Tech Prep programs and identifies linkages to Community College programs 3) Post-secondary--Grant recipients must include a list of post-secondary programs that been certified by the President of the community college to include the required program requirements listed on the grant application form.			

Part II: Proposed Perkins Performance Level Targets

All recipients are required to accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the core indicators described below. If a recipient elects to negotiate with the state, the recipient must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

<u>Requirements</u>	Meets	Does Not Meet	Comments
1) The recipient has attached the Performance Level Form and has had it signed/certified by the local school administrator(s) and the grant's contact person. 2) The recipient has entered in their Performance Levels for the current fiscal year. 3) If the performance levels are different than the State Negotiated Performance Levels, then rationale has been provided.			

Part III: Description of Processes and Services

1. Describe the process that will be used to evaluate and continuously improve the performance of the eligible recipient.

PL 109-270, Title I, Part C, Section 134(b)(7). (Perkins Act)

<u>Requirements</u>	Meets	Does Not Meet	Comments
1) Description includes the process used to evaluate the performance of career and technical programs offered by the district(s)/college. 2) Description includes the process to continuously improve performance of the programs offered by the district(s)/college.			

2. Describe how the eligible recipient will-
- (A) review career and technical education programs, and identify and adopt strategies to overcome barriers that result in lowering rates of access to or lowering success in the programs, for special populations; (Note: Special populations include single parents and displaced homemakers who are enrolled in CTE programs, among others.)
 - (B) provide programs that are designed to enable special populations to meet the local adjusted levels of performance; and
 - (C) provide activities to prepare special populations, including single parents and displaced homemakers, for high skill, high wage, or high demand occupations that lead to self-sufficiency.

PL 109-270, Title I, Part C, Section 134(b)(8). (Perkins Act)

Requirements	Meets	Does Not Meet	Comments
1) Description explains how career and technical programs are reviewed. 2) Description explains how strategies are identified and adopted to overcome barriers that result in lowering rates of access to or lowering success in the programs for special populations. 3) Description explains how activities are provided to prepare special populations, including single parents and displaced homemakers, for high skill, high wage, or high demand occupations that lead to self-sufficiency.			

3. Describe how parents, students, academic and career and technical education teachers, faculty, administrators, career guidance and academic counselors, representatives of tech prep consortia, representatives of the entities participating in activities described in section 117 of Public Law 105-220, representatives of business (including small business) and industry, labor organizations, representative of special populations and other interested individuals are involved in development, implementation, and evaluation of career and technical education programs assisted under this title, (in the description address: consortium or individual operational procedures, review and the analysis of program performance data, how program evaluation findings are incorporated into the plan, barriers affecting special populations, school improvement or accreditation findings, and other items used to make decisions on proposed activities) and how such individuals and entities are effectively informed about, and assisted in understanding, the requirements of this title, including career and technical programs of study PL 109-270, Title I, Part C, Section 134(b)(5). (Carl D. Perkins Career and Technical Education Act of 2006)

Requirements	Meets	Does Not Meet	Comments
1) Description explains how all stakeholders (see above) are involved in A) Development; B) Implementation; C) Evaluation. 2) Description explains how all stakeholders are informed about and assisted in understanding of the Perkins IV requirements (including career and technical programs of study).			

4. Describe how individuals who are members of special populations will not be discriminated against on the basis of their status as members of the special populations.

PL 109-270, Title I, Part C, Section 134(b)(9). (Perkins Act)

Requirements	Meets	Does Not Meet	Comments
Description explains how individuals who are members of special populations will not be discriminated against on the basis of their status as members of the special populations.			

5. Describe how funds will be used to promote preparation for non-traditional fields.

PL 109-270, Title I, Part C, Section 134(b)(10). (Perkins Act)

Requirements	Meets	Does Not Meet	Comments
Description explains how funds will be used to promote preparation for non-traditional fields.			

6. Describe how career guidance and academic counseling will be provided to career and technical education students, including linkages to future education and training opportunities.

PL 109-270, Title I, Part C, Section 134(b)(11). (Perkins Act)

Requirements	Meets	Does Not Meet	Comments
Description explains how career guidance and academic counseling will be provided to career and technical education students, including linkages to future education and training opportunities.			

7. Describe efforts to improve-

- (A) The recruitment and retention of career and technical education teachers, faculty, and career guidance and academic counselors, including individuals in groups underrepresented in the teaching profession; and
(B) The transition to teaching from business and industry.

PL 109-270, Title I, Part C, Section 134(b)(12). (Perkins Act)

Requirements	Meets	Does Not Meet	Comments
1) Description identifies strategies to improve the recruitment and retention of career and technical education teachers, faculty, and career guidance and academic counselors, including individuals in groups underrepresented in the teaching profession. 2) Description explains how efforts will be made to improve the transition to teaching from business and industry.			

8. If your district has an alternative education school/program, please describe how you will provide CTE programs, guidance and counseling, and support services to those students.

Requirements	Meets	Does Not Meet	Comments
The recipients include a description of how students in alternative education schools/programs are provided with CTE programs, guidance and counseling and support services.			

9. Consortium Members Only: Describe the operational procedures that were utilized to determine the priorities of the consortium and the development of the application and provide oversight of the activities funded by this grant. (Attach a copy of the consortium 28E agreement)

Requirements	Meets	Does Not Meet	Comments
If applicable, the recipients include a description of the process used to determine priorities of the consortium, the development of the application, and a way to communicate and review activities.			

Part IV: Budget Summary

Requirements	Meets	Does Not Meet	Comments
1) Budget Summary is present.			
2) Sum of Budget equals all of the parts.			

Part V: Action Plan for Required Activities

Required Activity #1 – Strengthen the academic and career and technical skills of students participating in career and technical education programs, by strengthening the academic and career and technical education components of such programs through the integration of academics with career and technical programs through a coherent sequence of courses, such as career and technical education programs of study described in section 122(c)(1)(A), to ensure learning in

(A) the core academic subject (as defined in section 9101 of the Elementary and Secondary Education Act of 1965); and

(B) career and technical education subject.

(Section 135 (b)(1) of the Perkins Act of 2006) and/or (Section 134(b)(3)(B))

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to <u>strengthen the academic and career and technical skills of students participating in CTE programs, including strengthening the core academic subjects and CTE subjects</u> through a coherent sequence of courses. (B.1 and B.2)			
2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked)			
3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3)			
4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4)			
5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5)			
6) If the applicant is completing a 5-year application, the other year's funding is estimated.			
7) If applicable, other funding sources are indicated with an (X)			
8) <u>Consortia only:</u> The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #2 – Link career and technical education at the secondary level and career and technical education at the postsecondary level, including offering the relevant elements of **not less than 1 career and technical program of study** described in section 122(c)(1)(A). (State Perkins Plan)

(Action plan must include at least one initiative- that is dedicated to the development or implementation of at least one program of study--See Definitions). The state goal is to develop and implement a minimum of 75% of CTE programs as Programs of Study within the 5-year timeframe of the Carl Perkins Act of 2006. Eligible recipients will describe their timeline and annual activities/steps to show incremental progress toward meeting this goal. Community Colleges must indicate what activities they are engaged in to utilize the 5.4% of their allocation required by the Perkins Plan for linkages with Secondary Schools. *(Section 135(b)(2) of the Perkins Act of 2006) and/or (Section 134(b)(3)(A))*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to link CTE at the secondary level and CTE at the postsecondary level. (B.1 and B.2) 2) Action plan includes a time line and annual activities/ steps to show incremental progress toward meeting the requirement of 75% of CTE programs shall be Programs of Study within 5 years. <u>Note:</u> See definitions for a definition of program of study. 3) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 4) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 5) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 6) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 7) If the applicant is completing a 5-year application, the other year's funding is estimated. 8) Where applicable, other funding sources are indicated with an (X). (B.6) 9) <u>Consortia only:</u> The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #3 – Provide students with strong experience in and understanding of all Aspects of an Industry which may include work-based learning experiences. *(Section 135(b)(3) of the Perkins Act of 2006) and/or (Section 134(b)(3)(C))*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to <u>provide students with strong experience in and understanding of all Aspects of an Industry.</u> 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 6) If the applicant is completing a 5-year application, the other year's funding is estimated. 7) If applicable, other funding sources are indicated with an (X) 8) <u>Consortia only:</u> The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #4 – Develop, improve, or expand the use of technology in career and technical education, which may include-

- (A) training of career and technical education teachers, faculty, and administrators to use technology, which may include distance learning;
- (B) providing career and technical education students with the academic and career and technical skills (including mathematics and science knowledge that provides a strong basis for such skills) that lead to entry into the technology fields; or
- (C) encouraging schools to collaborate with technology industries to offer voluntary internships and mentoring programs, including programs that improve the mathematics and science knowledge of students. *(Section 135(b)(4) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
<p>1) Action plan describes the recipient's initiatives to develop, improve, or expand the use of technology in CTE. Among others, initiatives may include: (1) training of CTE teachers, faculty and administrators to use technology, which may include distance learning; (2) providing CTE students with the academic and career and technical skills (including mathematics and science knowledge that provides a strong basis for such skills) that lead to entry into the technology fields; or (3) encouraging schools to collaborate with technology industries to offer voluntary internships and mentoring programs, including programs that improve the mathematics and science knowledge of students. (B.1 and B.2)</p> <p>2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked)</p> <p>3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3)</p> <p>4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4)</p> <p>5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5)</p> <p>6) If the applicant is completing a 5-year application, the other year's funding is estimated.</p> <p>7) If applicable, other funding sources are indicated with an (X)</p> <p>8) <u>Consortia only</u>: The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)</p>			

Required Activity #5 – Provide professional development programs that are consistent with section 122 (Iowa Perkins Plan) to secondary and/or postsecondary teachers, faculty, administrators, and career guidance and academic counselors who are involved in integrated career and technical education programs, in one or more of the following -

- (A) in-service and pre-service training on-
 - (i) effective integration and use of challenging academic and career and technical education provided jointly with academic teachers to the extent practicable; (ii) effective teaching skills based on research that includes promising practices; (iii) effective practices to improve parental and community involvement; and (iv) effective use of scientifically based research and data to improve instruction;
- (B) support of education programs for teachers of career and technical education in public schools and other public school personnel who are involved in the direct delivery of educational services to career and technical education students, to ensure that such teachers and personnel stay current with all aspects of an industry;
- (C) internship programs that provide relevant business experience; and
- (D) programs designed to train teachers specifically in the effective use and application of technology to improve instruction.

The professional development will be high quality, sustained, research-based, intensive, and classroom focused in order to have a positive and lasting impact on classroom instruction and the teacher's performance in the classroom. *(Section 135(b)(5) of the Perkins Act of 2006) and/or Section 134(b)(4).*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide professional development programs (consistent with Iowa's Perkins plan) to secondary <u>and/or</u> postsecondary teachers, faculty, administrators, and career guidance and academic counselors who are involved in integrated CTE programs. Programs to provide professional development in <u>one or more</u> of the following <u>during the current year</u> : a) In-service and pre-service training; b) Support of education programs for teachers of CTE in public schools and other public school personnel who are involved in the direct delivery of education services to CTE students, to ensure that such teachers and personnel stay current with all aspects of an industry; c) Internship programs that provide relevant business experience; and d) Programs designed to train teachers specifically in the effective use and application of technology to improve instruction. (B.1 and B.2) 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 6) If the applicant is completing a 5-year application, the other year's funding is estimated. 7) If applicable, other funding sources are indicated with an (X)			

8) <u>Consortia only</u> : The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			
--	--	--	--

Required Activity #6 – Develop and implement evaluations of the career and technical education programs carried out with funds under this title, including an assessment of how the needs of special populations are being met. *(Section 135(b)(6) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to develop and implement <u>evaluations</u> of the CTE programs carried out with funds under this title. 2) Action plan <u>must</u> describe an assessment of how the needs of special populations are being met. (B.1 and B.2) 3) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 4) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 5) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 6) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 7) If the applicant is completing a 5-year application, the other year's funding is estimated. 8) If applicable, other funding sources are indicated with an (X) 9) <u>Consortia only</u> : The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #7 – Initiate, improve, expand, and modernize quality career and technical education programs, including relevant technology. *(Section 135(b)(7) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's <u>current year</u> initiatives to address <u>one or more</u> of the following: a) initiate, b) improve, c) expand, and d) modernize quality CTE programs, including relevant technology. (B.1 and B.2) 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 6) If the applicant is completing a 5-year application, the other year's funding is estimated. 7) If applicable, other funding sources are indicated with an (X) 8) <u>Consortia only</u> : The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #8 – Provide services and activities that are of sufficient size, scope, and quality to be effective. *(See part I, page 3, of application for program requirements.) (Applicant may indicate that all of the career and technical education programs offered, taught, and listed in part I meet these requirements and/or describe an activity to improve one or more of the elements.) (Section 135(b)(8) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide services and activities that are of sufficient size, scope, and quality to be effective. (B.1 and B.2) 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 6) If the applicant is completing a 5-year application, the other year's funding is estimated. 7) If applicable, other funding sources are indicated with an (X) 8) <u>Consortia only</u> : The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Required Activity #9 – Provide activities to prepare special populations, including single parents and displaced homemakers who are enrolled in career and technical education programs, for high-skill, high-wage, or high-demand occupations that will lead to self-sufficiency. (*Section 135(b)(9) of the Perkins Act of 2006*)

Note #1: In addressing high-wage, high-skill or high-demand, multiple factors will be considered as eligible recipients develop programs that lead to high-wage, high-skill or high-demand occupations. The state will work with Iowa Workforce Development (Department of Labor) to provide assistance to the eligible recipients regarding regional determination of high-wage, high-skill or high-demand. Iowa Workforce Development determines high-demand on a statewide level as an industry with an annual growth rate of 1.2 percent (1.2%). On a statewide level, high-wage is determined as being above the mean annual wage for employment. Iowa Workforce Development will provide high-skill information on a regional level.

Note #2: Special populations include single parents and displaced homemakers who are enrolled in CTE programs, among others.

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide activities to prepare <u>special populations for high-skill, high-wage, or high-demand occupations that will lead to self-sufficiency.</u> (B.1 and B.2) 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3) 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4) 5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5) 6) If the applicant is completing a 5-year application, the other year's funding is estimated. 7) If applicable, other funding sources are indicated with an (X) 8) <u>Consortia only:</u> The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)			

Part VI: Action Plan for Permissive Activities

(Complete for each permissive activity identified by the recipient)

Permissive Activity # Insert Number ()

Requirements	Meets	Does Not Meet	Comments
<p>1) Action plan describes the recipient's initiatives to accomplish the permissive activity above. (B.1 and B.2)</p> <p>2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked)</p> <p>3) Measurable outcomes are described, including the date(s) of anticipated completion. (B.3)</p> <p>4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. (B.4)</p> <p>5) The application identifies the FY09 Perkins funding amount budgeted for each project/initiative. (B.5)</p> <p>6) If the applicant is completing a 5-year application, the other year's funding is estimated.</p> <p>7) If applicable, other funding sources are indicated with an (X)</p> <p>8) <u>Consortia only</u>: The application describes how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium. (C)</p>			

Part VII: Action Plan for Administrative Costs

Administrative Costs: *(Permissive)* Each eligible recipient receiving funds under this grant award shall not use more than 5 percent of the funds for administrative costs associated with the administration of the activities conducted through the award.

Requirements	Meets	Does Not Meet	Comments
The recipient is budgeting not more than 5 percent of the funds for administrative costs associated with the administration of the activities conducted through the award.			

PART VIII: Assurances/Agreements - Fiscal Year 2008

A. **INDIVIDUAL APPLICANT:** *To receive funds through the Carl D. Perkins Act, the chief executive officer is to sign this assurance statement on behalf of the eligible recipient to certify commitment to abide by these requirements through the period of this grant award*

Requirements	Meets	Does Not Meet	Comments
The chief executive officer has signed the assurance statement.			

OR

B. **CONSORTIUM APPLICANT:** *To receive funds through the Carl D. Perkins Act, the chief executive officer of the fiscal agent and of the consortium member institutions is to sign this assurance statement on behalf of the eligible recipients to certify their commitment to abide by these requirements through the period of this grant award.*

Requirements	Meets	Does Not Meet	Comments
The chief executive officer of the fiscal agent and each consortium member has signed the assurance statement.

Request for Application

Title: Carl D. Perkins Career and Technical Education Basic Grant

CIP Number: 68.05010000

Administrative Code: Secondary Grant: 02-05-11-91, Postsecondary Grant: 03-05-11-91

Eligible Recipients: K-12 Educational Agencies, Community Colleges, or Consortiums of Eligible Recipients

Grant Amount: See allocation tables

Funding Period: July 1, 2008 through June 30, 2009. A five-year application may be completed, but the budget will need to be completed on a yearly basis. All funds allocated within the funding period must be expended by June 30 of that fiscal year.

Funding Source: Carl D. Perkins Career and Technical Education Act of 2006 (PL 109-270, Sections 131 and 132)

CFDA Code: 84.0488A

I. General Information:

Each local education agency and community college is allocated funds based on a formula prescribed by the Act. Eligible recipients may submit a local plan as an individual applicant or as a member of a consortium. To apply as an individual applicant, secondary school districts must have a minimum allocation of \$15,000, and community colleges must have a minimum allocation of \$50,000. A consortium must consist of two or more secondary school districts that have a combined allocation that exceeds \$15,000, or two or more community colleges that have a combined allocation that exceeds \$50,000.

II. Purpose:

“The purpose of the Carl D. Perkins Career and Technical Education Act of 2006 is to develop more fully the academic and career and technical skills of secondary students and postsecondary students who elect to enroll in career and technical education programs by:

1. building on the efforts of states and localities to develop challenging academic standards and technical standards and to assist students in meeting such standards, including preparation for high skill, high wage, or high demand occupations in current or emerging professions;
2. promoting the development of services and activities that integrate rigorous and challenging academic and career and technical instruction, and that link secondary and postsecondary education for participating career and technical education students;
3. increasing State and local flexibility in providing services and activities designed to develop, implement, and improve career and technical education, including tech prep education; and
4. conducting and disseminating national research, and providing information on best practices that improve career and technical education programs, services and activities;
5. providing technical assistance that-
 - promotes leadership, initial preparation, and professional development at the State and local levels; and
 - improves the quality of career and technical education teachers, faculty, administrators, and counselors;
6. supporting partnerships among secondary schools, postsecondary institutions, baccalaureate degree granting institutions, area career and technical education schools, local workforce investment boards, business and industry, and intermediaries; and
7. providing individuals with opportunities throughout their lifetimes to develop, in conjunction with other education and training programs, the knowledge and skills needed to keep the United States competitive. ”

Carl D. Perkins Career and Technical Education Act of 2006, PL 109-270, Title I, Section 2

A summary and the full text of the Carl D. Perkins Career and Technical Education Act of 2006 (PL 109-270) can be viewed on the U.S. Department's website at:

III. Uses of Funds – Required Activities:

General Authority: Each eligible recipient that receives funds under this shall use such funds to improve career and technical education programs. (b) Funds made available to eligible recipients under this part shall be used to support career and technical education programs that- <i>PL 109-270, Section 135(a) and (b)</i>	
<u>R-1</u> <i>(Required)</i>	strengthen the academic and career and technical skills of students participating in career and technical education programs, by strengthening the academic and career and technical education components of such programs through the integration of academics with career and technical programs through a coherent sequence of courses, such as career and technical education programs of study described in section 122(c)(1)(A), to ensure learning in – (A) the core academic subject (as defined in section 9101 of the Elementary and Secondary Education Act of 1965); and (B) career and technical education subjects; <i>PL 109-270, Section 135(b)(1)</i>
<u>R-2</u> <i>(Required)</i>	link career and technical education at secondary level and career and technical education at the postsecondary level, including by offering the relevant elements of not less than 1 career and technical program of study described in section 122(c)(1)(A); <i>PL 109-270, Section 135(b)(2)</i>
<u>R-3</u> <i>(Required)</i>	provide students with strong experience in and understanding of all aspects of an industry, which may include work-base learning experiences. <i>PL 109-270, Section 135(b)(3)</i>
<u>R-4</u> <i>(Required)</i>	develop, improve, or expand the use of technology in career and technical education, which may include- (A) training of career and technical education teachers, faculty, and administrators to use technology, which may include distance learning; (B) providing career and technical education students with the academic and career and technical skills (including mathematics and science knowledge that provides a strong basis for such skills) that lead to entry into the technology fields; or (C) encouraging schools to collaborate with technology industries to offer voluntary internships and mentoring programs, including programs that improve the mathematics and science knowledge of students <i>PL 109-270, Section 135(b)(4)</i>
<u>R-5</u> <i>(Required)</i>	provide professional development programs that are consistent with section 122 to secondary and postsecondary teachers, faculty, administrators, and career guidance and academic counselors who are involved in integrated career and technical education programs, including- (A) in-service and pre-service training on- i. effective integration and use of challenging academic and career and technical education provided jointly with academic teachers to the extent practicable; ii. effective teaching skills based on research that includes promising practices; iii. effective practices to improve parental and community involvement; and iv. effective use of scientifically based research and data to improve instruction; (B) support of education programs for teachers of career and technical education in public schools and other public school personnel who are involved in the direct delivery of educational services to career and technical education students, to the ensure that such teachers and personnel stay current with all aspects of an industry; (C) internship programs that provide relevant business experience; and (D) programs designed to train teachers specifically in the effective use and application of technology to improve instruction; <i>PL 109-270, Section 135(b)(5)</i>
<u>R-6</u> <i>(Required)</i>	develop and implement evaluations of the career and technical education programs carried out with funds under this title, including an assessment of how the needs of special populations are being met;

	<i>PL 109-270, Section 135(b)(6))</i>
<u>R-7</u> (Required)	initiate, improve, expand, and modernize quality career and technical education programs, including relevant technology; <i>PL 109-270, Section 135(b)(7)</i>
<u>R-8</u> (Required)	provide services and activities that are of sufficient size, scope, and quality to be effective; and <i>PL 109-270, Section 135(b)(8))</i>
<u>R-9</u> (Required)	provide activities to prepare special populations, including single parents and displaced homemakers who are enrolled in career and technical education programs, for high skill, high wage, or high demand occupations that will lead to self-sufficiency. <i>PL 109-270, Section 135(b)(9)</i>

IV. Uses of Funds - Permissive Activities:

Funds made available to an eligible recipient under this title may be used- <i>PL 109-270, Section 135, (c)</i>	
<u>P-1</u> (Permissive)	to involve parents, businesses, and labor organizations, as appropriate, in the design, implementation, and evaluation of career and technical education programs authorized under this Title, including establishing effective programs and procedures to enable informed and effective participation in such programs; <i>PL109-270, Section 135, (c)(1)</i>
<u>P-2</u> (Permissive)	to provide career guidance and academic counseling for students participating in career and technical education programs, that- (A) improves graduations rates and provides information on postsecondary and career option, including baccalaureate degree programs, for secondary students, which activities may include the use of graduation and career plans; (B) and provides assistance for postsecondary students, including for adult students who are changing career or updating skills; <i>PL109-270, Section 135, (c)(2)</i>
<u>P-3</u> (Permissive)	for local education and business (including small business) partnerships, including for – (A) work-related experiences for students, such as internships, cooperative education, school-based enterprises, entrepreneurship, and job shadowing that are related to career and technical education programs; (B) adjunct faculty arrangements for qualified industry professionals; and (C) industry experience for teachers and faculty; <i>PL109-270, Section 135, (c)(3)</i>
<u>P-4</u> (Permissive)	to provide programs for special populations; <i>PL109-270, Section 135, (c)(4)</i>
<u>P-5</u> (Permissive)	to assist career and technical student organizations; <i>PL109-270, Section 135, (c)(5)</i>
<u>P-6</u> (Permissive)	for mentoring and support services; <i>PL109-270, Section 135, (c)(6)</i>
<u>P-7</u> (Permissive)	for leasing, purchasing, upgrading or adapting equipment, including instructional aids and publications (including support for library resources) designed to strengthen and support academic and technical skill achievement; <i>PL109-270, Section 135, (c)(a7)</i>
<u>P-8</u> (Permissive)	for teacher preparation programs that the integration of academic and career and technical education and that assist individuals who are interested in becoming career and technical education instructors, including individuals with experience in business and industry; <i>PL109-270, Section 135, (c)(8)</i>
<u>P-9</u> (Permissive)	to develop and expand postsecondary program offerings at times and in formats that are accessible for students, including working students, including through the use of distance education; <i>PL109-270, Section 135, (c)(9)</i>
<u>P-10</u> (Permissive)	to develop initiatives that facilitate the transition of sub baccalaureate career and technical education students into baccalaureate degree programs, including- (A) articulation agreements between sub-baccalaureate degree granting career and technical education postsecondary educational institutions and baccalaureate degree granting postsecondary educational institutions;

	<p>(B) postsecondary dual and concurrent enrollment programs,</p> <p>(C) academic and financial aid counseling for sub-baccalaureate career and technical education students that informs the students of the opportunities for pursuing a baccalaureate degree and advises the students on how to meet any transfer requirements; and</p> <p>(D) other initiatives-</p> <p>(i.) to encourage the pursuit of a baccalaureate degree; and to overcome barriers to enrollment in and completion of baccalaureate degree programs, including geographic and other barriers affecting rural students and special populations;</p> <p><i>PL109-270, Section 135, (c)(10)</i></p>
P-11 (Permissive)	<p>to provide activities to support entrepreneurship education and training;</p> <p><i>PL109-270, Section 135, (c)(1)</i></p>
P-12 (Permissive)	<p>for improving or developing new career and technical education courses, including the development of new proposed career and technical programs of study for consideration by the eligible agency and courses that prepare individuals academically and technically for high skill, high wage, or high demand occupations and dual or concurrent enrollment opportunities by which career and technical education students at the secondary level could obtain postsecondary credit to count towards an associate or baccalaureate degree;</p> <p><i>PL109-270, Section 135, (c)(11)</i></p>
P-13 (Permissive)	<p>to develop and support small, personalized career-themed learning communities;</p> <p><i>PL109-270, Section 135, (c)(13)</i></p>
P-14 (Permissive)	<p>to provide support for family and summer sciences programs;</p> <p><i>PL109-270, Section 135, (c)(14)</i></p>
P-15 (Permissive)	<p>To provide career and technical education programs for adults and school dropouts to complete the secondary school education, or upgrade the technical skills, of the adults and school dropouts;</p> <p><i>PL109-270, Section 135, (c)(51)</i></p>
P-16 (Permissive)	<p>to provide assistance to students who have participated in services and activities under this Act in continuing their education or finding an appropriate job, such as through referral to the system established under section 121 of Public Law 105-220 (29 U.S.C 2801 ET SEQ.);</p> <p><i>PL109-270, Section 135, (c)(16)</i></p>
P-17 (Permissive)	<p>to support training and activities (such as mentoring and outreach) in nontraditional fields;</p> <p><i>PL109-270, Section 135, (c)(17)</i></p>
P-18 (Permissive)	<p>to provide support for training for programs in automotive technologies;</p> <p><i>PL109-270, Section 135, (c)(18)</i></p>
P-19 (Permissive)	<p>to pool a portion of such funds with a portion of funds available to not less than 1 other eligible recipient for innovative initiatives which may include-</p> <p>(A) improving the initial preparation and professional development of career and technical education teachers, faculty, administrators, and counselors;</p> <p>(B) establishing, enhancing, or supporting systems for –</p> <p>(i) accountability data collection under this Act; or</p> <p>(ii) reporting data under this Act;</p> <p>(C) Implementing career and technical programs of study described in section 122(c)(1)(A); or</p> <p>(D) Implementing technical assessments; and</p> <p><i>PL109-270, Section 135, (c)(19)</i></p>
P-20 (Permissive)	<p>to support other career and technical education activities that are consistent with the purpose of this Act.</p> <p><i>PL109-270, Section 135, (c)(20)</i></p>
P-A (Permissive)	<p>Each eligible recipient receiving funds under this part shall not use more than 5 percent of the funds for administrative costs associated with the administration of activities assisted under this section.</p> <p><i>PL109-270, Section 135, (c)(1)</i></p>

V. Accountability Requirements - Performance Indicators:

A Perkins Performance report with the FY 07 baseline performance data was sent to each recipient of funds through the Carl D. Perkins Career and Technical Education Act of 2006. This report included an aggregated performance level for each of the performance indicators based on student performance of students enrolled in the recipient's career and technical education programs during the 2006-07 academic year. These data are the baseline data for the recipient for its FY 2009-13 Perkins grant application.

The report also included the State's Negotiated Performance Level target for each of the performance indicators. Recipients may accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the core indicators described below. If a recipient elects to negotiate with the state, it must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

Complete the report by entering the proposed performance level target for each performance indicator and supportive rationale for the proposed performance target. The proposed performance target may be either the State Negotiated Performance Level or a locally determined performance level that demonstrate continuous progress.

The completed report is to be submitted with recipient's FY 09-13 Perkins application. **THIS FORM WILL NEED TO BE SUBMITTED YEARLY WITH NEW PERFORMANCE TARGETS**

VI. Application Process:

Each local education agency and community college is annually allocated funds based on a formula prescribed by the Perkins Act. See the FY09 allocation tables in section IX of this manual for the amount of funds that have been allocated to each K-12 educational agency or community college per the prescribed formulas. Each local education agency and community college can choose to submit a one-year application or a five-year application.

- ◆ Eligible recipients may submit an application as an individual applicant or as a member of a consortium. To apply as an individual applicant, secondary school districts must have a minimum allocation of \$15,000. Community colleges must have a minimum allocation of \$50,000. A consortium must consist of two or more secondary school districts having a combined allocation that exceeds \$15,000; or two or more community colleges that have a combined allocation that exceeds \$50,000.
- ◆ Section 131(f)(2) and section 132(a)(3)/(B) of the Perkins Act states “Funds allocated to a consortium formed to meet the requirements of this subsection shall be used only for purposes and programs that are mutually beneficial to all members of the consortium and can be used only for programs authorized under this Title. Such funds shall not be reallocated to individual members of the consortium for purposes or programs benefiting only one member of the consortium.”
- ◆ Allowable uses of funds information is identified in Section V of this manual.
- ◆ Performance data indicator accountability reporting is required on all students enrolled in all career and technical education programs offered in each school district, consortium, or community college (Table 5)
- ◆ Applications will be reviewed for approval as received. To ensure approval of the application prior to the new fiscal year, July 1, 2008, it is necessary to **submit an ORIGINAL and ONE copy of the completed application by June 1, 2008, to:**

VII. Definitions:

Basic Grant Program Requirements-Secondary Programs:

A secondary career and technical education program must:

- include a minimum of three sequential units; (each district must offer at least one program in four different service areas)
- be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- be articulated with one or more postsecondary programs of study;
- include field, laboratory, clinical, or on-the-job training component; and
- have an active advisory committee composed of employers, and employees from the field the program(s) is preparing individuals to enter. (Iowa code 258.9)

Iowa Code 218-IAC 12.5(5)(i)

Basic Grant Program Requirements-Post-Secondary Programs:

A postsecondary career and technical education program must:

- include a minimum of 15 and not more than 86 credit hours of instruction;
- be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- include field, laboratory, clinical, or on-the-job training component;
- have an active advisory committee composed of employers and employees from the field the program(s) is preparing individuals to enter; and;
- culminate with a certificate, diploma, or degree.

Iowa Code 281-21 & 46.

Tech Prep Program Structure:

In order to receive tech prep funds, each eligible program must be part of a consortium agreement.

The state of Iowa is divided into 15 merged educational regions, each served by a community college.

Another entity, area education agencies (AEAs), provides support services to respective K-12 districts (local education agencies).

The consortium agreement must include a respective area education agency, community college, and K-12 district. A second requirement for tech prep funding is that all local education agencies (LEAs) within the area must be invited and encouraged to be a member of the Tech Prep consortium. An articulation agreement delineating the responsibilities of the consortium for establishing and operating tech prep programs must be signed by the superintendent of each participating secondary district. Official representatives of the area education agency and community college as well as regional board chair also sign the agreement. If a secondary district elects not to participate in the consortium, an affidavit to that effect must be signed.

Tech Prep consortia will be encouraged to utilize a regional advisory board as the consortia members develop the regional tech prep plan. The regional advisory board would be encouraged to contain representatives from the following groups: the AEA, community college, K-12 districts, parents, business, industry, labor, workforce development, economic development, and chambers of commerce.

Minutes of the regional advisory board meetings would be made available to all consortia members. An annual report shall be distributed to member stakeholders to help foster ongoing improvement of tech prep programs.

The regional advisory board has responsibility to review the development of the plan and provide assistance in the implementation of the regional tech prep activities.

All program elements defined in the Tech Prep section of the Carl Perkins Act of 2006 are included in the work of the consortium. The regional advisory board chair must also sign the annual tech prep grant application and ensures that board is included in the process.

Tech Prep

Tech prep programs will assist students in meeting high academic standards through the integration of academic skills into the scope and sequence of career and technical programs. Since tech prep programs in Iowa are part of the comprehensive high school structure, tech prep students must complete the same minimum general studies (academic) course requirements

established for all secondary students for graduation.

Instructional modality and methodology will provide learning experiences that challenge students to high levels of academic attainment. Assessments used in accordance with NCLB legislation will document student learning progress and attainment. The Iowa Tests of Educational Development (ITEDs) are used within the state to measure student learning.

The development, design, and delivery of tech prep shall integrate programs of study and follow the Iowa Tech Prep Model which has the following components:

- Non-duplicative sequence of three or more units of CTE courses.
- Competency-based (skill standards) instruction.
- Articulation with postsecondary programs leading to an associate's degree or two-year certificate.
- Foster and include opportunities for secondary students to concurrently enroll in postsecondary courses.
- Academic courses in mathematics, science, and/or *communications*.
- Includes employability, leadership, and may include entrepreneurial components; may employ worksite learning experiences in conjunction with all aspects of an industry.

Educational technology and distance learning modalities will be encouraged and used where applicable and conducive to student learning styles. Tech Prep courses are offered through distance learning/web-based delivery as well as the interactive Iowa Communications Network (ICN).

Career Academy

A career academy means a program of study that combines a minimum of two years of secondary education with an associate degree in a career preparatory program. A diploma or certificate may be provided as options within the associate degree program. The career academy is a program of study that is nonduplicative, sequential, and ensures that the course of study is skill standards-based, integrates academic and technical instruction, utilizes work-based and work site learning where appropriate and available, utilizes an individual career planning process with parent involvement, and prepares an individual for entry and advancement in a high-skill and rewarding career field as specified in 2003 Iowa Acts, First Extraordinary Session, chapter 2, section 76. A career academy may include articulation of the community college associate degree to a baccalaureate degree. "Nonduplicative" means that the postsecondary component of the career academy is not currently offered at a participating secondary school.

The career academy should strengthen the academic component of career and technical education through the integration of academic and career and technical education; build student competence in mathematics, science, and communications in a coherent sequence of courses; and lead to an associate degree that prepares an individual for entry and advancement in a high-skills and rewarding career field that may include further education.

Iowa Code 281-47.1(260C)

Program of Study:

Programs of Study in Iowa must meet the following requirements:

- Be consistent with Iowa Code for secondary and postsecondary schools and the State Board of Education approved CTE program approval requirements and procedures. Specific guidelines can be found in Iowa Code as identified here: (Iowa Code 256.11(5) h; 258.3A; 258.4; 281-46(258); 281-21.45(2 & 6) and 281-24.5(3- 6) (Requirements for Vocational Education); 260C.14 and 260.18A 281-47.2(260C) (Requirements for Career Academies).
- In accordance with Iowa Code, career and technical programs of study will consist of coherent and rigorous curriculum that:
 - Includes academic and technical content,
 - Is a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education, and
 - Adequately prepares students to succeed in postsecondary education leading to an industry recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- All secondary students must meet the same high school graduation requirements as per Iowa Code 256.7(26).
- The secondary career and technical education programs of study may include concurrent enrollment opportunities for postsecondary credit. As part of the needs assessment process, local school districts and community colleges shall evaluate opportunities for concurrent enrollment.
- Career and technical education programs of study must include a sequence of at least three units of CTE coursework offered to the secondary level and linked to postsecondary education leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied

<p>Science (AAS) or Associate of Science (AS) with a career option in a specific career field.</p> <ul style="list-style-type: none"> • The career and technical education programs of study must be competency based and include applied learning that contributes to academic knowledge, higher-order thinking skills, reasoning and problem-solving skills, work attitudes, general employability skills, leadership, and knowledge of all aspects of the industry including entrepreneurship. • Career and Technical Programs must have an advisory committee with representation of secondary and postsecondary levels of instruction as well as business and industry as applicable. The state board has adopted rules requiring that the memberships of local advisory councils fairly represent each sex and minorities residing in the school district. • Career and technical programs will be evaluated through an annual review of the Perkins performance requirements for academic and technical attainment, placement and retention data, degree attainment data, and nontraditional career data for secondary and postsecondary programs. In addition, Iowa Code requires a more in-depth review of 20 percent of all CTE programs annually.
<p><u>High-wage, high-skill, or high-demand occupations</u></p> <p>In addressing high-wage, high-skill, or high-demand, multiple factors will be considered as eligible recipients develop and offer programs that lead to high-wage, high-skill, or high-demand occupations. The state will collaborate with Iowa Workforce Development (Department of Labor) to provide assistance to the eligible recipients regarding regional determination of high-wage, high-skills, or high demand occupations. Iowa Workforce Development (IWD) determines high-demand on a statewide level as an industry with an annual growth rate of 1.2 percent (1.2%). High-wage is determined on a regional level as being above the mean annual wage for employment. IWD can provide high-skill information on a regional level. IWD routinely surveys regional industries to determine skills needed for workforce enhancement and development. Such data is used by educational stakeholders to project new or revise existing career and technical programs of study.</p>

**FY09 Local Application for Funds
Table of Contents**

• Cover Page Identifying the Eligible Recipient (s)	1
This item identifies the eligible recipient's fiscal agent and contact persons.	
• Definitions	3-6
This item gives some pertinent definitions – see instruction page for more	
• Part I: List of Career and Technical Education Programs	7
This item identifies the career and technical education programs that will be offered by the eligible recipient during the grant's funding period.	
• Part II: Proposed Perkins Performance Level Targets	8
This item identifies the level for each performance indicator that the eligible recipient proposes to meet during the grant's funding period.	
• Part III: Description of Processes and Services	9-10
This item identifies how the eligible recipient will address system-wide requirements during the grant's funding period.	
• Part IV: Budget Summary	11
This item provides summative information concerning the proposed uses of funds during the grant's funding period.	
• Part V: Action Plans for Required Activities	12-20
This item describes the required activities their projected budgets that will be conducted during the grant's funding period.	
• Part VI: Action Plan for Permissive Activities	21
This item describes the permissive activities their projected budgets that will be conducted during the grant's funding period	
• Part VII: Action Plan for Administrative Costs	22
This item describes the administrative costs that will be charged to the grant award during the grant's funding period.	
• Part VIII: Assurances/Agreements	23-26
This item identifies the eligible recipients (individual applicants or members of the consortium) and certifies the required assurances/agreements.	

Applications will be reviewed for approval as received. To ensure approval of the application prior to the new fiscal year, July 1, 2008, it is necessary to **submit an ORIGINAL and ONE copy of the completed application by June 1, 2008, to:**

Basic Grant Program Requirements-Secondary Programs:

A secondary career and technical education program must:

- include a minimum of three sequential units; (each district must offer at least one program in four different service area) be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- be articulated with one or more postsecondary programs of study;
- include field, laboratory, clinical, or on-the-job training component; and
- have an active advisory committee composed of employers, and employees from the field the program(s) is preparing individuals to enter. (Iowa code 258.9)

Iowa Code 218-IAC 12.5(5)(i)

Basic Grant Program Requirements-Post-Secondary Programs:

A postsecondary career and technical education program must:

- include a minimum of 15 and not more than 86 credit hours of instruction;
- be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- include field, laboratory, clinical, or on-the-job training component;
- have an active advisory committee composed of employers and employees from the field the program(s) is preparing individuals to enter; and;
- culminate with a certificate, diploma, or degree.

Iowa Code 281-21 & 46.

Tech Prep Program Structure:

In order to receive tech prep funds, each eligible program must be part of a consortium agreement.

The state of Iowa is divided into 15 merged educational regions, each served by a community college.

Another entity, area education agencies (AEAs), provides support services to respective K-12 districts (local education agencies).

The consortium agreement must include a respective area education agency, community college, and K-12 district. A second requirement for tech prep funding is that all local education agencies (LEAs) within the area must be invited and encouraged to be a member of the Tech Prep consortium. An articulation agreement delineating the responsibilities of the consortium for establishing and operating tech prep programs must be signed by the superintendent of each participating secondary district. Official representatives of the area education agency and community college as well as regional board chair also sign the agreement. If a secondary district elects not to participate in the consortium, an affidavit to that effect must be signed.

Tech Prep consortia will be encouraged to utilize a regional advisory board as the consortia members develop the regional tech prep plan. The regional advisory board would be encouraged to contain representatives from the following groups: the AEA, community college, K-12 districts, parents, business, industry, labor, workforce development, economic development, and chambers of commerce.

Minutes of the regional advisory board meetings would be made available to all consortia members. An annual report shall be distributed to member stakeholders to help foster ongoing improvement of tech prep programs.

The regional advisory board has responsibility to review the development of the plan and provide assistance in the implementation of the regional tech prep activities.

All program elements defined in the Tech Prep section of the Carl Perkins Act of 2006 are included in the work of the consortium. The regional advisory board chair must also sign the annual tech prep grant application and ensures that board is included in the process.

Tech Prep

Tech prep programs will assist students in meeting high academic standards through the integration of academic skills into the scope and sequence of career and technical programs. Since tech prep programs in Iowa are part of the comprehensive

high school structure, tech prep students must complete the same minimum general studies (academic) course requirements established for all secondary students for graduation.

Instructional modality and methodology will provide learning experiences that challenge students to high levels of academic attainment. Assessments used in accordance with NCLB legislation will document student learning progress and attainment. The Iowa Tests of Educational Development (ITEDs) are used within the state to measure student learning.

The development, design, and delivery of tech prep shall integrate programs of study and follow the Iowa Tech Prep Model which has the following components:

- Non-duplicative sequence of three or more units of CTE courses.
- Competency-based (skill standards) instruction.
- Articulation with postsecondary programs leading to an associate's degree or two-year certificate.
- Foster and include opportunities for secondary students to concurrently enroll in postsecondary courses.
- Academic courses in mathematics, science, and/or *communications*.
- Includes employability, leadership, and may include entrepreneurial components; may employ worksite learning experiences in conjunction with all aspects of an industry.

Educational technology and distance learning modalities will be encouraged and used where applicable and conducive to student learning styles. Tech Prep courses are offered through distance learning/web-based delivery as well as the interactive Iowa Communications Network (ICN).

Career Academy

A career academy means a program of study that combines a minimum of two years of secondary education with an associate degree in a career preparatory program. A diploma or certificate may be provided as options within the associate degree program. The career academy is a program of study that is nonduplicative, sequential, and ensures that the course of study is skill standards-based, integrates academic and technical instruction, utilizes work-based and work site learning where appropriate and available, utilizes an individual career planning process with parent involvement, and prepares an individual for entry and advancement in a high-skill and rewarding career field as specified in 2003 Iowa Acts, First Extraordinary Session, chapter 2, section 76. A career academy may include articulation of the community college associate degree to a baccalaureate degree. "Nonduplicative" means that the postsecondary component of the career academy is not currently offered at a participating secondary school.

The career academy should strengthen the academic component of career and technical education through the integration of academic and career and technical education; build student competence in mathematics, science, and communications in a coherent sequence of courses; and lead to an associate degree that prepares an individual for entry and advancement in a high-skills and rewarding career field that may include further education.

Iowa Code 281-47.1(260C)

Program of Study:

Programs of Study in Iowa must meet the following requirements:

- Be consistent with Iowa Code for secondary and postsecondary schools and the State Board of Education approved CTE program approval requirements and procedures. Specific guidelines can be found in Iowa Code as identified here: (Iowa Code 256.11(5) h; 258.3A; 258.4; 281-46(258); 281-21.45(2 & 6) and 281-24.5(3- 6) (Requirements for Vocational Education); 260C.14 and 260.18A 281-47.2(260C) (Requirements for Career Academies).
- In accordance with Iowa Code, career and technical programs of study will consist of coherent and rigorous curriculum that:
 - Includes academic and technical content,
 - Is a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education, and
 - Adequately prepares students to succeed in postsecondary education leading to an industry recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- All secondary students must meet the same high school graduation requirements as per Iowa Code 256.7(26).
- The secondary career and technical education programs of study may include concurrent enrollment opportunities for postsecondary credit. As part of the needs assessment process, local school districts and community colleges shall evaluate opportunities for concurrent enrollment.
- Career and technical education programs of study must include a sequence of at least three units of CTE coursework offered to the secondary level and linked to postsecondary education leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.

- The career and technical education programs of study must be competency based and include applied learning that contributes to academic knowledge, higher-order thinking skills, reasoning and problem-solving skills, work attitudes, general employability skills, leadership, and knowledge of all aspects of the industry including entrepreneurship.
- Career and Technical Programs must have an advisory committee with representation of secondary and postsecondary levels of instruction as well as business and industry as applicable. The state board has adopted rules requiring that the memberships of local advisory councils fairly represent each sex and minorities residing in the school district.
- Career and technical programs will be evaluated through an annual review of the Perkins performance requirements for academic and technical attainment, placement and retention data, degree attainment data, and nontraditional career data for secondary and postsecondary programs. In addition, Iowa Code requires a more in-depth review of 20 percent of all CTE programs annually

High-wage, high-skill, or high-demand occupations

In addressing high-wage, high-skill, or high-demand, multiple factors will be considered as eligible recipients develop and offer programs that lead to high-wage, high-skill, or high-demand occupations. The state will collaborate with Iowa Workforce Development (Department of Labor) to provide assistance to the eligible recipients regarding regional determination of high-wage, high-skill, or high-demand occupations. Iowa Workforce Development (IWD) determines high-demand on a statewide level as an industry with an annual growth rate of 1.2 percent (1.2%). High-wage is determined on a regional level as being above the mean annual wage for employment. IWD can provide high-skill information on a regional level. IWD routinely surveys regional industries to determine skills needed for workforce enhancement and development. Such data is used by educational stakeholders to project new or revise existing career and technical programs of study.

Participant

Secondary Level—A secondary student who has earned one half (0.5) or more units in any career and technical education program area.

Postsecondary Level—A post-secondary student who has been accepted in a career and technical education program and has earned one (1) or more credits in technical core of the career and technical education program in the student is enrolled.

Concentrator

Secondary Level—A secondary student who has earned one and a half (1.5) or more units in a single career and technical education program area (e.g. Agriculture sciences, health science).

Postsecondary Level—A post-secondary student who: 1.) has been accepted in a career and technical education program; and 2.) completes at least twelve (12) credits of the technical core in the career and technical education program that terminates with an award of an industry-recognized credential, a certificate, or a degree; or 3.) completes a short-term career and technical education program sequence of less than 12 credits that terminates with an award of an industry-recognized credential, or a certificate

Special populations

- individuals with disabilities
- individuals from economically disadvantaged families, including foster children
- individuals preparing for non-traditional fields
- single parents, including single pregnant women
- displaced homemakers
- individuals with limited English proficiency

Part I: List of Career and Technical Education Programs

Attach a list of career and technical education programs to be offered by the grant recipient (consortium applications must include a list of all programs offered by all members of the consortium) in the initial year of the application (FY 09).

A list of career and technical education programs offered by each community/district and the community college during the previous academic year was forwarded to each community college president/local school administrator with the announcement of the FY 09-13 Perkins application process. Review, revise as necessary, and attach this list to the application.

- (a) Secondary grant recipient's program list(s) must be certified by the local school administrator(s), the grant's contact person, and the regional tech prep coordinator that the district will be offering the programs on the list during the 08-09 academic year and that the programs include the required program elements as listed below.
- (b) The Secondary form will include a space after the Tech Prep identified programs so you can identify the community college programs with which they are linked. Indicate the programs by the letter of the program from the list provided to you with the application.
- (c) Post-secondary grant recipients must include a list of post-secondary programs that been certified by the President of the community college to include the required program requirements listed below.

Program Requirements:

- A secondary career and technical education program must:
 - include a minimum of three sequential units; (each district must offer at least one program in four different service areas)
 - be competency-based;
 - include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
 - be articulated with one or more postsecondary programs of study;
 - include field, laboratory, clinical, or on-the-job training component;
 - have an active advisory committee composed of employers, and employees from the field the program(s) is preparing individuals to enter

Source: Iowa Administrative Code: Chptr.281-12.5(5)
- A postsecondary career and technical education program must:
 - include a minimum of 15 and not more than 86 credit hours of instruction;
 - be competency-based;
 - include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
 - include field, laboratory, clinical, or on-the-job training component;
 - have an active advisory committee composed of employers and employees from the field the program(s) is preparing individuals to enter;
 - culminate with a certificate, diploma, or degree

Source: Iowa Administrative Code: Chptr.281-21.4(2&6) & 281-21.45(3-6)

Part II: Proposed Perkins Performance Level Targets

Attach list of the proposed performance levels for FY 09 10 for each of the required Perkins Performance Indicators.

A Perkins Performance report with the FY 07 baseline performance data was sent to each recipient of funds through the Carl D. Perkins Career and Technical Education Act of 2006. This report included an aggregated performance level for each of the performance indicators based on student performance of students enrolled in the recipient's career and technical education programs during the 2006-07 academic year. These data are the baseline data for the recipient for its FY 2009-13 Perkins grant application.

The report also included the State's Negotiated Performance Level target for each of the performance indicators. Recipients may accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the core indicators described below. If a recipient elects to negotiate with the state, it must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

Complete the report by entering the proposed performance level target for each performance indicator and supportive rationale for the proposed performance target. The proposed performance target may be either the State Negotiated Performance Level or a locally determined performance level that demonstrate continuous progress.

The completed report is to be submitted with recipient's FY 09-13 Perkins application. **THIS FORM WILL NEED TO BE SUBMITTED YEARLY WITH NEW PERFORMANCE TARGETS**

Part III: Description of Processes and Services

1. *Describe the process that will be used to evaluate and continuously improve the performance of the eligible recipient.*
PL 109-270, Title I, Part C, Section 134(b)(7). (Carl D. Perkins Career and Technical Education Act of 2006)
2. *Describe how the eligible recipient will-*
 - (A) *review career and technical education programs to identify and adopt strategies to overcome barriers that result in lowering rates of access to or lowering success in the programs for special populations;*
 - (B) *provide activities that are designed to enable special populations to meet the local adjusted levels of performance; and*
 - (C) *provide activities to prepare special populations, including single parents and displaced homemakers, for high skill, high wage, or high demand occupations that lead to self-sufficiency.**PL 109-270, Title I, Part C, Section 134(b)(8). (Carl D. Perkins Career and Technical Education Act of 2006)*
3. *Describe how parents, students, academic and career and technical education teachers, faculty, administrators, career guidance and academic counselors, representatives of tech prep consortia, representatives of the entities participating in activities described in section 117 of Public Law 105-220, representatives of business (including small business) and industry, labor organizations, representative of special populations and other interested individuals are involved in development, implementation, and evaluation of career and technical education programs assisted under this title, (in the description address: consortium or individual operational procedures, review and the analysis of program performance data, how program evaluation findings are incorporated into the plan, barriers affecting special populations, school improvement or accreditation findings, and other items used to make decisions on proposed activities) and how such individuals and entities are effectively informed about, and assisted in understanding, the requirements of this title, including career and technical programs of study* PL 109-270, Title I, Part C, Section 134(b)(5). (Carl D. Perkins Career and Technical Education Act of 2006)
4. *Describe how individuals who are members of special populations will not be discriminated against on the basis of their status as members of the special populations.*
PL 109-270, Title I, Part C, Section 134(b)(9). (Carl D. Perkins Career and Technical Education Act of 2006)
5. *Describe how funds will be used to promote preparation for non-traditional fields.*
PL 109-270, Title I, Part C, Section 134(b)(10). (Carl D. Perkins Career and Technical Education Act of 2006)
6. *Describe how career guidance and academic counseling will be provided to career and technical education students, including linkages to future education and training opportunities.*
PL 109-270, Title I, Part C, Section 134(b)(11). (Carl D. Perkins Career and Technical Education Act of 2006)

7. *Describe efforts to improve-*
 - (A) *the recruitment and retention of career and technical education teachers, faculty, and career guidance and academic counselors, including individuals in groups underrepresented in the teaching profession; and*
 - (B) *the transition to teaching from business and industry.*

PL 109-270, Title I, Part C, Section 134(b)(12). (Carl D. Perkins Career and Technical Education Act of 2006)

8. *If your district has an alternative education school/program, please describe how you will provide CTE programs, guidance and counseling, and support services to those students.*

PL 109-270, Title I, Part C, Section 122(c)(13). Carl D. Perkins Career and Technical Education Act of 2006

9. **CONSORTIUM MEMBERS ONLY:** *Describe the operational procedures that were utilized to determine the priorities of the consortium and the development of the application and provide oversight of the activities funded by this grant. (Attach a copy of the consortium 28E agreement). (Code of Iowa 28E)*

PART IV: BUDGET SUMMARY - Fiscal Year 2009

- *Please note that if you are submitting a 5-year plan that the Budget will need to be submitted annually.*
- *All funds allocated within the funding period must be expended by June 30 of that fiscal year*

Enter the amount projected to be expended for each of the required activities and each permissive activity selected for use of funds received through this grant award.

Projected amount to expended for each required and permissive activity <i>(Total from each Action Plan)</i>	FY09 Budget Perkins
Required Activities:	
R-1: Integration of academics and career and technical education	
R-2: Linkage of secondary and postsecondary career and technical programs	
R-3: All aspects of an industry	
R-4: Use of technology	
R-5: Professional development	
R-6: Evaluation of career and technical education program(s)	
R-7: Initiate, improve, expand and modernize career and technical education	
R-8: Sufficient size, scope, and quality to be effective	
R-9: Activities to prepare special populations	
Sub-total for Required uses of funds;	
Permissive Activities:	
P-1: Involvement of parents, businesses, and labor organizations	
P-2: Provide career guidance and academic counseling	
P-3: Education and business partnerships	
P-4: Provide programs for special populations	
P-5: Assist career and technical student organizations	
P-6: Mentoring and support services	
P-7: Leasing, purchasing, upgrading or adapting instructional equipment	
P-8: Teacher preparation	
P-9: Develop and expand accessible postsecondary program offerings	
P-10: Facilitate the transition of students to baccalaureate degree programs	
P-11: Entrepreneurship education and training	
P-12: Improvement or developing new career and technical education courses	
P-13: Develop and support small, personalized career-learning communities	
P-14: Support for family and consumer sciences programs	
P-15: Programs for adults and school dropouts	
P-16: Assistance in continuing education or training or finding an appropriate job	
P-17: Support training in non-traditional fields	
P-18: Support for training programs in automotive technologies	
P-19: Pool funds with other eligible recipients for innovative initiatives	
P-20: Support other career and technical education activities consistent with Perkins Act	
Sub-total for Permissive uses of funds:	
Administrative Costs:	
A-1: Administrative Costs (not to exceed 5% of the total grant award)	
FY09 Application Total	\$.00

Part V: Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

All eligible recipients (individually or as a member of a consortium) must conduct at least one initiative for each of the required activities listed below within the timeframe the funds are available to the recipient. A recipient may utilize funds received through this application or other funds available to the recipient to pay for the costs incurred conducting the initiative.

Required Activity # 1: Strengthen the academic and career and technical skills of students participating in career and technical education programs, by strengthening the academic and career and technical education components of such programs through the integration of academics with career and technical programs through a coherent sequence of courses, such as career and technical education programs of study described in section 122(c)(1)(A), to ensure learning in

(A) the core academic subject (as defined in section 9101 of the Elementary and Secondary Education Act of 1965); and

(B) career and technical education subject.

(Section 135 (b)(1) of the Perkins Act of 2006) and/or (Section 134(b)(3)(B))

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: *(Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):*

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 2: Link career and technical education at the secondary level and career and technical education at the postsecondary level, including offering the relevant elements of not less than 1 career and technical program of study described in section 122(c)(1)(A). (State Perkins Plan)
(Action plan must include at least one initiative- that is dedicated to the development or implementation of at least one program of study--See Definitions). The state goal is to develop and implement a minimum of 75% of CTE programs as Programs of Study within the 5-year timeframe of the Carl Perkins Act of 2006. Eligible recipients will describe their timeline and annual activities/steps to show incremental progress toward meeting this goal. Community Colleges must indicate what activities they are engaged in to utilize the 5.4% of their allocation required by the Perkins Plan for linkages with Secondary Schools. (Section 135(b)(2) of the Perkins Act of 2006) and/or (Section 134(b)(3)(A))

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13

	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 3: Provide students with strong experience in and understanding of all Aspects of an Industry http://www.iowa.gov/educate/index2.php?option=com_docman&task=doc_view&gid=271&Itemid=99999999, which may include work-based learning experiences. (Section 135(b)(3) of the Perkins Act of 2006) and/or (Section 134(b)(3)(C))

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

- Required Activity # 4:** Develop, improve, or expand the use of technology in career and technical education, which may include-
- (A) training of career and technical education teachers, faculty, and administrators to use technology, which may include distance learning;
 - (B) providing career and technical education students with the academic and career and technical skills (including mathematics and science knowledge that provides a strong basis for such skills) that lead to entry into the technology fields; or
 - (C) encouraging schools to collaborate with technology industries to offer voluntary internships and mentoring programs, including programs that improve the mathematics and science knowledge of students. *(Section 135(b)(4) of the Perkins Act of 2006)*

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: *(Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):*

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 5: Provide professional development programs that are consistent with section 122 (Iowa Perkins Plan) to secondary and/or postsecondary teachers, faculty, administrators, and career guidance and academic counselors who are involved in integrated career and technical education programs, in one or more of the following -

(A) in-service and pre-service training on-

(i) effective integration and use of challenging academic and career and technical education provided jointly with academic teachers to the extent practicable; (ii) effective teaching skills based on research that includes promising practices; (iii) effective practices to improve parental and community involvement; and (iv) effective use of scientifically based research and data to improve instruction;

(B) support of education programs for teachers of career and technical education in public schools and other public school personnel who are involved in the direct delivery of educational services to career and technical education students, to ensure that such teachers and personnel stay current with all aspects of an industry;

(C) internship programs that provide relevant business experience; and

(D) programs designed to train teachers specifically in the effective use and application of technology to improve instruction.

The professional development will be high quality, sustained, research-based, intensive, and classroom focused in order to have a positive and lasting impact on classroom instruction and the teacher's performance in the classroom. (Section 135(b)(5) of the Perkins Act of 2006) and/or Section 134(b)(4).

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 6: Develop and implement evaluations of the career and technical education programs carried out with funds under this title, including an assessment of how the needs of special populations are being met. *(Section 135(b)(6) of the Perkins Act of 2006)*

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - *Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):*

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 7: Initiate, improve, expand, and modernize quality career and technical education programs, including relevant technology. (Section 135(b)(7) of the Perkins Act of 2006)

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 8: Provide services and activities that are of sufficient size, scope, and quality to be effective. (See part I, page 3, of application for program requirements.) (Applicant may indicate that all of the career and technical education programs offered, taught, and listed in part I meet these requirements and/or describe an activity to improve one or more of the elements.) (Section 135(b)(8) of the Perkins Act of 2006)

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part V (Cont): Action Plan for Required Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Required Activity # 9: Provide activities to prepare special populations, including single parents and displaced homemakers who are enrolled in career and technical education programs, for high-skill, high-wage, or high-demand occupations that will lead to self-sufficiency.
(Section 135(b)(9) of the Perkins Act of 2006)

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part VI: Action Plan for Permissive Activities - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Permissive Activity: *(List the permissive use of funds category and code under which this activity is being conducted. For a complete list of permissive uses of funds, see the instructional manual or budget summary page. Complete one action plan for each permissive use of funds in which funds will be utilized. (Section 135 (c)(1-20) of the Perkins Act of 2006)*

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)							For 5-Year Plan - Estimated				
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - *Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):*

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part VII: Action Plan for Administrative Costs - **If you are completing a 5-year plan, resubmit this form annually only if changes are made.

Administrative Costs: *(Permissive) Each eligible recipient receiving funds under this grant award shall not use more than 5 percent of the funds for administrative costs associated with the administration of activities conducted through the award. (Section 135(d) of the Perkins Act of 2006)*

Description of the initiative(s) to be conducted:

	Indicate Years for Initiative (X)					For 5-Year Plan - Estimated						
								Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)				
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

C. Consortium Only - *Description of how these activities will be utilized for purposes and programs that are mutually beneficial for all members of the consortium: (Required for consortium applications only) PL 109-270, Title I, Part C, Section 131(f)(2):*

(Duplicate this form as necessary for initiatives conducted per this requirement.)

PART VIII: Assurances/Agreements - Fiscal Year 2009

A. INDIVIDUAL APPLICANT: *To receive funds through the Carl D. Perkins Act, the chief executive officer must sign this assurance statement on behalf of the eligible recipient to certify commitment to abide by these requirements through the period of this grant award.*

1. The local education agency, community college, or area education agency acting as the fiscal agent over this application agrees to maintain financial records and provide such information to the Iowa Department of Education as may be required for fiscal audit.
2. The eligible recipient agrees to report annually to the Department of Education progress of the eligible recipient in achieving state adjusted levels of performance on core indicators of performance for all career and technical education programs. *PL 109-270 (Perkins Act), Title I, Section 113(c)(1)*
3. The eligible recipient agrees that "funds made available under this Act for career and technical education activities shall supplement, and not supplant, non-federal funds expended to carry out career and technical education activities." *PL 109-270 (Perkins Act), Title III Section 311(a)*
4. The eligible recipient agrees to retain certification on non-debarment and suspension from any contractor who will have single or aggregate contracts of \$100,000 or more. *(98-III-USDE-282-7)*
5. The eligible recipient certifies the agency and its principal officers are not suspended or debarred. *(98-III-USDE-282-7).*
6. Funds will not be used to acquire equipment, including computer software, in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the purchasing entity, its employees, or any affiliate of such an organization. *PL 109-270 (Perkins Act), Title III Section 122(c)(12)*
7. Funds will not be used for the purpose of directly providing incentives or inducements to an employer to relocate a business enterprise from one state to another state if such relocation will result in a reduction in the number of jobs available in the state where the business enterprise is located before such incentives or inducements are offered. *PL 109-270 (Perkins Act), Title III Section 322*
8. No federal appropriated funds have been, or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress in connection with making of any federal grant, the entering into any grant or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal grant or cooperative agreement. Sec. 1352, Title 31
9. The eligible recipient agrees to provide a career and technical education program that is of such size, scope, and quality to bring about improvement in the quality of career and technical education programs. *PL 109-270 (Perkins Act), Title I, Section 134(c)(6)*
10. The eligible recipient ensures students who participate in assisted career and technical education programs are taught to the same coherent and rigorous content aligned with challenging academic standards as are taught for all other students. *PL 109-270 (Perkins Act), Title I, Part C, Section 134(b)(3)(D)*

The undersigned certifies their institution will abide by these assurances during the period of this and to the best of his/her knowledge; the information contained in this application is correct and complete.

Signature of Executive Officer:

☐ Dr. ☐ Mr. ☐ Ms.

Date:

Institution: _____ **County-District No:** _____ -
(District / Community College)

B. CONSORTIUM APPLICANT: *To receive funds through the Carl D. Perkins Act, the chief executive officer of the fiscal agent and of the consortium member institutions must sign this assurance statement on behalf of the eligible recipients to certify their commitment to abide by these requirements through the period of this grant award.*

1. The local education agency, community college, or area education agency acting as the fiscal agent over this application agrees to maintain financial records and provide such information to the Iowa Department of Education as may be required for fiscal audit.
2. The eligible recipient agrees to report annually to the Department of Education progress of the eligible recipient in achieving state adjusted levels of performance on core indicators of performance for all career and technical education programs. *PL 109-270 (Perkins Act), Title I, Section 113(c)(1)*
3. The eligible recipient agrees that "funds made available under this Act for career and technical education activities shall supplement, and not supplant, non-federal funds expended to carry out career and technical education activities." *PL 109-270 (Perkins Act), Title III Section 311(a)*
4. The eligible recipient agrees to retain certification on non-debarment and suspension from any contractor who will have single or aggregate contracts of \$100,000 or more. *(98-III-USDE-282-7)*
5. The eligible recipient certifies the agency and its principal officers are not suspended or debarred. *(98-III-USDE-282-7).*
6. Funds will not be used to acquire equipment, including computer software, in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the purchasing entity, its employees, or any affiliate of such an organization. *PL 109-270 (Perkins Act), Title III Section 122(c)(12)*
7. Funds will not be used for the purpose of directly providing incentives or inducements to an employer to relocate a business enterprise from one state to another state if such relocation will result in a reduction in the number of jobs available in the state where the business enterprise is located before such incentives or inducements are offered. *PL 109-270 (Perkins Act), Title III Section 322*
8. No federal appropriated funds have been, or will be paid by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress in connection with making of any federal grant, the entering into any grant or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal grant or cooperative agreement. Sec. 1352, Title 31
9. The eligible recipient agrees to provide a career and technical education program that is of such size, scope, and quality to bring about improvement in the quality of career and technical education programs. *PL 109-270 (Perkins Act), Title I, Section 134(c)(6)*
10. The eligible recipient ensures students who participate in assisted career and technical education programs are taught to the same coherent and rigorous content aligned with challenging academic standards as are taught for all other students. *PL 109-270 (Perkins Act), Title I, Part C, Section 134(b)(3)(D)*

Each of the undersigned members of the consortium certifies their institution will abide by the assurances on page 23 during the period of the grant award and, to the best of their knowledge; the information contained in this application is correct and complete. It is also assured all of the participating agencies have entered into an appropriate shared services agreement, (see Chapter 28E, Iowa Code) which includes the procedure for final disposition of equipment that is purchased with federal funds, that designates a fiscal agent to administer the grant and includes a clear statement of the role and responsibilities of the fiscal agent.

APPENDIX C

TECH PREP APPLICATION APPROVAL CHECKLIST

Part I: Proposed Perkins Performance Level Targets

All recipients are required to accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the Perkins core indicators. If a recipient elects to negotiate with the state, the recipient must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

The additional Tech Prep indicators are not required to have a state negotiated level so each recipient will be required to negotiate with the State to reach agreement on the adjusted levels of performance for each Tech Prep indicator that baseline data can be provided.

<u>Requirements</u>	Meets	Does Not Meet	Comments
1) The recipient has attached the Performance Level Form			
2) The recipient has entered in their Proposed Performance Targets for 2009.			
3) If the performance levels are different than the State Negotiated Performance Levels, then rationale has been provided.			

Part II: Description of Processes and Services

1. Describe the operational procedures for the consortium that will be utilized to plan and implement the activities described in this application. The signed 28E agreement must be attached. Perkins Act Title II, [Sec. 203(a)(1)]

Requirements	Meets	Does Not Meet	Comments
1) Description includes the operational procedures of the consortium.			
2) 28E agreement is attached			

2. Describe how the consortium will provide effective activities that lead to employment placement or the transfer of students to baccalaureate or advanced degree programs. Perkins Act Title II, [(Sec. 204(d)(1)]

Requirements	Meets	Does Not Meet	Comments
1) Description includes how the consortium will provide effective activities that lead to employment placement or the transfer of students to baccalaureate or advanced degree programs.			

3. Describe the process utilized by the Consortium to consult with business, industry, institutions of higher education, and labor organizations within the region in developing the five-year plan. Perkins Act Title II, [(Sec. 204(d)(2))]

Requirements	Meets	Does Not Meet	Comments
1) Description includes the process utilized by the Consortium to consult with business, industry, institutions of higher education, and labor organizations within the region in developing the five-year plan.			

4. Describe how the Consortium addresses the issues of school dropout prevention and reentry and the needs of special populations. Perkins Act Title II, [(Sec. 204(d)(3))]

Requirements	Meets	Does Not Meet	Comments
1) Description includes how the Consortium addresses the issues of school dropout prevention and reentry and the needs of special populations.			

5. Describe how the Consortium will provide education and training in area or skills, including emerging technology, in which there is a significant workforce shortage based on the data provided by the eligible entity in the state under 118 (Iowa Department of Education). Perkins Act Title II, [(Sec. 204 (d) (4))]

Requirements	Meets	Does Not Meet	Comments
1) how the Consortium will provide education and training in area or skills, including emerging technology, in which there is a significant workforce shortage based on the data provided by the eligible entity in the state under 118 (Iowa Department of Education).			

6. Describe how tech prep academy programs will help students meet high academic and employability competencies. Perkins Act Title II, [Sec. 203(c)(2)(D)], [Sec. 204(d)(5)]

Requirements	Meets	Does Not Meet	Comments
1) Description explains how tech prep programs will help students meet high academic and employability competencies.			

7. Describe how the consortium has demonstrated success in coordinating with activities under Title I (Basic Perkins). Perkins Act Title II, [Sec. 204(d)(6)]

Requirements	Meets	Does Not Meet	Comments
1) Description explains how the consortium has demonstrated success in coordinating with activities under Title I (Basic Perkins).			

Part IV: Budget Summary

Requirements	Meets	Does Not Meet	Comments
1) Budget Summary is present.			
3) Budget amounts equal the sum of each activity identified in Part V and the FY09 Application total equals all of the parts.			
4) FY 09 Application Total is equal to the cover page and is equal to or less than the allocated amount.			

Part V: Action Plan for Required Activities

Required Activity #1 – Be carried out under an articulation agreement between the participants in the consortium; *(Section 203(c)(1) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to ensure that programs are carried out under an articulation agreement between the participants in the consortium			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #2 – Develop programs of study for Tech Prep programs. Required elements of “Program of Study” are in the definition section of plan. (*Section 203(c)(1&2) of the Perkins Act of 2006*) (Action plan must include an initiative that is dedicated to the development or implementation of Tech Prep/Career Academy programs of study--See Definitions and/or an initiative that references completed program of study that have been submitted with this application.)

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient’s initiatives to develop and implement programs of study within Tech Prep programs. OR 2) an initiative that references completed program of study that have been submitted with this application.			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year’s funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #3 – Develop Tech Prep programs – (See Definitions) for secondary education and postsecondary education that—

(A) meet academic standards developed by the State;

(B) link secondary schools and 2-year postsecondary institutions, and if possible and practicable, 4-year institutions of higher education, through—

1. non-duplicative sequences of courses in career fields; (ii) the use of articulation agreements; and (ii) the investigation of opportunities for tech prep sec. education students to enroll concurrently in secondary education and postsecondary education coursework;

(C) use, if appropriate and available, work-based or worksite learning experiences in conjunction with business and all aspects of an industry; and

(D) use educational technology and distance learning, as appropriate, to involve all the participants in the consortium more fully in the development and operation of programs;

(*Section 203(c)(3) of the Perkins Act of 2006*)

Consist of a program of study that—

(A) combines— (i) a minimum of 2 years of secondary education (as determined under State law); with (ii) a minimum of 2 years of postsecondary education in a non-duplicative, sequential course of study; or (iii) an apprenticeship program of not less than 2 years following secondary education instruction; and

(B) integrates academic and career and technical education instruction, and utilizes work-based and worksite learning experiences where appropriate and available;

(C) provides technical preparation in a career field, including high skill, high wage, or high demand occupations;

(D) builds student competence in technical skills and in core academic subjects (as defined in section 9101 of the Elementary and Secondary Education Act of 1965), as appropriate, through applied, contextual, and integrated instruction, in a coherent sequence of courses;

(E) leads to technical skill proficiency, an industry recognized credential, a certificate, or a degree, in a specific career field;

(F) leads to placement in high skill or high wage employment, or to further education; and
(G) utilizes career and technical education programs of study, to the extent practicable.

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to Develop Tech Prep programs.			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #4 – Provide professional development for teachers, faculty, and administrators that—

- (A) supports effective implementation of tech prep/career academy programs;
- (B) supports joint training in the tech prep/career academy consortium;
- (C) supports the needs, expectations, and methods of business and all aspects of an industry;
- (D) supports the use of contextual and applied curricula, instruction, and assessment;
- (E) supports the use and application of technology; and
- (F) assists in accessing and utilizing data, information available pursuant to section 118, and information on student achievement, including assessments;

(Section 203(c)(4) of the Perkins Act of 2006)

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide professional development for teachers, faculty, and administrators			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #5 – Provide professional development programs for counselors designed to enable counselors to more effectively—

- (A) provide information to students regarding tech prep/career academy programs;
- (B) support student progress in completing tech prep/career academy programs, which may include the use of graduation and career plans;
- (C) provide information on related employment opportunities;
- (D) ensure that students are placed in appropriate employment or further postsecondary education;
- (E) stay current with the needs, expectations, and methods of business and all aspects of an industry; and
- (F) provide comprehensive career guidance and academic counseling to participating students, including special populations;

(Section 203(c)(5) of the Perkins Act of 2006)

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to Provide professional development programs for counselors			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #6 – Provide equal access, to the full range of technical preparation programs (including pre-apprenticeship programs), to individuals who are members of special populations, including the development of tech prep/career academy program services appropriate to the needs of special populations; *(Section 203(c)(6) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide equal access, to the full range of technical preparation programs (including pre-apprenticeship programs), to individuals who are members of special populations, including the development of tech prep/career academy program services appropriate to the needs of special populations			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Required Activity #7 – Provide for preparatory services that assist participants in tech prep programs. *(Section 203(c)(7) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide for preparatory services that assist participants in tech prep programs.			
<p>The Action plan is filled out completely.</p> <p>2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked)</p> <p>3) Measurable outcomes are described, including the date(s) of anticipated completion.</p> <p>4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative.</p> <p>5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative.</p> <p>6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)</p>			

Required Activity #8 – Provide coordination with activities conducted under title I. *(Section 203(c)(8) of the Perkins Act of 2006)*

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to provide coordination with activities conducted under title I (Perkins Basic)			
<p>The Action plan is filled out completely.</p> <p>2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked)</p> <p>3) Measurable outcomes are described, including the date(s) of anticipated completion.</p> <p>4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative.</p> <p>5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative.</p> <p>6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)</p>			

Part VI: Action Plan for Permissive Activities*(Complete for each permissive activity identified by the recipient)*

Permissive Activity # Insert Number ()

Requirements	Meets	Does Not Meet	Comments
1) Action plan describes the recipient's initiatives to accomplish the permissive activity listed above.			
The Action plan is filled out completely. 2) The years for the initiative are indicated (if one-year plan, only current year needs to be marked) 3) Measurable outcomes are described, including the date(s) of anticipated completion. 4) Recipient has identified staff assigned and identified the CTE programs involved to accomplish this initiative. 5) The application identifies the FY09 Tech Prep funding amount budgeted for each project/initiative. 6) If the applicant is completing a 5-year application, the other year's funding is estimated. If applicable, other funding sources are indicated with an (X)			

Part VII: Action Plan for Administrative Costs

Administrative Costs: *(Permissive)* Each eligible recipient receiving funds under this grant award shall not use more than 5 percent of the funds for administrative costs associated with the administration of the activities conducted through the award.

Requirements	Meets	Does Not Meet	Comments
The recipient is budgeting not more than 5 percent of the funds for administrative costs associated with the administration of the activities conducted through the award.			

PART VII: Assurances/Agreements - Fiscal Year 2009-2013

A. **CONSORTIUM APPLICANT:** *To receive funds through the Carl D. Perkins Act Title II, the chief executive officer of the fiscal agent and all members of the consortium must sign the assurance statement on behalf of the eligible recipients to certify their commitment to abide by the requirements through the period of the grant award.*

Requirements	Meets	Does Not Meet	Comments
Signatures of the following: 1) The executive officer of the fiscal agent 2) Each consortium member 3) Regional planning Board or regional advisory committee chair (If utilized).			

PART VIII: Regional Tech Prep Application Checklist

Requirements	Meets	Does Not Meet	Comments
<p>The following items have been submitted with the application.</p> <ol style="list-style-type: none">1) Cover Page2) List of Tech Prep and Career Academy Education Programs. PROJECT TITLE: REGIONAL TECH PREP EDUCATION GRANT

CIP NUMBER: 68.06010000

CODES: 05 05 11 85

General Information: One grant will be awarded to a consortium in each educational region of the State. The consortium must be composed of all local educational agencies, the area educational agency, and the community college. The State proprietary schools or apprenticeship programs within the region may also be members of the consortium. The fiscal agent of a consortium shall be the community college. The community college will be responsible for administering the program and reporting responsibilities including accounting for all federal funds expended under this grant. **NOTE:** All members of the consortium must have the opportunity to participate in the development of the action plan and budget or agree to function as a non-participating member of the consortium. (Refer to the attachment for a list of Regional Tech Prep/Career Academy coordinators and Department of Education consultants by merged area.)

Purpose: The purpose of the Carl D. Perkins Career and Technical Education Act of 2006 is to develop more fully the academic and career and technical skills of secondary students and postsecondary students who elect to enroll in career and technical education programs by:

1. building on the efforts of states and localities to develop challenging academic and technical standards and to assist students in meeting such standards, including preparation for high skill, high wage, or high demand occupations in current or emerging professions;
2. promoting the development of services and activities that integrate rigorous and challenging academic and career and technical instruction, and that link secondary and postsecondary education for participating career and technical education students;
3. increasing state and local flexibility in providing services and activities designed to develop, implement, and improve career and technical education, including tech prep education; and
4. conducting and disseminating national research, and providing information on best practices that improve career and technical education programs, services and activities;
5. providing technical assistance that-
 - A. promotes leadership, initial preparation, and professional development at the state and local levels; and
 - B. improves the quality of career and technical education teachers, faculty, administrators, and counselors;
6. supporting partnerships among secondary schools, postsecondary institutions, baccalaureate degree granting institutions, area career and technical education schools, local workforce investment boards, business and industry, and intermediaries; and
7. providing individuals with opportunities throughout their lifetimes to develop, in conjunction with other education and training programs, the knowledge and skills needed to keep the United States competitive. “

Carl D. Perkins Career and Technical Education Act of 2006, Section 2

Tech Prep and Career Academy programs: Tech prep and career academy programs include at least two years of secondary education linked to post-secondary education leading to a postsecondary education industry-recognized certificate or credential, including the bureau of apprenticeship and training; Associate of Applied Science (AAS), which may include a certificate or diploma; Associate of Science (AS) with a career option in a specific career field. ((256.11(5) h; 258.3A; 258.4 (requirements for Vocational Education); 260C.14 and 260C.18A 281-47.2(260C) (requirements for Career Academies). Tech prep requires a program structure consisting of two years of secondary, leads to an associate degree and meets the program of study requirements as listed below.

Requirements for Career and Technical Education Programs of Study:

- Be consistent with Iowa Code for secondary and postsecondary schools. (Iowa Code 256.11(5) h; 258.3A; 258.4; 281-46(258); 281-12(2&6); 281-24.5(3-6); (Requirements for Vocational Education); Chapter 24 (Administrative Rules); 260C.14 and 260.18A 281-47.2(260C) (Requirements for Career Academies).
 - In accordance with Iowa Code, career and technical programs of study will consist of coherent and rigorous curriculum that:
 - Includes academic and technical content,
 - Is a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education, and
 - Adequately prepares students to succeed in postsecondary education leading to an industry recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- All secondary students must meet the same high school graduation requirements per Iowa Code 256.7(26)
- The secondary career and technical education programs of study may include concurrent enrollment opportunities for postsecondary credit. As part of the needs assessment process, local school districts and community colleges shall evaluate opportunities for concurrent enrollment.
- Career and technical education programs of study must include a sequence of at least three units of CTE coursework offered to the secondary level and linked to postsecondary education leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- The career and technical education programs of study at the secondary level will include competency based applied learning that contributes to academic knowledge, higher-order thinking skills, reasoning and problem-solving skills, work attitudes, general employability skills, leadership, and knowledge of all aspects of the industry including entrepreneurship.
- Career and technical education programs will have an advisory committee with representation of secondary and postsecondary levels of instruction as well as business and industry as applicable.
- Career and technical programs will be evaluated through an annual review of the Perkins performance requirements for academic and technical attainment, placement and retention data, degree attainment data, and nontraditional career data for secondary and postsecondary programs. In addition, Iowa Code requires a more in-depth review of 20 percent of all CTE programs annually.

Use of Funds: Each consortium shall use funds received through the grant to develop, improve, and support Tech Prep program(s) in its region. Expenditures for the purchase or lease of instructional equipment and aides are allowable. The funds received through this grant must be used to supplement and not supplant local and/or state funds.

A. Required Activities:

Each consortium receiving funding under Title II shall demonstrate activities that address each of the required components of a Tech Prep Program. Each Tech Prep program shall:	
<u>T-R-1</u> (Required)	Be carried out under an articulation agreement between the participants in the consortium; <i>PL 109-270, Title II, Section 203(c)(1)</i>
<u>T-R-2</u> (Required)	consist of a program of study that— (A) combines— (i) a minimum of 2 years of secondary education (as determined under State law); with (ii) (I) a minimum of 2 years of postsecondary education in a nonduplicative, sequential course of study; or (II) an apprenticeship program of not less than 2 years following secondary education instruction; and (B) integrates academic and career and technical education instruction, and utilizes work-based and worksite learning experiences where appropriate and available; (C) provides technical preparation in a career field, including high skill, high wage, or high demand occupations; (D) builds student competence in technical skills and in core academic subjects (as defined in section 9101 of the Elementary and Secondary Education Act of 1965), as appropriate, through applied, contextual, and integrated instruction, in a coherent sequence of courses; (E) leads to technical skill proficiency, an industry recognized credential, a certificate, or a degree, in a specific career field; (F) leads to placement in high skill or high wage employment, or to further education; and (G) utilizes career and technical education programs of study, to the extent practicable; <i>PL 109-270, Title II, Section 203(c)(2)</i>
<u>T-R-3</u> (Required)	include the development of tech prep programs for secondary education and postsecondary education that— (A) meet academic standards developed by the State; (B) link secondary schools and 2-year postsecondary institutions, and if possible and practicable, 4-year institutions of higher education, through— (i) nonduplicative sequences of courses in career fields; (ii) the use of articulation agreements; and (iii) the investigation of opportunities for tech prep secondary education students to enroll concurrently in secondary education and postsecondary education coursework; (C) use, if appropriate and available, work-based or worksite learning experiences in conjunction with business and all aspects of an industry; and (D) use educational technology and distance learning, as appropriate, to involve all the participants in the consortium more fully in the development and operation of programs; <i>PL 109-270, Title II, Section 203(c)(3)</i>
<u>T-R-4</u> (Required)	include in-service professional development for teachers, faculty, and administrators that— supports effective implementation of tech prep programs; supports joint training in the tech prep consortium; supports the needs, expectations, and methods of business and all aspects of an industry; supports the use of contextual and applied curricula, instruction, and assessment; supports the use and application of technology; and assists in accessing and utilizing data, information available pursuant to section 118, and information on student achievement, including assessments; <i>PL 109-270, Title II, Section 203(c)(4)</i>
<u>T-R-5</u> (Required)	include professional development programs for counselors designed to enable counselors to more effectively— 3) provide information to students regarding tech prep programs; 4) support student progress in completing tech prep programs, which may include the use of graduation and career plans; 5) provide information on related employment opportunities; 6) ensure that students are placed in appropriate employment or further postsecondary education; 7) stay current with the needs, expectations, and methods of business and all aspects of an industry; and 8) provide comprehensive career guidance and academic counseling to participating students, including special populations; <i>PL 109-270, Title II, Section 203(c)(5)</i>

<u>T-R-6</u> (Required)	provide equal access, to the full range of technical preparation programs (including preapprenticeship programs), to individuals who are members of special populations, including the development of tech prep program services appropriate to the needs of special populations; <i>PL 109-270, Title II, Section 203(c)(6)</i>
<u>T-R-7</u> (Required)	provide for preparatory services that assist participants in tech prep programs; <i>PL 109-270, Title II, Section 203(c)(7)</i>
<u>T-R-8</u> (Required)	coordinate with activities conducted under title I. ; <i>PL 109-270, Title II, Section 203(c)(8)</i>

Permissive Activities:

Funds made available to an eligible recipient under this title may be used-	
<u>T-P-1</u> (Permissive)	provide for the acquisition of tech prep program equipment; <i>PL 109-270, Title II, Section 203(d)(1)</i>
<u>T-P-2</u> (Permissive)	acquire technical assistance from State or local entities that have designed, established, and operated tech prep programs that have effectively used educational technology and distance learning in the delivery of curricula and services; <i>PL 109-270, Title II, Section 203(d)(2)</i>
<u>T-P-3</u> (Permissive)	establish articulation agreements with institutions of higher education, labor organizations, or businesses located inside or outside the State and served by the consortium, especially with regard to using distance learning and educational technology to provide for the delivery of services and programs; <i>PL 109-270, Title II, Section 203(d)(3)</i>
<u>T-P-4</u> (Permissive)	improve career guidance and academic counseling for participating students through the development and implementation of graduation and career plans; and <i>PL 109-270, Title II, Section 203(d)(4)</i>
<u>T-P-5</u> (Permissive)	develop curriculum that supports effective transitions between secondary and postsecondary career and technical education programs. <i>PL 109-270, Title II, Section 203(d)(5)</i>

Tech Prep and Career Academy Program Directory: Tech Prep and Career Academy programs will be verified through the Perkins Basic Application process. Tech Prep/Career Academy coordinators will be required to certify the programs are offered at the secondary schools and must ensure that the linkages are correct. A full approval cannot be granted for the Tech Prep application until this form is submitted with all signatures.

Tech Prep Consortium Agreement [Sec. 203(c)(1): In order to receive tech prep funds, each eligible program must be part of a consortium agreement. The state of Iowa is divided into 15 merged educational regions, each served by a community college. Another entity, area education agencies (AEAs), provides support services to respective K-12 districts (local education agencies). The consortium agreement must include a respective area education agency, community college, and K-12 district.

A second requirement for tech prep funding is that all local education agencies (LEAs) within the area must be invited and encouraged to be a member of the Tech Prep consortium. An articulation agreement delineating the responsibilities of the consortium for establishing and operating tech prep programs must be signed by the superintendent of each participating secondary district. Official representatives of the area education agency and community college as well as regional board chair (where applicable) also sign the agreement. If a secondary district elects not to participate in the consortium, an affidavit to that effect must be signed.

Tech Prep consortia will be encouraged to utilize the existing Regional Planning Board (Iowa Code 46.7(6)) or a regional advisory committee comprised of representatives from the following groups: the AEA, community college, K-12 districts, parents, business, industry, labor, workforce development, economic development, and chambers of commerce. Minutes of the regional advisory committee meetings will be made available to all consortia members. An annual report of the activities and outcomes of the Tech Prep plan shall be distributed to regional advisory committee members. If a regional advisory committee is utilized, the chairperson must also sign the annual tech prep grant application to ensure the committee is included in the process.

A 28E agreement articulating the responsibilities of the consortium for operational policies and procedures of the tech prep grant must be signed by the appropriate administrator of each participating agency as well as each secondary district electing not to participate in the consortium.

Chapter 28E of the Code of Iowa requires that when two or more public entities enter into a joint or cooperative undertaking, the agreement must be in writing and must address the following:

28E.5 Specifications. Any such agreement shall specify the following:

- Its duration.
- The precise organization, composition and nature of any separate legal or administrative entity created thereby together with the powers delegated thereto, provided such entity may be legally created. However, if the agreement establishes a separate legal or administrative entity, the entity shall, when investing funds, comply with the provisions of sections [12B.10](#) and [12B.10A](#) through [12B.10C](#) and other applicable law.
- Its purpose or purposes.
- The manner of financing the joint or cooperative undertaking and of establishing and maintaining a budget.
- The permissible method or methods to be employed in accomplishing the partial or complete termination of the agreement and for disposing of property upon such partial or complete termination.
- Any other necessary and proper matters.
-

28E.6 Additional provisions.

- If the agreement does not establish a separate legal entity to conduct the joint or co-operative undertaking, the agreement shall also include:
- Provision for an administrator or a joint board responsible for administering the joint or co-operative undertaking. In the case of a joint board, public agencies party to the agreement shall be represented.
- The manner of acquiring, holding and disposing of real and personal property used in the joint or co-operative undertaking.

28E.7 Obligations not excused. No agreement made pursuant to this chapter shall relieve any public agency of any obligation or responsibility imposed upon it by law except that to the extent of actual and timely performance thereof by a joint board or other legal or administrative entity created by an agreement made hereunder, said performance may be offered in satisfaction of the obligation or responsibility; and

28E.8 Filing and recording. Before entry into force, an agreement made pursuant to this chapter shall be filed with the secretary of state and recorded with the county recorder. In counties in which the office of county recorder is abolished, the agreement shall be recorded with the county auditor.

Code of Iowa 28E.5-8

Funding Period: July 1, 2008 – June 30, 2009

Recipients may request reimbursement for expenditures incurred to a maximum of 80% of the annual grant award. The balance of expenditures incurred will be reimbursed upon submission of all required reports at the conclusion of the project. All funds allocated within the funding period must be spent by June 30 of that fiscal year.

Project Funding Availability: Title II of the Carl D. Perkins Career and Technical Education Act of 2006 (PL 109-270) authorizes the use of federal funds for the development, improvement, and the support of Tech Prep Education programs in the region. One grant will be awarded to each regional consortium in the state. The Iowa Department of Education reserves the right to reject any and/or all applications.

Consortia are eligible to receive an allocation of \$50,000 and an additional amount based on the number of local educational agencies in their respective region. (Refer to attachment for the amount allocated to each region for planning purposes.) Approved budgets will be reimbursed at 100%; local match is not required, but is encouraged.

Administrative Costs: Up to 5% of the Perkins funds may be used for administrative costs associated with the administration of activities assisted under this application.

Definitions:

Basic Grant Program Requirements-Secondary Programs:

A secondary career and technical education program must:

- include a minimum of three sequential units; (each district must offer at least one program in four different service area) be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- be articulated with one or more postsecondary programs of study;
- include field, laboratory, clinical, or on-the-job training component; and
- have an active advisory committee composed of employers, and employees from the field the program(s) is preparing individuals to enter. (Iowa code 258.9)

Iowa Code 218-IAC 12.5(5)(i)

Basic Grant Program Requirements-Post-Secondary Programs:

A postsecondary career and technical education program must:

- include a minimum of 15 and not more than 86 credit hours of instruction;
- be competency-based;
- include instruction in all aspects of the industry, general employability, technical, leadership, and entrepreneurship skills;
- include field, laboratory, clinical, or on-the-job training component;
- have an active advisory committee composed of employers and employees from the field the program(s) is preparing individuals to enter; and;
- culminate with a certificate, diploma, or degree.

Iowa Code 281-21 & 46.

Tech Prep Program Structure:

In order to receive tech prep funds, each eligible program must be part of a consortium agreement.

The state of Iowa is divided into 15 merged educational regions, each served by a community college.

Another entity, area education agencies (AEAs), provides support services to respective K-12 districts (local education agencies).

The consortium agreement must include a respective area education agency, community college, and K-12 district. A second requirement for tech prep funding is that all local education agencies (LEAs) within the area must be invited and encouraged to be a member of the Tech Prep consortium. An articulation agreement delineating the responsibilities of the consortium for establishing and operating tech prep programs must be signed by the superintendent of each participating secondary district. Official representatives of the area education agency and community college as well as regional board chair also sign the agreement. If a secondary district elects not to participate in the consortium, an affidavit to that effect must be signed.

Tech Prep consortia will be encouraged to utilize a regional advisory board as the consortia members develop the regional tech prep plan. The regional advisory board would be encouraged to contain representatives from the following groups: the AEA, community college, K-12 districts, parents, business, industry, labor, workforce development, economic development, and chambers of commerce.

Minutes of the regional advisory board meetings would be made available to all consortia members. An annual report shall be distributed to member stakeholders to help foster ongoing improvement of tech prep programs.

The regional advisory board has responsibility to review the development of the plan and provide assistance in the implementation of the regional tech prep activities.

All program elements defined in the Tech Prep section of the Carl Perkins Act of 2006 are included in the work of the consortium. The regional advisory board chair must also sign the annual tech prep grant application and ensures that board is included in the process.

Tech Prep

Tech prep programs will assist students in meeting high academic standards through the integration of academic skills into the scope and sequence of career and technical programs. Since tech prep programs in Iowa are part of the comprehensive high school structure, tech prep students must complete the same minimum general studies (academic) course requirements established for all secondary students for graduation.

Instructional modality and methodology will provide learning experiences that challenge students to high levels of academic attainment. Assessments used in accordance with NCLB legislation will document student learning progress and attainment. The Iowa Tests of Educational Development (ITEDs) are used within the state to measure student learning.

The development, design, and delivery of tech prep shall integrate programs of study and follow the Iowa Tech Prep Model which has the following components:

- Non-duplicative sequence of three or more units of CTE courses.
- Competency-based (skill standards) instruction.
- Articulation with postsecondary programs leading to an associate's degree or two-year certificate.
- Foster and include opportunities for secondary students to concurrently enroll in postsecondary courses.
- Academic courses in mathematics, science, and/or *communications*.
- Includes employability, leadership, and may include entrepreneurial components; may employ worksite learning experiences in conjunction with all aspects of an industry.

Educational technology and distance learning modalities will be encouraged and used where applicable and conducive to student learning styles. Tech Prep courses are offered through distance learning/web-based delivery as well as the interactive Iowa Communications Network (ICN).

Career Academy

A career academy means a program of study that combines a minimum of two years of secondary education with an associate degree in a career preparatory program. A diploma or certificate may be provided as options within the associate degree program. The career academy is a program of study that is nonduplicative, sequential, and ensures that the course of study is skill standards-based, integrates academic and technical instruction, utilizes work-based and work site learning where appropriate and available, utilizes an individual career planning process with parent involvement, and prepares an individual for entry and advancement in a high-skill and rewarding career field as specified in 2003 Iowa Acts, First Extraordinary Session, chapter 2, section 76. A career academy may include articulation of the community college associate degree to a baccalaureate degree. "Nonduplicative" means that the postsecondary component of the career academy is not currently offered at a participating secondary school.

The career academy should strengthen the academic component of career and technical education through the integration of academic and career and technical education; build student competence in mathematics, science, and communications in a coherent sequence of courses; and lead to an associate degree that prepares an individual for entry and advancement in a high-skills and rewarding career field that may include further education.

Iowa Code 281-47.1(260C)

Program of Study:

Programs of Study in Iowa must meet the following requirements:

- Be consistent with Iowa Code for secondary and postsecondary schools and the State Board of Education approved CTE program approval requirements and procedures. Specific guidelines can be found in Iowa Code as identified here: (Iowa Code 256.11(5) h; 258.3A; 258.4; 281-46(258); 281-21.45(2 & 6) and 281-24.5(3- 6) (Requirements for Vocational Education); 260C.14 and 260.18A 281-47.2(260C) (Requirements for Career Academies).
- In accordance with Iowa Code, career and technical programs of study will consist of coherent and rigorous curriculum that:
 - Includes academic and technical content,
 - Is a coordinated, non-duplicative progression of courses that align secondary education with postsecondary education, and
 - Adequately prepares students to succeed in postsecondary education leading to an industry recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- All secondary students must meet the same high school graduation requirements as per Iowa Code 256.7(26).

- The secondary career and technical education programs of study may include concurrent enrollment opportunities for postsecondary credit. As part of the needs assessment process, local school districts and community colleges shall evaluate opportunities for concurrent enrollment.
- Career and technical education programs of study must include a sequence of at least three units of CTE coursework offered to the secondary level and linked to postsecondary education leading to an industry-recognized certificate or credential, including the Bureau of Apprenticeship and Training, credit certificate, diploma, Associate of Applied Science (AAS) or Associate of Science (AS) with a career option in a specific career field.
- The career and technical education programs of study must be competency based and include applied learning that contributes to academic knowledge, higher-order thinking skills, reasoning and problem-solving skills, work attitudes, general employability skills, leadership, and knowledge of all aspects of the industry including entrepreneurship.
- Career and Technical Programs must have an advisory committee with representation of secondary and postsecondary levels of instruction as well as business and industry as applicable. The state board has adopted rules requiring that the memberships of local advisory councils fairly represent each sex and minorities residing in the school district.
- Career and technical programs will be evaluated through an annual review of the Perkins performance requirements for academic and technical attainment, placement and retention data, degree attainment data, and nontraditional career data for secondary and postsecondary programs. In addition, Iowa Code requires a more in-depth review of 20 percent of all CTE programs annually

High-wage, high-skill, or high-demand occupations

In addressing high-wage, high-skill, or high-demand, multiple factors will be considered as eligible recipients develop and offer programs that lead to high-wage, high-skill, or high-demand occupations. The state will collaborate with Iowa Workforce Development (Department of Labor) to provide assistance to the eligible recipients regarding regional determination of high-wage, high-skills, or high demand occupations. Iowa Workforce Development (IWD) determines high-demand on a statewide level as an industry with an annual growth rate of 1.2 percent (1.2%). High-wage is determined on a regional level as being above the mean annual wage for employment. IWD can provide high-skill information on a regional level. IWD routinely surveys regional industries to determine skills needed for workforce enhancement and development. Such data is used by educational stakeholders to project new or revise existing career and technical programs of study.

Participant

Secondary Level—A secondary student who has earned one half (0.5) or more units in any career and technical education program area.

Postsecondary Level—A post-secondary student who has been accepted in a career and technical education program and has earned one (1) or more credits in technical core of the career and technical education program in the student is enrolled.

Concentrator

Secondary Level—A secondary student who has earned one and a half (1.5) or more units in a single career and technical education program area (e.g. Agriculture sciences, health science).

Postsecondary Level—A post-secondary student who: 1.) has been accepted in a career and technical education program; and 2.) completes at least twelve (12) credits of the technical core in the career and technical education program that terminates with an award of an industry-recognized credential, a certificate, or a degree; or 3.) completes a short-term career and technical education program sequence of less than 12 credits that terminates with an award of an industry-recognized credential, or a certificate

Special populations

- individuals with disabilities
- individuals from economically disadvantaged families, including foster children
- individuals preparing for non-traditional fields
- single parents, including single pregnant women
- displaced homemakers
- individuals with limited English proficiency

Accountability Requirements-Performance Indicators:

A Perkins Performance report with the FY 07 baseline performance data was sent to each recipient of funds through the Carl D. Perkins Career and Technical Education Act of 2006. This report included an aggregated performance level for each of the performance indicators based on student performance of students enrolled in the recipient's career and technical education programs during the 2006-07 academic year. These data are the baseline data for the recipient for its FY 2009-13 Perkins grant application.

The report also included the State's Negotiated Performance Level target for each of the performance indicators. Recipients may accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the core indicators described below. If a recipient elects to negotiate with the state, it must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

Complete the report by entering the proposed performance level target for each performance indicator and supportive rationale for the proposed performance target. The proposed performance target may be either the State Negotiated Performance Level or a locally determined performance level that demonstrate continuous progress.

The completed report is to be submitted with recipient's FY 09-13 Tech Prep application. **THIS FORM WILL NEED TO BE SUBMITTED YEARLY WITH NEW PERFORMANCE TARGETS**

Application Instructions: Applications will be reviewed for approval when they are received. To insure a prompt and efficient review, please submit two copies of the application to the Iowa Department of Education on or prior to June 1, 2008. The application should be submitted on standard 8 ½” x 11” white paper. Please use only one side of each page and number all pages. The application must be complete and understandable by the reviewers.

An individual who has been authorized by the consortium to submit the application must sign the application. The consortium must designate a tech prep contact person. (Refer to Attachment for a list of current tech prep/career academy coordinators) This individual must be authorized to act on behalf of the consortium and to serve as the representative during the review process and grant’s funding period.

A complete application will consist of the following:

- Cover Page
- Performance Indicators (Part I)
- Description of Process and Services (Part II)
- Budget summary (Part II)
- Action plans (Part IV, V, and VI)
- Assurance Statement (Part VII) (Must be signed by all administrators of all participating agencies.)
- Tech Prep application check list (Part VII)

Submit Applications to:

Patricia Vrbn
Division of Community Colleges and Workforce Preparation
Iowa Department of Education
Grimes State Office Building
Des Moines, Iowa 50319-0146

NOTE: Applications may not be submitted via FAX or E-mail.
Two copies of the application must be submitted.

Timetable: Application Due: June 1, 2008.
Notification of grants awards to Applicants of Grant Awards: July 1, 2008
(Pending any required modification and Department of Education approval)

State Agency Rights and Responsibilities: The Iowa Department of Education and the State Board of Education reserve the right to reject any application, which does not meet the specifications of the request for application (RFA). The Iowa Department of Education is the final approval authority for all reports and products occurring as integral parts of any funding agreement resulting from these applications. One copy of each application will be retained in the files of the Iowa Department of Education.

Assurances: Equal and fair consideration of all populations, regardless of race, religion, national origin, gender, disability, creed, age, or marital status shall be given in the selection of project personnel, advisory or steering committee members, and in other activities operated as part of this project. Assurances of equal access for members of special populations are required as stated in the Carl D. Perkins Career and Technical Education Act.

Assistance: If you have questions or concerns regarding Tech Prep, please contact the Bureau of Career and Technical Education's liaison assigned for your region. (Refer to the attached Regional Tech Prep Fiscal/Grant Contacts for Liaison contact information)

The full text of the Iowa state plan may be found on the Department's website at:
<http://www.iowa.gov/educate/content/blogcategory/184/941/>

A summary, as well as a link to the full text of the Carl D. Perkins Career and Technical Education Act of 2006 (PL 109-270) can be found on the U.S. Department's website at:
<http://www.ed.gov/policy/sectech/leg/perkins/index.html>

Additional copies of this application and the allocation tables may be downloaded from the Department's website at: <http://www.iowa.gov/educate/content/blogcategory/184/941/>

It is the policy of the Iowa Department of Education not to discriminate on the basis of race, color, national origin, gender, disability, religion, creed, age or marital status in its programs or employment practices. If you have questions or grievances related to this policy, please contact the Legal Consultant, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319-0146, 515/281-5295.

• Cover Page Identifying the Eligible Recipient (s)	1
This item identifies the eligible recipient's fiscal agent and contact persons.	
• Part I: Accountability Requirements - Performance Indicators	3
This item identifies the level for each performance indicator that the eligible recipient proposes to meet during the grant's funding period.	
• Part II: Descriptions of Processes and Services	4
This item identifies how the eligible recipient will address system-wide requirements during the grant's funding period.	
• Part III: Budget Summary	5
This item provides summative information concerning the proposed uses of funds during the grant's funding period.	
• Part IV: Action Plans for Required Activities	6-13
This item describes the required activities their projected budgets that will be conducted during the grant's funding period.	
• Part V: Action Plan for Permissive Activities	14
This item describes the permissive activities their projected budgets that will be conducted during the grant's funding period	
• Part VI: Action Plan for Administrative Costs	15
This item describes the administrative costs that will be charged to the grant award during the grant's funding period.	
• Part VII: Assurances/Agreements	16-18
This item identifies the eligible recipients (individual applicants or members of the consortium) and certifies the required assurances/agreements.	
• Part VIII: Checklist	19

Applications will be reviewed for approval as received. To ensure approval of the application prior to the new fiscal year, July 1, 2008, it is necessary to **submit an ORIGINAL and ONE copy of the completed application by June 1, 2008, to:**

**Attn: Patricia Vrbancic
Division of Community Colleges and Workforce Preparation
Iowa Department of Education
Grimes State Office Building
Des Moines, IA 50319-0146**

PART I: ACCOUNTABILITY REQUIREMENTS - PERFORMANCE INDICATORS

A Perkins Performance report with the FY 07 baseline performance data was sent to each recipient of funds through the Carl D. Perkins Career and Technical Education Act of 2006. This report included an aggregated performance level for each of the performance indicators based on student performance of students enrolled in the recipient's career and technical education programs during the 2006-07 academic year. These data are the baseline data for the recipient for its FY 2009-13 Perkins grant application.

The report also included the State's Negotiated Performance Level target for each of the performance indicators. Recipients may accept the State Negotiated Performance Level or negotiate with the State to reach agreement on the adjusted levels of performance for each of the core indicators described below. If a recipient elects to negotiate with the state, it must propose a performance target that demonstrates that the recipient will make progress toward meeting the State Negotiated Performance Level. The proposed target must be expressed in a percentage form so as to be objective, quantifiable, measurable, and provide supportive rationale.

Complete the report by entering the proposed performance level target for each performance indicator and supportive rationale for the proposed performance target. The proposed performance target may be either the State Negotiated Performance Level or a locally determined performance level that demonstrate continuous progress.

The completed report is to be submitted with recipient's FY 09-13 Tech Prep application. **THIS FORM WILL NEED TO BE SUBMITTED YEARLY WITH NEW PERFORMANCE TARGETS**

PART II: DESCRIPTIONS OF PROCESSES AND SERVICES Perkins Act Title II, [(Sec. 204(b))]

1. Describe the operational procedures for the consortium that will be utilized to plan and implement the activities described in this application. The signed 28E agreement must be attached. Perkins Act Title II, [Sec. 203(a)(1)]
2. Describe how the consortium will provide effective activities that lead to employment placement or the transfer of students to baccalaureate or advanced degree programs. Perkins Act Title II, [(Sec. 204(d)(1))]
3. Describe the process utilized by the Consortium to consult with business, industry, institutions of higher education, and labor organizations within the region in developing the five-year plan. Perkins Act Title II, [(Sec. 204(d)(2))]
4. Describe how the Consortium addresses the issues of school dropout prevention and reentry and the needs of special populations. Perkins Act Title II, [(Sec. 204(d)(3))]
5. Describe how the Consortium will provide education and training in area or skills, including emerging technology, in which there is a significant workforce shortage based on the data provided by the eligible entity in the state under 118 (Iowa Department of Education). Perkins Act Title II, [(Sec. 204 (d) (4))]
6. Describe how Tech Prep programs will help students meet high academic and employability competencies. Perkins Act Title II, [Sec. 203(c)(2)(D)], [Sec. 204(d)(5)]
7. Describe how the consortium has demonstrated success in coordinating with activities under Title I (Basic Perkins). Perkins Act Title II, [Sec. 204(d)(6)]

PART III: BUDGET SUMMARY - Fiscal Year 2009

- *Please note that if you are submitting a 5-year plan that the budget will need to be submitted annually.*
- *All funds allocated within the funding period must be expended by June 30 of that fiscal year*

Enter the amount projected to be expended for each of the required activities and each permissive activity selected for use of funds received through this grant award.

Projected amount to expended for each required and permissive activity <i>(Total from each Action Plan)</i>	FY09 Budget
	Tech Prep
Required Activities;	
T-R-1: Be carried out under an articulation agreement between the participants in the consortium;	
T-R-2: Develop programs of study for Tech Prep programs	
T-R-3: Develop and improve Tech Prep programs	
T-R-4: Provide professional development for teachers, faculty, and administrators	
T-R-5: Provide professional development programs for counselors	
T-R-6: Provide equal access, to the full range of technical preparation programs	
T-R-7: Provide for preparatory services	
T-R-8: Coordinate with activities conducted under Title I. (Perkins Basic)	
Sub-total for Required uses of funds;	
Permissive Activities:	
T-P-1: Provide for the acquisition of equipment	
T-P-2: Acquire technical assistance from State or local entities	
T-P-3: Establish articulation agreements	
T-P-4: Improve career guidance and academic counseling	
T-P-5: Develop curriculum that supports transition	
Sub-total for Permissive uses of funds:	
Administrative Costs:	
T-A-1: Administrative Costs (not to exceed 5% of the total grant award)	
FY09 Application Total	\$.00

Part IV: Action Plan for Required Activities

All eligible recipients must conduct at least one initiative for each of the required activities listed below within the timeframe the funds are available to the recipient. A recipient may utilize funds received through this application or other funds available to the recipient to pay for the costs incurred conducting the initiative.

Required Activity # 1: Be carried out under an articulation agreement between the participants in the consortium; *(Section 203(c)(1) of the Perkins Act of 2006)*

Description of the initiative(s) to be conducted:

		Indicate Years for Initiative (X)								For 5-Year Plan - Estimated				
											Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)			
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13		
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>									
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>									

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part IV: Action Plan for Required Activities

All eligible recipients must conduct at least one initiative for each of the required activities listed below within the timeframe the funds are available to the recipient. A recipient may utilize funds received through this application or other funds available to the recipient to pay for the costs incurred conducting the initiative.

Required Activity # 2: Develop programs of study for Tech Prep programs. Required elements of “Program of Study” are in the definition section of plan. *(Section 203(c)(1&2) of the Perkins Act of 2006)*

(Action plan must include an initiative that is dedicated to the development or implementation of a program of study--See Definitions and/or an initiative that references completed programs of study that have been submitted with this application.)

Description of the initiative(s) to be conducted:

		Indicate Years for Initiative (X)								For 5-Year Plan - Estimated		
									Put in X if Other than Perkins Funds Are Utilized (may have both Perkins funds and an X listed if applicable)			
Initiative(s)/Action Steps	FY 09	FY 10	FY 11	FY 12	FY 13	Measurable Outcomes	Assigned Staff/CTE Program	Perkins Funds FY09	Perkins Funds FY10	Perkins Funds FY11	Perkins Funds FY12	Perkins Funds FY13
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>							

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part IV (Cont): Action Plan for Required Activities– IF YOU ARE SUBMITTING A ONE-YEAR APPLICATION, THIS ACTIVITY MUST STILL BE COMPLETED FOR 5 YEARS TO MEET THE REQUIREMENTS OF PERKINS LAW.

Required Activity # 3: Develop Tech Prep programs – (See Definitions) for secondary education and postsecondary education that—

- (A) meet academic standards developed by the State;
- (B) link secondary schools and 2-year postsecondary institutions, and if possible and practicable, 4-year institutions of higher education, through—
 - 1. non-duplicative sequences of courses in career fields; (ii) the use of articulation agreements; and (ii) the investigation of opportunities for tech prep sec. education students to enroll concurrently in secondary education and postsecondary education coursework;
- (C) use, if appropriate and available, work-based or worksite learning experiences in conjunction with business and all aspects of an industry; and
- (D) use educational technology and distance learning, as appropriate, to involve all the participants in the consortium more fully in the development and operation of programs; *(Section 203(c)(3) of the Perkins Act of 2006)*

Consist of a program of study that—

- (A) combines— (i) a minimum of 2 years of secondary education (as determined under State law); with (ii) a minimum of 2 years of postsecondary education in a non-duplicative, sequential course of study; or (iii) an apprenticeship program of not less than 2 years following secondary education instruction; and
- (B) integrates academic and career and technical education instruction, and utilizes work-based and worksite learning experiences where appropriate and available;
- (C) provides technical preparation in a career field, including high skill, high wage, or high demand occupations;
- (D) builds student competence in technical skills and in core academic subjects (as defined in section 9101 of the Elementary and Secondary Education Act of 1965), as appropriate, through applied, contextual, and integrated instruction, in a coherent sequence of courses;
- (E) leads to technical skill proficiency, an industry recognized credential, a certificate, or a degree, in a specific career field;
- (F) leads to placement in high skill or high wage employment, or to further education; and
- (G) utilizes career and technical education programs of study, to the extent practicable.

(Duplicate this form as necessary for initiatives conducted per this requirement.)

Part VII: Assurances/Agreement – FY 2009-FY 2013

1. The Community College providing fiscal control over this local plan agrees to provide for fiscal control, maintain financial records and provide such information to the Iowa Department of Education as may be required for fiscal audit.
2. The eligible recipient agrees to report annually to the Department of Education the progress of the eligible recipient performance on the indicators of performance for the Tech Prep programs. [Sec 113,(b)(4), [Sec. 203,(e)]
3. The eligible recipient agrees that the “Funds made available under this act for career and technical education activities shall supplement, and not supplant, non-Federal funds expended to carry out vocational and technical education activities.” [Sec. 311, (a)]
4. The eligible recipient agrees to retain certification on non-debarment and suspension from any contractor who will have single or aggregate contracts of \$100,000 or more. (98-111-USDE-282-7)
5. The eligible recipient certifies that the agency and its principal officers are not suspended or debarred. (98-111-USDE-2823-7)
6. Funds will not be used to acquire equipment, including computer software, in any instance in which such acquisition results in a direct financial benefit to any organization representing the interests of the purchasing entity, its employees, or any affiliate of such an organization. [Sec. 122,(C)(12)]
7. Funds will not be used for the purpose of directly providing incentives or inducements to an employee to relocate a business enterprise from one state to another state if such relocation will result in a reduction in the number of jobs available in the state where the business enterprise is located before such incentives or inducements are offered. [Sec. 322]
8. No federal appropriated funds have been or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of congress, an officer or employee of Congress in connection with the making of any federal grant, the entering into any grant or cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal grant or cooperative agreement. Sec. 1352, Title 31.
9. The eligible recipient ensures that students who participate in the Tech Prep programs receiving assistance are taught the same challenging academic proficiencies as are taught for all other students. [Sec. 134, (b)(3)(d)] [Sec. 201(c)(3)(A)]

Part VII: Assurances/Agreement – FY 2009-FY 2013 (continued)

CONSORTIUM APPLICANT:

Each of the undersigned members of the consortium certifies that their institution has been involved in the development of this five year plan and application for funds, will allow the fiscal agent to submit annual budgets that are aligned to the five-year plan, will abide the assurances described on page 16, and agree to abide by the procedures and activities set forth in it. It also assures that all of the participating agencies have entered into an appropriate shared services agreement that includes operational procedures including the procedure for the final disposition of equipment that has been purchased with federal funds. The agreement should also designate a fiscal agent to administer the grant, and include a clear statement of the role and responsibilities of the fiscal agent.

APPENDIX K

IOWA PROFESSIONAL DEVELOPMENT MODEL OVERVIEW

THE IOWA PROFESSIONAL DEVELOPMENT MODEL

EXECUTIVE SUMMARY

What is the Iowa Professional Development Model?

The Iowa Professional Development Model focuses on improving student learning and engages all educators in collective professional development. The model provides guidance for local districts to use when designing, implementing, and evaluating the district career development plan as well as the individual teacher career development plans.

What is the purpose of this type of professional development?

The intent of the Iowa Professional Development Model is to provide a structure for professional development that is focused, collaborative, and that directly supports the Comprehensive School Improvement Process (CSIP) goals for student achievement.

What influenced the formation of the model?

The model was established in response to state and federal legislation, current trends in education, and research.

- Overwhelming evidence that well designed staff development, fully integrated with effective school improvement practices, can increase student learning.
- Iowa Student Achievement and Teacher Quality Program (SF 476, 2001)
- Federal legislation - No Child Left Behind Act (2002)
- State and National Standards for Staff Development (National Staff Development Council and the Iowa Teacher Quality Program)

Who developed the model?

The model is a collaborative effort of the Iowa Department of Education and the Iowa Teacher Quality Professional Development Stakeholder Group. This group includes representatives of the major organizations and role groups involved in professional development and school improvement in Iowa.

What are the requirements for school districts?

Each district is required to submit a district career development plan as part of The Comprehensive School Improvement Plan. The first district plans were submitted in September of 2004 (IAC 281—83.6(2)). In September of 2005 individual teacher career development plans will be required. The individual teacher career development plan will be developed, in cooperation with the teacher's supervisor, for each career teacher in the district.

How does a district accomplish gains in student achievement through staff development?

The process that results in student learning is described in the full text of the Iowa Professional Development Model (see DE Web Page). This process involves teachers and administrators in the collective study of student data, goal setting, determining content, designing training/learning opportunities, and using data to measure targeted outcomes, guiding training decisions, and evaluating the program. The Iowa Professional Development Standards establish expectations for the implementation of this process.

What are the Iowa Professional Development Standards?

The Iowa Teacher Quality legislation established standards for professional development. These standards are to be used in designing, delivering, and evaluating the district career development plans.

The Iowa Professional Development Standards

Implementation of a school district's career development plan shall meet the following standards:

1. *Align with the Iowa teaching standards and criteria;*
2. *Deliver research-based instructional strategies aligned with the student achievement goals established by the district;*
3. *Deliver professional development training and learning opportunities that are targeted at instructional improvement and designed with the following components:*
 - *Student achievement data and analysis;*
 - *Theory;*
 - *Classroom demonstration and practice;*
 - *Observation and reflection;*
 - *Teacher collaboration and study of implementation; and*
 - *Integration of instructional technology, if applicable;*
4. *Include an evaluation component that documents the improvement in instructional practice and the effect on student learning; and*
5. *Support the professional development needs of district certified staff responsible for instruction.*

What might a district do this year to get started?

Districts are encouraged to evaluate their current professional development practices to determine where their system of professional development may need strengthening. For a self-assessment tool to be used by local districts, see *School Improvement/Staff Development: Evaluating Current Plans* in Appendix B of the Model.

How can I learn more about the Iowa Professional Development Model?

Iowa Professional Development Model:

1. The focus is on instruction and curriculum. Theory is present underlying the instructional strategy or model selected for staff development. The strategy or model:
 - directly addresses student achievement in an academic area (deep content knowledge in reading, math, science, etc.)
 - has a research base (evidence of improved student achievement across settings, across time, and for all students).(Bransford, Brown and Cocking, 1999; Calhoun, 1994; Kennedy, 1990, 1999; Joyce and Showers, 2002; Schmoker, 1996; Slavin and Fashola, 1998)
2. The **study of implementation** is built in as a routine. The faculty studies student data related to the content of professional development. The faculty regularly studies implementation data to know what students are experiencing. (Joyce and Calhoun, 1996; Joyce and Showers, 2002; Slavin, 1996)
3. **All site and district personnel** responsible for instruction participate in the professional development. All teachers are included and the principal is heavily engaged in all aspects of the initiative. District administrative personnel and the approved provider are involved in training and in providing follow-up. (Operationally, this looks different at the elementary and secondary levels.) Research is clear that when increased student achievement is the goal, it is the collective efforts of educators that accomplish these goals. (Elmore, 2000; Joyce and Calhoun, 1996; Joyce and Showers, 2002; Newmann and Wehlage, 1995; Rosenholtz, 1989; Slavin, 1996; Wallace et al, 1984, 1990)
4. **Goals focusing on student learning** provide the direction for staff development efforts. There is a clearly identified need based on student data and the district's long-range and annual improvement goals as described in the CSIP. The strategy or model selected for staff development can be interpreted/applied in classroom settings. The desired teacher behaviors and the desired student behaviors are described. (Bernhardt, 1998; Rosenholtz, 1989; Schmoker, 1996)
5. **Intensive professional development** is provided. In addition to presentations of information and theory about the instructional strategy, participants are provided with multiple demonstrations modeling the use of the strategy and opportunities to practice using the instructional strategy demonstrated. Professional development is sustained over time. The initiative is designed to last until implementation data indicate that the teachers are implementing the strategy accurately and frequently and student performance goals are met. (Joyce and Showers, 1983, 2002; NSDC, 2001; Odden, et al., 2002; Wallace, LeMahieu, and Bickel, 1990)
6. **Collaboration** is built in with opportunities for teachers to work together on a regular basis. The professional development initiative is part of the day-to-day work of teaching. The focal point of professional development planning and implementation is at the building level. Adequate time is provided for workshop experiences and workplace supports, i.e., planning together, rehearsing and observing lessons (coaching), practicing strategies in the classroom, and collecting, analyzing and discussing data. (Fullan and Hargreaves, 1991; Lieberman and Miller, 1996; Little, 1997; Rosenholtz, 1989; Showers, 1982, 1984, 1985; Showers and Joyce, 1996; Showers, Joyce and Bennett, 1987)
7. The initiative has built in **ongoing follow-up, support, and technical assistance**. An LEA or AEA consultant or other approved provider provides ongoing technical assistance. This technical assistance occurs regularly in classrooms and in the workshop setting. (Joyce and Showers, 2002; Rosenholtz, 1989; Showers, 1982, 1984)
8. **Formative evaluation** ensures the regular and systematic collection of data relevant to stated goals (student progress, implementation of innovations, etc.) and **summative evaluation** provides information about the cumulative impact of a planned change on student learning. Data collected during the formative evaluation process may also be used in the summative evaluation. When student need is driving the planning and design of staff development, data on student response to the content of staff development is essential throughout the process. (Calhoun, 2001; Hertling, 2000; Yap et al., 2000)

APPENDIX L

WRITTEN COMMENTS RECEIVED

March 6, 2008

Mr. Fidelis Ubidigbo
Bureau of Community Colleges and
Career & Technical Education
Iowa Department of Education
401 E 14th St
Des Moines, IA 50319-0146

Dear Mr. Ubidigbo,

I am writing this letter to express my concerns about the proposed funding changes in Carl Perkins IV funds. What is basically being proposed is the funding of post-secondary level at the expense of secondary schools.

Career and technical education (CTE) can only be successful if American high schools provide a comprehensive education. This proposal could take away from the basic foundation. Our programs have the following four goals:

1. Provide career exploration and planning
2. Enhance academic achievement and motivation to learn more
3. Acquire generic work competencies and skills useful for employment
4. Establish pathways for continuing education and lifelong learning.

It is hard enough to keep our schools reflective of the ever changing industry changes in career and technical education. We need to strengthen these programs not reduce the funding.

You are aware of the Davenport Community School District's commitment through CTE programs. We are able through these programs to reach many non-traditional students who learn best by seeing and doing. We have been working hard to articulate our programs with realistic post-secondary options for students. The shift in funding has the priorities reversed.

I strongly ask for your assistance in helping to re-establish the original priorities. If you need additional information or support do not hesitate to call me.

Sincerely,

Julio Almanza
Superintendent

Nancy Bristow
Secondary Perkins Coordinator
Iowa Western Community College

Addressing proposed new split of Secondary Perkins and Post-Secondary Perkins

The AEA 13 Secondary Perkins Allocation for FY09 is projected to be considerably less than FY08.

- There are a number of factors that go into the formula for the district allocations that affect that.
- However, the proposal to allocate 50.6% of the Carl Perkins to Post Secondary and 49.4% to Secondary calculates to about 6% less for high schools than in FY08, just in that part of the formula

It is important that our Community Colleges be prepared with adequate programs to accommodate career and technical education students.

- However, if we do not have sufficient funds in our secondary programs to prepare CTE students adequately, they will not be prepared to enter those programs waiting for them at the college level.
- Just in Area 13, there are approximately 142 CTE programs across the two consortiums that rely on Perkins Secondary funding for support.

* according to Public Hearing info.
50.6 is Secondary
49.4 is Post

> Still 6%

Subject: IASB comments on the 1-07-08 Perkins IV Initial Draft State Plan

Good morning, Jan.

I believe that Susie Olesen reflected our concerns in the last Perkins Application meeting on the ICN on January 11, 2008, but I thought it might be helpful for you to also have them in writing. Thanks for the inclusion of stakeholders in your process and don't hesitate to ask if you have additional questions.

Application Area	IASB Recommendation	Rationale
Program Development	IASB recommends that the Iowa Professional Development Model be implemented at the secondary level and that the implementation of this model be expanded to the post secondary level as well, since there is overlap in service to secondary students, for purposes of this application.	Iowa has allocated significant resources to the development and implementation of the Iowa Professional Development Model, a research-based model that focuses the professional development in the area of greatest student learning need. It includes a training model that can equip teachers with the instructional skills necessary to deliver the content of their subject matter in ways that students will learn it. And finally it includes the provision that the effectiveness of the professional development be evaluated based on student learning. It is an effective model for instructional improvement and while it was established for K-12 teachers, it is

		a model that would benefit post secondary teachers as well.
Tech Prep	IASB recommends the current system of having mandatory advisory groups remain in the next application.	Tech prep funding and programs are more likely to meet the needs of local schools and communities when advisory committees are a part of the ongoing feedback.
Financial and Budget	IASB is concerned the formula for allocation of dollars to local Iowa schools has been altered so as to diminish dollars available to local school districts.	The formula used in the application does not adequately reflect local school districts' increasing financial obligation to fund community college programming for high school course work. The formula using 1/3 contact hours in CTE courses, 1/3 expenditures in CTE courses, and 1/3 federal census data obfuscates the local district financial contribution to community college course development and implementation.

Subject: Perkins IV Comments
Importance: High

Jo and I are in DC lobbying Wed – Fri and will miss the Perkins Community Comments Meeting. Is it possible that we all could meet briefly on this coming Monday to talk about what our mutual concerns are for this new State Plan? I have a CAST telenet between 10 and 11:30 Monday. Otherwise, I am free (for now). We could do a phone meeting.

Here are my concerns:

Secondary:

1. 2S2 (p. 83) Employability Skills Attainment: *“Community colleges may be asked to develop assessments for high schools and minimally shall approve the assessments to be utilized by the high school for which they have articulated programs.”*
2. Also the requirement that 75% of secondary programs comply with the “programs of study” criteria and be linked and articulated to a postsecondary program. **If a small district only has 3 programs – then in effect 100% of its programs must meet the linked programs criteria to meet the 75% benchmark. We’re not all Des Moines and Cedar Rapids and Davenport sized districts out here.**

Postsecondary:

1. 1P1: How are “technical skills” and “employability skills” defined differently? How can the baseline year be FY07 if we have not disaggregated these two types of “skills” for analysis and reporting purposes prior to this point in time? How can FY07 be the baseline year if the NEW requirement is that the “skills assessment” be a valid and approved method from a third party when the FY07 data may not have met this new criteria?
2. 2P1: Retention or Transfer: I’m confused. Are they looking at a fall to spring benchmark or a fall to fall benchmark?
3. 5P1; 5P2: Nontraditional participation and completion: Because our program size is small, even one student makes a difference in outcomes. Also with our small programs and the historical trend of a fishbone enrollment pattern by nontrade students, we consistently are unable to meet these performance indicators.

4. 6P1, 6P2: (Ethnic)Minority Participation and Completion: These are new performance indicators that the state has added to the federal criteria. Our CTE programs historically have low ethnic minority enrollments. Collegewide, when our minority enrollments increase that increase is in the college parallel/college transfer sector not CTE. I fear we will NEVER make this performance indicator no matter how low we negotiate our benchmark. Also, a baseline + 0.5% doesn't sound like much but in reality...?
5. Clarification, will performance indicators, especially nontrad and minority benchmarks, be applied in an program-aggregated manner for an institution or program by program?
6. I'd like "certificate" defined more precisely. For Perkins purposes, how many "credits" will a certificate need to be to qualify as an "industry recognized credential"? For instance, MS MOUS certification is an industry recognized credential but we don't currently report students who only get that credential in our Year End MIS. Other Iowa community colleges may.

Subject: FW: Perkins Issue from Dan Leinen/ Perkins Public Hearing Addresses

I would also like to state my opposition to the new Perkins allocation. I **agree completely** with Dan's comments.

Keeping Perkins dollars in the High School programs will do more good for more kids than in the Community College level. Perkins funding keeps many departments from having out-of-date equipment that schools will not update due to lack of funds.

Add me to those who oppose this new Perkins Allocation and restore the funding levels of previous Perkins Allocations. Raising the amount to High Schools wouldn't hurt either.

If we are to be an agricultural/Career Tech leader in the nation, we must start with students in Middle School and High School. Perkins funding allows these students to work with the best equipment and programs to foster their interest in Agriculture or other Vocational areas. By the time they hit the community college, it is too late to make a great impression on them. Perkins funding allows High School programs to be able to educate these students to their highest levels of achievement.

To: Foelske, Roger [ED]; Adams, Mary Ann [ED]

Subject: Proposed Carl Perkins

Dear Mr. Foelske and Ms. Adams,

I would like to state my opposition to any cut in funds to the Carl Perkins amounts allocated to a school district. In Centerville, it makes a huge difference in keeping our programs as current as possible and maintaining them. We have excellent facilities which are fairly new and to have to start delaying upgrading of technology, equipment, training will not only hurt the staff but more importantly the _students_.

This would then lead to hurting at levels outside the school as the young people would not have as many skills and knowledge background to help them whether they go to post-secondary or the job market.

Please look at reasonable ways to keep funding at least at current levels.

Sincerely,

Dianne Fuller

Agriculture Education Instructor

CTE committee chair

Centerville Comm. Schools

Centerville, IA

The formula for determining how the funds are divided between secondary and post-secondary institutions should take into consideration two additional factors.

- 1.) How many students are enrolled in CTE programs.
- 2.) Research that shows that students who take CTE in ~~post~~ secondary are more likely to take them in post-secondary.

Written Notice of Public Hearing

Carl D. Perkins State Plan Release

ICN Sites February 28, 2008

Comments submitted by: Lorna Kennedy, Tech Prep Coordinator IVCCD

1. Please consider the option to write either the 1 year plan or a ⁵/~~4~~ year plan for Carl Perkins IV--Secondary, Post Secondary and Tech Prep Grant Applications.
2. Please provide Technical Assistance for the third party assessment.
Concern is we need a process and guidance for the Advisory Groups to follow in approving the third party assessments.
3. Tech Prep Coordinators would like to be part of the conversation in deciding the use of the State Perkins Reserve Account Allocations each year.

To: Gruis, Dale [ED]
Subject:

Dale,

Please accept this letter as a strong opposition to the proposed reallocation of Perkins funding!!!!

I looked at the allocations and it would appear our school district would lose approximately \$1400. My thoughts would be; in public schools our funding comes from the state, local taxpayers, and grants such as this. If our grant program funding is cut it could mean a decrease in the programs and services offered to students, or the ability to provide a program to its full potential because of lack in funding for needed essentials. Also, a minimum level of \$15,000 is required to be able to control your own Perkins funding. This proposed cut would force several school districts within our state to consolidate into a consortium. This proposal would virtually eliminate what local control we had left.

Community Colleges have the opportunity to pass costs on through tuition/fees. Public schools do NOT have that avenue to create needed funding and therefore will suffer. Thanks

Subject: More Questions

Roger,

I can not attend the Public Hearing but sure wish I could. I have some questions that could be answered if possible.

1. How was the allocation split between secondary and postsecondary (community colleges) determined?
2. Was the allocation split based on student counts and hours?
3. Are these students being counted by both the local school district and the community college district from the area that they are served?
4. If so, wouldn't this be in effect doubling counting, therefore, reducing the dollars available?
5. Since the proposed Perkins dollars pay out looks like it allocates 50.6% of the dollars to secondary schools (K-12) and 49.4 % to the community college districts. When these percents are compared to the data on student counts, the K-12 students serves 520,599 students compared to community college Fall 2007 individual student counts of 87,072 students. The representation on the Stakeholders Committee and work teams seems to be disproportionate to favor the community colleges. (A quick review of the 5 Work Teams where individuals employment and/or affiliation could be identified seems to completely favor the community colleges.)
The community college had a representative of 45.83% compared to 21.88% for secondary programs on the work teams. Given the student population (nearly 86% in secondary and less than 15% in community colleges) that is served, was this fair representation on the work teams?
6. Could the Department of Education explain how the dollars that were previously allocated to the secondary programs for purchasing equipment to enhanced classroom instruction are being used?
7. How many of the dollars are now being used to supplant salaries that aren't making a difference at the student level?
8. How do the state legislators feel about having dollars taken away from their local high school programs?

Subject: Comment on Proposed Perkins Changes

Roger,

I will not be able to attend the February 28 public hearing ICN session. However, I do have comments with regard to the proposal to shift 10 percent of the FY 09 Perkins allocation from school districts to community colleges. I understand that written comments on this matter may be sent to you. I am hoping that my thoughts will be given consideration as you finalize the FY 09 Perkins Plan.

I coordinate a 29-district Perkins CTE consortium. Based on that experience, I strongly encourage the Department to keep the high school-community college split as it was in past years. Here are my reasons:

1. High School CTE programs have few funding options for program improvement efforts. While districts have had access to additional resources for such initiatives as Advanced Placement, reading, math, science, special education, innovative technology, new teacher mentoring, leadership/governance and the like, Perkins offers virtually the only support vehicle for CTE teachers and programs. Community Colleges, on the other hand, have access to a wider array of funding options, and have the grant writing capacity high schools don't to attract additional dollars.
2. Many CTE teachers I speak with feel that the focus on Math, Reading and expanded "rigorous" (i.e., college-prep, Advance Placement) courses already sends a message that CTE is pretty far down the list of instructional priorities. What message might the Department inadvertently send if it were to take even a portion of the one source available to CTE programs? These teachers work hard with little recognition; their programs offer the relevant context so needed in secondary education. I don't think they deserve another reminder, unintended though it may be, that CTE is not a high priority.

I recognize that other states have different CC-HS Perkins allocation splits. However, the fact that some or many, or even the average allocation is closer to the one the Department is considering is not compelling enough to me to justify the change; particularly in light of the above reasoning.

Thank you in advance for sharing my views with those involved in making the decision regarding the FY 09 Perkins allocation.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

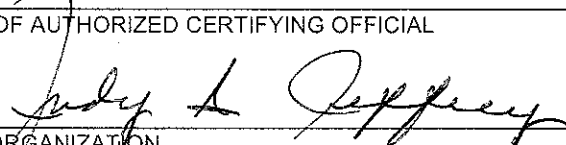

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.) as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544 as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

Standard Form 424B (Rev. 7-97) Back

CERTIFICATION REGARDING LOBBYING

Applicants must review the requirements for certification regarding lobbying included in the regulations cited below before completing this form. Applicants must sign this form to comply with the certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying." This certification is a material representation of fact upon which the Department of Education relies when it makes a grant or enters into a cooperative agreement.

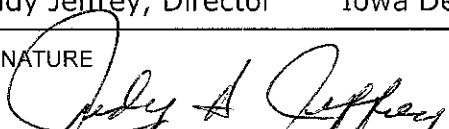

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a Federal contract, grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants and contracts under grants and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certification.

**Certification Regarding Debarment, Suspension, Ineligibility and
Voluntary Exclusion -- Lower Tier Covered Transactions**

This certification is required by the Department of Education regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85 for all lower tier transactions meeting the threshold and tier requirements stated at Section 85.110.

Instructions for Certification

- 1 By signing and submitting this proposal the prospective lower tier participant is providing the certification set out below
- 2 The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- 3 The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 4 The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
- 5 The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction unless authorized by the department or agency with which this transaction originated.

6 The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions" without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

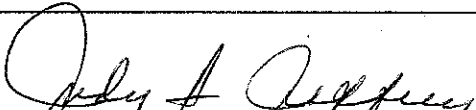

7 A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to check the Nonprocurement List.

8 Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9 Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification

- (1) The prospective lower tier participant certifies by submission of this proposal that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
- (2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

**CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER
RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS**

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying," and 34 CFR Part 85, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Education determines to award the covered transaction, grant, or cooperative agreement.

1 LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

**2 DEBARMENT, SUSPENSION, AND OTHER
RESPONSIBILITY MATTERS**

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110--

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transactions (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

**3 DRUG-FREE WORKPLACE
(GRANTEES OTHER THAN INDIVIDUALS)**

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 -

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants Policy and Oversight Staff, U S Department of Education, 400 Maryland Avenue, S W (Room 3652, GSA Regional Office Building No 3), Washington, DC 20202-4248 Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

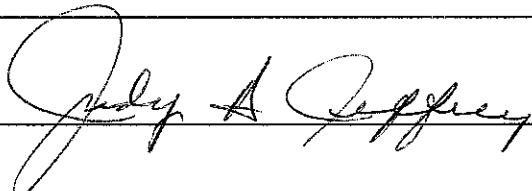

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f)

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address city, county, state, zip code)

Check ☐ if there are workplaces on file that are not identified here

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications

Dear Kathy:

Along with this letter, I have enclosed one copy of the State of Iowa's Five-Year Plan for the Carl Perkins IV Career and Technical Grant Act of 2006.

As part of the assurance process required by regulation Executive Order 12372, a copy of the State plan must be sent to the office in the state responsible for the Intergovernmental Review Process. If you have any questions or concerns regarding this Transition Plan, please refer those to Dr. Roger Utman, Division of Community Colleges and Workforce Preparation, Iowa Department of Education, roger.utman@iowa.gov

Thank you for your assistance.

Sincerely,

A handwritten signature in cursive script that reads "Judy A. Jeffrey".

To Whom It May Concern:

As part of the application process required for the State Five-Year Plan for Carl D. Perkins Grant Funding, the State of Iowa assures that:

- The Iowa State Board of Education is the agency eligible to submit the plan.
- The Iowa State Board of Education has the authority under State law to perform the functions of the State under the program.
- The State is legally able to carry out each provision of the plan.
- All provisions of the plan are consistent with State law.
- The Director of the Department of Education has authority under State law to receive, hold and disburse Federal funds made available under the plan.
- The Director of the Department of Education has authority to submit the plan.
- The State Board of Education adopts and approves the plan.
- The plan is the basis for State operation and administration of the program.

Sincerely,

Judy Jeffrey, Director

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

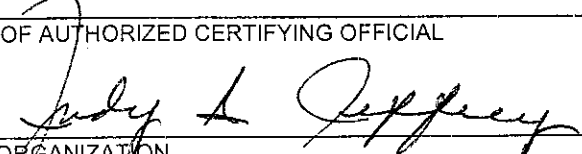

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7) the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq)
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research development, and related activities supported by this award of assistance
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq) pertaining to the care, handling and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations"
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program

CERTIFICATION REGARDING LOBBYING

Applicants must review the requirements for certification regarding lobbying included in the regulations cited below before completing this form. Applicants must sign this form to comply with the certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying." This certification is a material representation of fact upon which the Department of Education relies when it makes a grant or enters into a cooperative agreement.

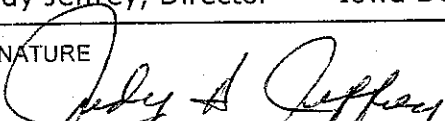

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a Federal contract, grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants and contracts under grants and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certification

**Certification Regarding Debarment, Suspension, Ineligibility and
Voluntary Exclusion -- Lower Tier Covered Transactions**

This certification is required by the Department of Education regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85 for all lower tier transactions meeting the threshold and tier requirements stated at Section 85.110

Instructions for Certification

- 1 By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below
- 2 The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- 3 The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 4 The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded" as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
- 5 The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction unless authorized by the department or agency with which this transaction originated.

6 The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled A Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion-Lower Tier Covered Transactions, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7 A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may but is not required to, check the Nonprocurement List.

8 Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9 Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification

- (1) The prospective lower tier participant certifies by submission of this proposal that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
- (2) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

**CERTIFICATIONS REGARDING LOBBYING; DEBARMENT, SUSPENSION AND OTHER
RESPONSIBILITY MATTERS; AND DRUG-FREE WORKPLACE REQUIREMENTS**

Applicants should refer to the regulations cited below to determine the certification to which they are required to attest. Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 34 CFR Part 82, "New Restrictions on Lobbying," and 34 CFR Part 85, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the Department of Education determines to award the covered transaction, grant, or cooperative agreement.

1 LOBBYING

As required by Section 1352, Title 31 of the U.S. Code, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110, the applicant certifies that:

(a) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the making of any Federal grant, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal grant or cooperative agreement;

(b) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form - LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

(c) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants, contracts under grants and cooperative agreements, and subcontracts) and that all subrecipients shall certify and disclose accordingly.

**2 DEBARMENT, SUSPENSION, AND OTHER
RESPONSIBILITY MATTERS**

As required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85 Sections 85.105 and 85.110--

A. The applicant certifies that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not within a three-year period preceding this application been convicted of or had a civil judgement rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (2)(b) of this certification; and

(d) Have not within a three-year period preceding this application had one or more public transaction (Federal, State, or local) terminated for cause or default; and

B. Where the applicant is unable to certify to any of the statements in this certification, he or she shall attach an explanation to this application.

**3 DRUG-FREE WORKPLACE
(GRANTEES OTHER THAN INDIVIDUALS)**

As required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610 -

A. The applicant certifies that it will or will continue to provide a drug-free workplace by:

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an on-going drug-free awareness program to inform employees about:

(1) The dangers of drug abuse in the workplace;

(2) The grantee's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will:

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency, in writing, within 10 calendar days after receiving notice under subparagraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to: Director, Grants Policy and Oversight Staff, U.S. Department of Education, 400 Maryland Avenue, S.W. (Room 3652, GSA Regional Office Building No. 3), Washington, DC 20202-4248. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph (d)(2), with respect to any employee who is so convicted:

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

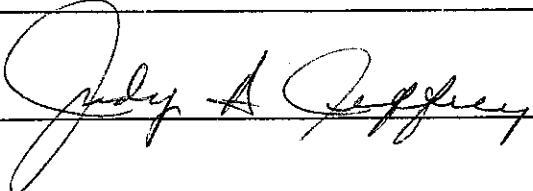

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address city county, state, zip code)

Check ☐ if there are workplaces on file that are not identified here

As the duly authorized representative of the applicant, I hereby certify that the applicant will comply with the above certifications
